

LISTINO PREZZI  
PRICE LIST  
TARIF  
2024

*UL***TOM**

#### CONDIZIONI GENERALI DI VENDITA

Il presente listino sostituisce ed annulla tutti i precedenti e può essere modificato senza preavviso. Il presente listino non costituisce offerta.

1. Ordini. Gli ordini dovranno essere sempre compilati citando codici, articoli, modello, colore, quantità e prezzo. Ogni ordinativo per essere ritenuto valido dovrà essere accettato con conferma scritta da Ultom S.r.l..

Per singoli ordini dall'Italia inferiori a EURO 500,00 netti, verranno addebitate spese forfetarie per EURO 60,00.

2. Prezzi espressi in EURO. I prezzi elencati nel presente listino devono considerarsi I.V.A. esclusa, imballo compreso. Eventuali imballi speciali in cartoni o casse in legno, sono a carico del cliente.

3. Pagamenti. I pagamenti sono validi solo se effettuati direttamente alla Ultom S.r.l. o tramite istituti bancari. Nel caso di ritardato pagamento decorreranno gli interessi di mora al tasso bancario in vigore al momento e l'evasione di ordini in corso verrà sospesa.

4. Riservato dominio. Le vendite con rateizzazioni di pagamento si intendono effettuate con la clausola di riservato dominio (art. 1523 e seguenti codice civile). Solo con il pagamento dell'ultima rata la proprietà del bene sarà trasferita all'acquirente.

5. Termini di consegna. Ultom S.r.l. si impegna a rispettare le date di consegna indicate, salvo cause di forza maggiore. Eventuali ritardi, che tuttavia non daranno comunque diritto ad annullamento o risarcimento, saranno tempestivamente comunicati al Cliente.

6. Reclami e Resi. La merce viaggia a rischio e pericolo del Cliente se resa franco fabbrica. Controllare la merce all'atto del ritiro e contestare immediatamente al vettore le mancanze, le avarie riscontrate, con riserva scritta sul DDT. In assenza di annotazioni la merce si intenderà accettata incondizionatamente. Eventuali reclami e contestazioni rilevati allo scarico dovranno essere inviati per iscritto alla Ultom S.r.l. entro 8 gg. dal ricevimento dei prodotti. Non saranno accettati resi se non autorizzati per iscritto dalla Ultom S.r.l. Si precisa che non può essere garantita l'omogeneità delle finiture impiallacciate per ordinativi trasmessi in tempi diversi.

7. Garanzia. La garanzia è prevista nei termini di legge ad esclusione di:

- uso improprio o scorretto, negligenza o dolo
- manomissione e/o interventi di manutenzione o riparazione impropri eseguiti in modo non conforme alle istruzioni e/o da persone non autorizzate dalla Ultom S.r.l.
- applicazione di carichi superiori alle caratteristiche prestazionali
- urti, sfregamenti o contatti con corpi contundenti
- uso di sostanze improprie per la pulizia o deposito di liquidi, quando il prodotto non sia dichiaratamente resistente a tali sostanze.

8. Modifiche ai prodotti. La Ultom S.r.l. si riserva il diritto di modificare le caratteristiche estetiche, costruttive e dimensionali dei prodotti in ogni momento e senza alcun preavviso. Tuttavia, in caso di ordini in corso le eventuali modifiche saranno comunicate tempestivamente.

9. Foro competente. Per ogni eventuale controversia è esclusivamente competente il Tribunale di Padova.

#### GENERAL TERMS OF SALE

The price list nullifies and replaces the previous one and could be modified without notice. This price list does not constitute an offer.

1. Orders. The order must always be filled in indicating code, model, finishing, colour, quantity and price. In order to be considered valid, each order must be accepted by Ultom S.r.l.

For single orders less than 1000,00 EURO, we will charge you with 90,00 EURO for transport fee.

2. Prices in EURO. The prices indicated on the price List exclude VAT. Packaging is included. The costs of any special packing such as cartons or wooden cases are at customer's own expense.

3. Payments. Payments are valid only if made directly to Ultom S.r.l. or through banks. In case of delayed payment, the overdue interest will be charged at the current bank interest rate, and the execution of orders will be suspended.

4. Retention of title. Purchases with payment by instalments can be carried out under retention of title, according to Art. 1523 and following articles of the Civil Code. All goods remain the property of Ultom S.r.l. until paid in full.

5. Terms of delivery. Ultom S.r.l. undertakes to respect the delivery dates indicated, except in cases of force majeure. Possible delays, that however will not entitle any cancellation of orders or compensation claims, will be timely communicated to the customer.

6. Claims. The goods are dispatched at buyer's own risk if delivered ex works. The goods must be inspected upon receipt and any damage or short deliveries must be notified in writing immediately to the carrier on the transportation document. In case of absence of the note, the consignment will be considered accepted without any reservation. If, upon unloading, other claims are ascertained, they must be sent in writing to Ultom S.r.l. within 8 days from receipt of the goods. The uniformity of the veneered finish can not be guaranteed for orders made at different times.

7. Guarantee. The guarantee, according to Italian laws, does not include the following:

- improper or incorrect use, negligence or fraud
- tampering or incorrect maintenance and repair not conforming to instructions and/or persons not authorized by Ultom S.r.l.
- overloading
- contact with any blunt instruments
- use of cleaning fluids not specified in our instructions.

8. Product modifications. Ultom S.r.l. reserves the right to modify the aesthetic, constructional and dimensional characteristics of the products at any time and without prior notice. Nevertheless, in the event of orders already in progress, possible modifications will be timely communicated.

9. Competent Court. In case of dispute, the Court of Padua has sole jurisdiction.

#### CONDITIONS GENERALES DE VENTE

Ce tarif remplace et annule tous les tarifs précédents et peut être changé sans préavis. Ce tarif ne représente pas une offre.

1. Commandes. Les commandes devront toujours être rédigées avec les codes, les articles, le modèle, la couleur, la quantité et le prix. Chaque commande ne sera valable qu'après son acceptation par confirmation écrite de Ultom S.r.l.

Pour les commandes inférieures à 1000,00 EUROS, nous vous facturerons 90,00 EUROS pour les frais de transport.

2. Prix exprimés en euros. Les prix de ce tarif s'entendent hors TVA, y compris l'emballage. Tous les emballages spéciaux en carton ou caisses de bois sont à la charge du client.

3. Paiements. Les paiements ne sont valables que lorsqu'ils sont versés directement à l'entreprise Ultom S.r.l. ou par des établissements bancaires. En cas de retard de paiement, les intérêts moratoires prennent effet conformément aux taux d'intérêts bancaires courants, et l'exécution de commandes éventuelles en cours est suspendue.

4. Domaine réservé. Les ventes avec paiement échelonné s'entendent réalisées avec la clause de domaine réservé (art. 1523 et suivants du code civil italien). L'acheteur ne devient propriétaire du bien qu'après le paiement du dernier versement.

5. Délais de livraison. Ultom S.r.l. s'engage à respecter les dates de livraison indiquées, sauf toute cause de force majeure. Retards éventuels, que ne donneront pas droit à aucune annulation ni demande d'avoir, seront communiqués dans les plus brefs délais au client.

6. Réclamations et retours de marchandise. La marchandise est transportée aux risques et périls du Client si elle est livrée départ usine. Lors de la livraison, vérifier la marchandise et notifier immédiatement au transporteur toute absence de pièces ou tout défaut éventuel, en spécifiant par écrit toute réserve sur la lettre de transport. En l'absence de remarques, la marchandise est considérée comme acceptée sans réserve. Toute réclamation et contestation éventuelle lors du déchargement doit être spécifiée par écrit à l'entreprise Ultom S.r.l. dans les 8 jours à partir de la réception des produits. Aucun retour de marchandise ne pourra pas être accepté en l'absence de l'autorisation relative et par écrit de l'entreprise Ultom S.r.l. On précise également que l'homogénéité des finitions plaquées ne peut pas être garantie pour les commandes passées à dates différentes.

7. Garantie. La garantie est prévue aux termes de la loi, sauf dans les cas suivants:

- mauvaise utilisation, négligence ou fraude
- altération et/ou opérations d'entretien ou dépannage inappropriées non conformes aux instructions et/ou par des personnes non autorisées par Ultom S.r.l.
- application de charges supérieures aux caractéristiques de performances
- chocs, frictions ou contacts avec des objets contondants
- usage de substances inappropriées pour le nettoyage ou le dépôt de liquides, si le produit n'est pas considéré expressément résistant à ces substances.

8. Modifications des produits. L'entreprise Ultom S.r.l. se réserve le droit de modifier les caractéristiques esthétiques et de construction ainsi que les dimensions des produits à tout moment et sans obligation de préavis. De toute façon, en cas de commandes en cours, toute modification éventuelle sera communiquée dans les plus brefs délais.

9. Jurisdiction. Tout différend relève de la compétence exclusive du Tribunal de Padova (Italie).

Ultom S.r.l. è conforme alla norma UNI EN ISO 9001:2015 - ISO 14001:2015  
Ultom S.r.l. is conform to the UNI EN ISO 9001:2015 standard - ISO 14001:2015  
Ultom S.r.l. respecte la norme UNI EN ISO 9001:2015 - ISO 14001:2015

## INFORMAZIONI GENERALI / INFORMATION / INFORMATION

Tutti gli elementi impiallacciati della produzione Ultom S.r.l. nascono da una attenta ricerca sui materiali e da una particolare cura artigianale nella lavorazione. Eventuali piccole imperfezioni o lievi differenze sono garanzia dell'utilizzo di materie prime naturali lavorate in modo tradizionale. L'impiego stesso di materie prime naturali non garantisce mai l'omogeneità delle finiture impiallacciate per ordinativi trasmessi in tempi diversi.

**Imballo** Tutti gli articoli sono forniti smontati ed imballati in cartone ondulato con doppia onda, gli elementi in vetro su telaio di legno e cartone. Le cassettiere, i contenitori portanti e i classificatori sono forniti montati. Le superfici laccate sono protette con foglio di ovatta. Gli angoli e i bordi sono protetti, ove occorre, con paraspigoli in polistirolo o poliuretano espanso.

**Pulizia** Per le superfici in nobilitato e vetrate si possono utilizzare i prodotti comunemente in uso o un panno umido. Per le superfici laccate ed impiallacciate, solo un panno morbido e umido. Per i metalli trattati con vernici a polveri, un panno morbido umido d'acqua o alcool denaturato. Asciugare bene dopo aver pulito.

The veneered elements produced by Ultom S.r.l. come from an in-depth research of materials and the unique craftsman-like care. Therefore, possible small imperfections or slight differences are a guarantee of the natural raw materials used and worked according to a long-established tradition. The use of natural raw materials can never guarantee the uniformity of the veneered finish for orders made at different times.

**Packing** All items are provided unassembled and packed in double wall corrugated board, glass unit with wood frame and board. The drawer units, pedestl and filing drawers are provided already assembled. The lacquered surfaces are protected with padded sheets. The corners and edges are protected, where necessary, with polystyrene or polyurethane foam corner pads.

**Cleaning** For melamine and glass surfaces it is possible to use commonly available products or a damp cloth. For lacquered and veneered surfaces, only use a soft and damp cloth. For powder painted metals, a soft cloth damp in water or denatured alcohol. Dry well after cleaning.

Tous les éléments plaqués de la production Ultom S.r.l. sont conçus grâce à une recherche soignée des matériaux et un grand savoir-faire artisanal. Toute petite imperfection éventuelle ou toute moindre différence est une garantie de l'emploi de matières premières naturelles, usinées de manière traditionnelle. Même l'utilisation de matières premières naturelles ne garantit jamais l'homogénéité des finitions plaquées en cas de commandes passées à dates différentes.

**Emballage** Tous les articles sont fournis démontés et emballés en carton ondulé double cannelure, les éléments en verre ont une structure en bois et carton. Les éléments de rangement, les meubles portant et les éléments du tiroir sont fournis déjà assemblés. Les surfaces laquées sont protégées par une feuille d'ouate. Dans les zones nécessaires, les angles et les bords sont protégés par des protège-angles en polystyrène ou en polyuréthane expansé.

**Nettoyage** Pour les surfaces en mélaminé, il est possible d'utiliser les produits se trouvant normalement sur le marché ou un chiffon humide. En ce qui concerne les surfaces laquées et plaquées, utiliser exclusivement un chiffon doux et humide. Pour les métaux laqués époxy, utiliser un chiffon doux humide d'eau ou d'alcool dénaturé. Sécher soigneusement après le nettoyage.

Prodotto per uso professionale. Se venduto per scopi estranei all'attività imprenditoriale, commerciale, artigianale o professionale, richiedere la scheda prodotto a Ultom S.r.l.

Product for professional use. If sold for purposes unrelated to commercial, craft or profession business activities, request the Technical Data Sheet from Ultom Srl

Ce produit est conçu pour une utilisation professionnelle. En cas de vente pour des fins différents à l'activité d'entrepreneur, commerciale, artisanale ou professionnelle, demander la fiche technique du produit à l'entreprise Ultom S.r.l.

---

## SCHEMA TECNICA

**Piani** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, con bordi perimetrali ABS spessore mm 2.

Disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio.

**Strutture metalliche** Gamba costituita da un tubolare metallico spessore 20/10, dim. mm 60x30, finitura verniciata a polveri colore bianco, alluminio e nero. Tutte le gambe sono complete di piedino nero per la regolazione millimetrica al pavimento. Gamba elevabile in altezza con maggiorazione, con caratteristiche come sopra, dotata di tubolare metallico di innesto, spessore 20/10, che consente la regolazione in altezza del piano scrivania da mm. 650 a mm 850 attraverso un morsetto di regolazione. L'innesto è completo di piedino la regolazione millimetrica al pavimento. Traversi in tubolare metallico spessore 20/10, dim. mm 35x20, fissati alle testate della gamba.

**Contentitore portante singolo** Contentitore portante per postazione singola, agganciato alle travi della scrivania con staffe metallo verniciato. Dotato di cassetto e anta lato operatore; lato opposto ad anta unica e vano con funzione entrata cavi. Schiena interna per la suddivisione in due vani con conchiglia passacavi diam. mm. 80 in materiale plastico. Struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm. 0,6. Ante e cassetto mm. 18 bordo ABS spessore mm 2, cassetto completo di vaschetta porta cancelleria; scocca cassette in metallo verniciato nero a polveri, guide a sfere. Finitura nobilitata o laccato.

**Contentitore portante per scrivania bench** Contentitore portante laterale per postazioni doppie, agganciato alle travi della scrivania con quattro staffe metallo verniciato. Vani laterali (dim. mm 427x600x740 H) dotati di cassetto e anta, conchiglia passacavi diam. mm 80 su schiena; vano centrale ispezionabile lateralmente (dim. mm 427x453x740 H) predisposto per la distribuzione generale dei cavi di alimentazione elettrica tramite conchiglia diam. mm 80 sulle due schiene e tre conchiglie su parte interna scrivania. Su richiesta, altri componenti per elettrificazione. Struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm. 0,6; ante e cassetto mm. 18 bordo ABS spessore mm 2. Cassetti completi di vaschetta porta cancelleria; scocca cassette in metallo verniciato nero a polveri, guide a sfere. Finitura nobilitata o laccato.

**Accessori: Gonne sottopiano** in pannello spessore mm 18, caratteristiche e finiture come i piani di lavoro. **Cassetto sospeso porta cancelleria** in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Finitura nobilitata o laccato. **Elemento porta computer** sospeso realizzato in metallo. Elemento porta computer su ruote in lamiera forata. **Elettrificazione** in materiale plastico. **Gruppo prese a scomparsa con coperchio scorrevole** con una presa UNEL, una presa RJ45, 1 USB ricarica. **Scatola elettrica** in alluminio con due prese UNEL, due prese RJ45, 1 USB ricarica.

**Top access**, dotato di sportello in alluminio anodizzato con spazzola passacavi colore alluminio. **Canalizzazione:** vasca alloggio cavi in metallo verniciato. **Ricarica wireless a induzione** elemento di ricarica diam. mm. 80 sotto piano (compatibile con smartphone di ultima generazione).

**Divisori in nobilitato** spessore 28 mm. come finitura piano, agganciato sotto al piano con staffe metalliche ad "L" oppure con pinze metalliche color alluminio; **in poliestere**, materiale composito microporoso di fibra di poliestere per confort acustico, sp. 10mm, colore grigio medio melange agganciato sotto al piano con staffe metalliche ad "L"; **pannello acustico** con rivestimento in tessuto con sistemi di fissaggio per scrivania singola e bench. **Vano a giorno** posizionato sopra al contenitore portante per postazioni singole o doppie, struttura in di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Finitura nobilitata o laccato.

**Contentitore sospeso** lateralmente disponibile per scrivania doppia, a giorno o con anta a ribalta, struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Finitura nobilitata o laccato.

**Contentitore laterale con archivio estraibile** a ripiani o con cassetto, struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Finitura nobilitata o laccato.

## TECHNICAL DATA

**Tops** Particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, with 2 mm thick ABS edges. Available in :

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching.

**Metal structures** Leg made with 20/10 thick tubular metal, dim. 60x30 mm, aluminium, white or black powder paint finish. Leg with adjustable height (with price increase) with characteristics as above, with 20/10 thick tubular metal fitting, offering a desk top height adjustment from 650 mm to 850 mm by a clamp. The fitting is complete with a foot for the millimeter regulation to the floor. Cross-members made with 20/10 thick tubular metal, dim. 35x20mm, fixed to the heads of the leg.

**Single structural storage unit** Structural storage unit for single workstations, fixed to the desk cross members with coated metal brackets. equipped with drawer and door on the operator side, opposite side with single door. for cable management compartment. Internal back separating two compartments. Internal back equipped with 80 mm plastic shell for cable in-feed.

Structure made of particle board panels, EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges; 18 mm door and drawer, 2 mm thick ABS edge. Drawer equipped with a stationary tray; drawer body in black powder painted metal, ball guides. Melamine or lacquered finish.

**Storage unit for bench** for double workstations, fixed to the desk cross members with four painted metal brackets. Side compartments fitted with drawer and door, 80 mm shell for cable in-feed on back, central compartment with side inspection access (dim. 427x453x740 mm) designed to receive the general power lead distribution by 80 mm shells for cable in-feed on the two backs and three shells on internal side of desk. Other electric supply accessories are available on request. Structure made of particle board panels, EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges; 18 mm door and drawer mm. 2.5 mm ABS edge, pull opening by outside edges; 18 mm tops, 2.5 mm thick ABS edges. Drawers equipped with stationary tray; drawer structure in black powder painted metal, ball guides. Melamine or lacquered finish.

**Accessories: Modesty panels** made of 18 mm thick panels, same features and finishes as worktops. **Suspended drawer for stationery** in panels 18 mm thick available in melamine or lacquered. **Hanging CPU holder** made of punched plate metal and on castors. **Cable management** in plastic.

**Group sockets with sliding cover** including 1 electrical socket UNEL, 1 RJ45, 1 USB charging. **Electrical box** in aluminum with 3 UNEL sockets and 2 RJ45. **Top access** with anodized aluminum flap, including aluminum color cable brush. **Channeling:** powder white painted cables compartment. Wireless inductive charging unit under the top (with latest generation of smartphones). **Screens in melamine** 28 mm thickness finish the same as working tops, fixed under top with metal "L" supports or metal clamps aluminium color; **in polyester** microporous polyester fiber composite material for acoustic comfort, 10mm thick, medium melange grey color fixed under top with metal "L" supports; **fabric upholstered acoustic panel** with fixing device for single desk and bench.

**Open storage unit** on single or double structural storage unit, structure made of particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick. Finish melamine or lacquered.

**Lateral suspended storage unit** on double desks, open version or with tilting door, structure made of melamine particle board panels, 18 mm thick. Finish melamine or lacquered.

**Side container with shelves or drawer** Files storage unit. Structure made of particle board panels, EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick. With anti-tipping and metal guides. Melamine or lacquered finishing.

---

## FICHE TECHNIQUE

**Plateaux** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, épaisseur 2 mm. Finitions disponibles:

- mélaminé antirayure, antistatique ;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures.

**Structures en métal** Piètement réalisé par une pièce tubulaire en métal, épaisseur 20/10, dimensions 60x30 mm, finition laquée époxy aluminium, blanche ou noire. Piètement à hauteur réglable (avec supplément prix) selon les caractéristiques ci-dessus, avec pièce tubulaire métallique, épaisseur 20/10, que permet la régulation en hauteur de plateau du bureau de 650 mm à 850 mm grâce à une plaque de réglage. La pièce de raccordement est pourvue de pied noir pour le réglage millimétrique au sol. Traverses en pièce tubulaire en métal, épaisseur 20/10, dimensions 35x20 mm, fixées aux têtes du piètement.

**Élément de rangement simple** Élément de rangement porteur pour poste de travail à une place, fixé aux traverses du bureau par des étriers. Tiroir et porte côté opérateur, porte unique sur côté public sur compartiment pour passage de câble. Dos interne pour créer deux espaces différents, avec obturateur passe-câbles diam. 80 mm en plastique entre les compartiments. Structure en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm. Portes et tiroir 18 mm, bords en ABS épaisseur 2 mm, Tiroir équipé de plumier. La structure des tiroirs est en métal noir laqué époxy, glissières à billes. Finition mélaminé ou laquée.

**Élément de rangement latéral double** pour postes de travail à deux places, fixé aux traverses du bureau par quatre étriers en métal peint. Éléments de rangement latéraux équipés de tiroir et porte, obturateur passe-câbles diam. 80 mm sur dos; élément de rangement central avec possibilité d'inspection latéral (dim. mm 427x453x740 H) et préparé le passage des câbles d'alimentation électrique par l'obturateur diam. 80 mm sur les deux dos et trois obturateurs sur la partie interne du bureau. D'autres éléments d'électrification sur demande. Structure en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm ; portes et tiroir 18 mm, bords en ABS épaisseur 2 mm, ouverture en tirant des bords extérieurs ; couvercle 18 mm, bords en ABS épaisseur 2 mm. Tiroirs équipés de plumier. La structure des tiroirs est en métal noir laqué époxy, glissières à billes. Finition mélaminé ou laquée.

**Accessoires: Voiles de fond** en panneau épaisseur 18 mm, ayant les mêmes caractéristiques et finitions des plateaux de travail. Tiroir suspendu plumier pour les bureaux en panneaux épaisseur 18 mm, finitions: mélaminé ou laqué. **Support pour ordinateur** suspendu en métal. Support pour ordinateur sur roulettes en tôle percée. **Electrification** goulotte en matière plastique. Module câblé avec couvercle de fermeture coulissant, contenant 1 prise UNEL, 1 prise RJ45, 1 USB recharge.

**Boîtier prises** en aluminium avec 3 UNEL + 2 RJ45. **Top access** équipé d'un couvercle en aluminium anodisé avec brosse passe-câbles couleur aluminium. Plateau porte câble en métal laque blanc. **Chargeur à induction:** élément de recharge mm 80 (compatible avec Smartphone de dernière génération)

**Cloisons en mélaminé** épaisseur 28 mm même finition que les plateaux, fixé sous le plateau avec étriers « L » en métal ou avec plaques métalliques laqué aluminium; **en polyester**, matériau composite microporeux en fibres de polyester pour un confort acoustique, épaisseur 10 mm, couleur gris moyen mélange fixé sous le plateau avec étriers « L » en métal; **panneau acoustique revêtu en tissu** avec système de fixation pour bureau simple et double.

**Élément ouvert** positionné sur le meuble portant simple ou double, structure en panneaux en aggloméré, épaisseur 18 mm. Finition mélaminé ou laqué.

**Élément suspendu latéral** disponible sur bureaux double, ouvert ou avec porte abattante, structure en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2,, épaisseur 18 mm.

Finition mélamine ou laqué.

**Caisson latéral de rangement avec tablettes ou tiroir** Structure en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, Equipé de glissières et dispositif anti renversement. Finitions: mélaminé ou laqué.

## SCHEDA TECNICA

**Piani** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, con bordi perimetrali ABS spessore mm 2.

Disponibili:

- nobilitato antigraffio, antistatico;

- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio.

**Strutture metalliche** Gamba inclinata costituita da un tubolare metallico spessore 20/10, dim. mm 60x30, finitura verniciata a polveri colore bianco, alluminio, nero e verde muschio. Tutte le gambe sono complete di piedino nero per la regolazione millimetrica al pavimento. Traversi in tubolare metallico spessore 20/10, dim. mm 35x20, fissati alle testate della gamba.

**Contentore portante singolo** Contentore portante per postazione singola, agganciato alle travi della scrivania con staffe metallo verniciato. Dotato di cassetto e anta lato operatore; lato opposto ad anta unica e vano con funzione entrata cavi. Schiena interna per la suddivisione in due vani con conchiglia passacavi diam. mm. 80 in materiale plastico. Struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm. 0,6.

Ante e cassetto mm. 18 bordo ABS spessore mm 2, cassetto completo di vaschetta porta cancelleria; scocca cassette in metallo verniciato nero a polveri, guide a sfere. Finitura nobilitato o laccato.

**Contentore portante per scrivania bench** Contentore portante laterale per postazioni doppie, agganciato alle travi della scrivania con quattro staffe metallo verniciato. Vani laterali (dim. mm 427x600x740 H) dotati di cassetto e anta, conchiglia passacavi diam. mm 80 su schiena; vano centrale ispezionabile lateralmente (dim. mm 427x453x740 H) predisposto per la distribuzione generale dei cavi di alimentazione elettrica tramite conchiglia diam. mm 80 sulle due schiene e tre conchiglie su parte interna scrivania.

Su richiesta, altri componenti per elettrificazione. Struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm. 0,6; ante e cassetto mm. 18 bordo ABS spessore mm 2. Cassetti completi di vaschetta porta cancelleria; scocca cassette in metallo verniciato nero a polveri, guide a sfere. Finitura nobilitato o laccato.

**Accessori: Gonne sottopiano** in pannello spessore mm 18, caratteristiche e finiture come i piani di lavoro. **Cassetto sospeso porta cancelleria** in pannelli di truciolare di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Finitura nobilitato o laccato. **Elemento porta computer** sospeso realizzato in metallo. Elemento porta computer su ruote in lamiera forata. **Elettrificazione** in materiale plastico. **Gruppo prese a scomparsa con coperchio scorrevole** con una presa UNEL, una presa RJ45, 1 USB ricarica. **Scatola elettrica** in alluminio con due prese UNEL, due prese RJ45, 1 USB ricarica. **Top access**, dotato di sportello in alluminio anodizzato con spazzola passacavi colore alluminio. **Canalizzazione**: vasca alloggio cavi in metallo verniciato. **Ricarica wireless a induzione** elemento di ricarica diam. mm. 80 sotto piano (compatibile con smartphone di ultima generazione).

**Divisori in nobilitato** spessore 28 mm. come finitura piano, agganciato sotto al piano con staffe metalliche ad "L" oppure con pinze metalliche color alluminio; **in poliestere**, materiale composito microporoso di fibra di poliestere per confort acustico, sp. 10mm, colore grigio medio melange agganciato sotto al piano con staffe metalliche ad "L"; **pannello acustico** con rivestimento in tessuto con sistemi di fissaggio per scrivania singola e bench. **Vano a giorno** posizionato sopra al contenitore portante per postazioni singole o doppie, struttura in di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Finitura nobilitato o laccato.

**Contentore laterale con archivio estraibile** a ripiani o con cassetto, struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Finitura nobilitato o laccato.

## TECHNICAL DATA

**Tops** Particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, with 2 mm thick ABS edges. Available in :

- melamine, scratchproof, antistatic;

- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching.

**Metal structures** Inclined leg made with 20/10 thick tubular metal, dim. 60x30 mm, aluminium, white black or moss green powder paint finish. Cross-members made with 20/10 thick tubular metal, dim. 35x20mm, fixed to the heads of the leg.

**Single structural storage unit** Structural storage unit for single workstations, fixed to the desk cross members with coated metal brackets. equipped with drawer and door on the operator side, opposite side with single door. for cable management compartment. Internal back separating two compartments. Internal back equipped with 80 mm plastic shell for cable in-feed.

Structure made of particle board panels, EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges; 18 mm door and drawer, 2 mm thick ABS edge. Drawer equipped with a stationary tray; drawer body in black powder painted metal, ball guides. Melamine or lacquered finish.

**Storage unit for bench** for double workstations, fixed to the desk cross members with four painted metal brackets. Side compartments fitted with drawer and door, 80 mm shell for cable in-feed on back, central compartment with side inspection access (dim. 427x453x740 mm) designed to receive the general power lead distribution by 80 mm shells for cable in-feed on the two backs and three shells on internal side of desk. Other electric supply accessories are available on request. Structure made of particle board panels, EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges; 18 mm door and drawer mm. 2.5 mm ABS edge, pull opening by outside edges; 18 mm tops, 2.5 mm thick ABS edges. Drawers equipped with stationary tray; drawer structure in black powder painted metal, ball guides. Melamine or lacquered finish.

**Accessories: Modesty panels** made of 18 mm thick panels, same features and finishes as worktops. **Suspended drawer for stationery** in panels 18 mm thick available in melamine or lacquered. **Hanging CPU holder** made of punched plate metal and on castors. **Cable management** in plastic.

**Group sockets with sliding cover** including 1 electrical socket UNEL, 1 RJ45, 1 USB charging. **Electrical box** in aluminum with 3 UNEL sockets and 2 RJ45. **Top access** with anodized aluminum flap, including aluminum color cable brush. **Channeling**: powder white painted cables compartment. Wireless inductive charging unit under the top (with latest generation of smartphones). **Screens in melamine** 28 mm thickness finish the same as working tops, fixed under top with metal "L" supports or metal clamps aluminium color; **in polyester** microporous polyester fiber composite material for acoustic comfort, 10mm thick, medium melange grey color fixed under top with metal "L" supports; **fabric upholstered acoustic panel** with fixing device for single desk and bench.

**Open storage unit** on single or double structural storage unit, structure made of particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick. Finish melamine or lacquered.

**Side container with shelves or drawer** Files storage unit. Structure made of particle board panels, EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick. With anti-tipping and metal guides. Melamine or lacquered finishing.

---

## FICHE TECHNIQUE

**Plateaux** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, épaisseur 2 mm. Finitions disponibles:

- mélaminé antirayure, antistatique ;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures.

**Structures en métal** Piétement incliné réalisé par une pièce tubulaire en métal, épaisseur 20/10, dimensions 60x30 mm, finition laquée époxy aluminium, blanche noire ou mousse verte . Traverses en pièce tubulaire en métal, épaisseur 20/10, dimensions 35x20 mm, fixées aux têtes du piétement.

**Elément de rangement simple** Elément de rangement porteur pour poste de travail à une place, fixé aux traverses du bureau par des étriers. Tiroir et porte côté opérateur, porte unique sur côté public sur compartiment pour passage de câble. Dos interne pour créer deux espaces différents, avec obturateur passe-câbles diam. 80 mm en plastique entre les compartiments. Structure en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm. Portes et tiroir 18 mm, bords en ABS épaisseur 2 mm, Tiroir équipé de plumier. La structure des tiroirs est en métal noir laqué époxy, glissières à billes. Finition mélaminé ou laquée.

**Elément de rangement latéral double** pour postes de travail à deux places, fixé aux traverses du bureau par quatre étriers en métal peint. Eléments de rangement latéraux équipés de tiroir et porte, obturateur passe-câbles diam. 80 mm sur dos; élément de rangement central avec possibilité d'inspection latéral (dim. mm 427x453x740 H) et préparé le passage des câbles d'alimentation électrique par l'obturateur diam. 80 mm sur les deux dos et trois obturateurs sur la partie interne du bureau. D'autres éléments d'électrification sur demande. Structure en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm ; portes et tiroir 18 mm, bords en ABS épaisseur 2 mm, ouverture en tirant des bords extérieurs ; couvercle 18 mm, bords en ABS épaisseur 2 mm. Tiroirs équipés de plumier. La structure des tiroirs est en métal noir laqué époxy, glissières à billes. Finition mélaminé ou laquée.

**Accessoires: Voiles de fond** en panneau épaisseur 18 mm, ayant les mêmes caractéristiques et finitions des plateaux de travail. Tiroir suspendu plumier pour les bureaux en panneaux épaisseur 18 mm, finitions: mélaminé ou laqué. **Support pour ordinateur** suspendu en métal. Support pour ordinateur sur roulettes en tôle percée. **Electrification** goulotte en matière plastique. Module câblé avec couvercle de fermeture coulissant, contenant 1 prise UNEL, 1 prise RJ45, 1 USB recharge.

**Boitier prises** en aluminium avec 3 UNEL + 2 RJ45. **Top access** équipé d'un couvercle en aluminium anodisé avec brosse passe-câbles couleur aluminium. Plateau perte cable en métal laque blanc. **Chargeur à induction:** élément de recharge mm 80 (compatible avec Smartphone de dernière génération)

**Cloisons en mélaminé** épaisseur 28 mm même finition que les plateaux, fixé sous le plateau avec étriers « L » en métal ou avec plaques métalliques laqué aluminium; **en polyester**, matériau composite microporeux en fibres de polyester pour un confort acoustique, épaisseur 10 mm, couleur gris moyen mélange fixé sous le plateau avec étriers « L » en métal; **panneau acoustique revetu en tissu** avec système de fixation pour bureau simple et double.

**Elément ouvert** positionné sur le meuble portant simple ou double, structure en panneaux en aggloméré, épaisseur 18 mm. Finition mélaminé ou laqué.

**Caisson latéral de rangement avec tablettes ou tiroir** Structure en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, Equipé de glissières et dispositif anti renversement. Finitions: mélaminé ou laqué.

## 6X3A WOOD

Scrivanie, tavoli riunione / Desks, meeting tables / Bureaux, tables de réunion

### SCHEDA TECNICA

**Piani** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, con bordi perimetrali ABS spessore mm 2.

Disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio.
- impiallacciatura protetta da fondo e vernice con bordi in tranciato di legno spessore 2 mm

**Strutture metalliche** Gamba inclinata costituita da un tubolare metallico spessore 20/10, dim. mm 60x30, finitura verniciata a polveri colore bianco, nero e verde muschio nella parte superiore, con innesti in legno rovere nella parte inferiore. Tutte le gambe sono complete di piedino nero per la regolazione millimetrica al pavimento. Traversi in tubolare metallico spessore 20/10, dim. mm 35x20, fissati alle testate della gamba.

**Cassettiera portante** Cassettiera portante per postazione singola dotato di tre cassetti, lato opposto ad anta unica e vano con schiena interna, connesso alla semigamba metallica tramite innesto in PLA. Finitura disponibile nobilitato colore, laccato ed impiallacciato con maggiorazione.

Struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm. 0,6. Anta e cassetti mm. 18 bordo ABS spessore mm 2, vaschetta porta cancelleria inclusa; scocca cassetti in metallo verniciato nero a polveri, guide a sfere. Finitura laccato come struttura metallica.

**Contentore portante per scrivania bench** Contentore portante laterale per postazioni doppie, dotato di tre cassetti per lato operatore, vano centrale laterale con anta, connesso alla semigamba metallica tramite innesto in PLA.

Struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm. 0,6; ante e cassetto mm. 18 bordo ABS spessore mm 2. Anta e cassetti mm. 18 bordo ABS spessore mm 2, vaschetta porta cancelleria inclusa; scocca cassetti in metallo verniciato nero a polveri, guide a sfere. Finitura disponibile nobilitato colore, laccato ed impiallacciato con maggiorazione.

**Laterale portante** Contentore laterale portante per scrivania manageriale dotato di tre cassetti, vano a giorno e due ante. Struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm. 0,6.

Anta e cassetti mm. 18 bordo ABS spessore mm 2, vaschetta porta cancelleria inclusa; scocca cassetti in metallo verniciato nero a polveri, guide a sfere. Finitura disponibile nobilitato colore, laccato ed impiallacciato con maggiorazione.

**Accessori: Gonne sottopiano** in pannello spessore mm 18, caratteristiche e finiture come i piani di lavoro. **Cassetto sospeso porta cancelleria** in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Finitura nobilitato o laccato. **Elemento porta computer** sospeso realizzato in metallo. Elemento porta computer su ruote in lamiera forata. **Elettrificazione** in materiale plastico. **Gruppo prese a scomparsa con coperchio scorrevole** con una presa UNEL, una presa RJ45, 1 USB ricarica.

**Scatola elettrica** in alluminio con due prese UNEL, due prese RJ45, 1 USB ricarica. **Top access**, dotato di sportello in alluminio anodizzato con spazzola passacavi colore alluminio. **Canalizzazione**: vasca alloggio cavi in metallo verniciato. **Ricarica wireless a induzione** elemento di ricarica diam. mm. 80 sotto piano (compatibile con smartphone di ultima generazione).

**Divisori in nobilitato** spessore 28 mm. come finitura piano, agganciato sotto al piano con staffe metalliche ad "L" oppure con pinze metalliche color alluminio; **in poliestere**, materiale composito microporoso di fibra di poliestere per confort acustico, sp. 10mm, colore grigio medio melange agganciato sotto al piano con staffe metalliche ad "L"; **pannello acustico** con rivestimento in tessuto con sistemi di fissaggio per scrivania singola e bench.

### TECHNICAL DATA

**Tops** Particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, with 2 mm thick ABS edges. Available in :

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching.
- veneered protected by primer and paint with veneered wood edges thickness 2 mm.

**Metal structures** Inclined leg made with 20/10 thick tubular metal, dim. 60x30 mm white, black or moss green powder paint finish for the upper part, oak wood connection in the lower part. Cross-members made with 20/10 thick tubular metal, dim. 35x20mm, fixed to the heads of the leg.

**Pedestal** Pedestal for single workstation equipped with three drawers and single door on the opposite side, connected to the metal half-leg by means of a PLA coupling. Available in melamine, lacquered or veneered with increase. Structure made of particle board panels, EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges; 18 mm door and drawer, 2 mm thick ABS edge. Drawer equipped with a stationary tray; drawer body in black powder painted metal, ball guides. Lacquered finish as metal structure.

**Pedestal for bench** for double workstations equipped with three drawers on operator side and a single door on lateral central side, connected to the metal half-leg by means of a PLA coupling. Structure made of particle board panels, EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges; 18 mm door and drawer, 2 mm thick ABS edge. Drawer equipped with a stationary tray; drawer body in black powder painted metal, ball guides. Available in melamine, lacquered or veneered with increase.

**Lateral unit for manager desk**, equipped with 3 drawers, open shelf and 2 doors. Structure made of particle board panels, EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges; 18 mm door and drawer, 2 mm thick ABS edge. Drawer equipped with a stationary tray; drawer body in black powder painted metal, ball guides. Available in melamine, lacquered or veneered with increase.

**Accessories: Modesty panels** made of 18 mm thick panels, same features and finishes as worktops. **Hanging drawer for pens storage** made of particle board panels, EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick. Melamine or lacquered finishing. Metal **hanging CPU holder**. **Hanging CPU holder** made of punched plate metal and on castors. **Cable management** in plastic. **Electrical box with sliding cover** with 1 UNEL socket, 1 RJ45 and 1 USB charger. **Top access** with aluminum cover with 2 UNEL sockets, 2 RJ45 and 1 USB charger. **Channeling**: metal painted compartment. Wireless inductive charging unit diam. mm 80 under the top (for latest smartphones generation).

**Melamine screens** thickness 28 mm, same finishing as working tops, fixed under the top with metal "L" shaped brackets or metal clamps (aluminium color); **polyester screens** made of microporous polyester fiber for acoustic comfort, 10mm thick, medium melange grey color, fixed under the top with metal "L" supports; **fabric upholstered acoustic panel** with fixing device for single desk and bench.

---

## FICHE TECHNIQUE

**Plateaux** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, avec chants périmétriques épaisseur 2 mm. Finitions disponibles:

- mélaminé antirayure, antistatique ;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures.
- placage protégé par fond et vernis avec chant en placage de bois épaisseur 2 mm.

**Structures en métal** Piètement incliné réalisé par une pièce tubulaire en métal, épaisseur 20/10, dimensions 60x30 mm, finition laquée époxy couleur blanc, noir ou vert mousse sur la partie supérieure, avec raccord en chêne sur la partie inférieure. Tous les piétements sont équipés de pieds noirs pour le réglage millimétrique au sol. Traverses en pièce tubulaire en métal, épaisseur 20/10, dimensions 35x20 mm, fixées aux têtes du piètement.

**Caisson porteur** pour poste de travail à une place, équipé de 3 tiroirs et porte côté public **relié au demi-pied métallique au moyen d'un couplage PLA. Couleur de finition disponible mélaminé, laqué et plaqué avec supplément.** Structure en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm. Porte et tiroirs 18 mm, bords en ABS épaisseur 2 mm, Tiroir équipé de plumier. La structure des tiroirs est en métal noir laqué époxy, glissières à billes. Finition laquée comme la structure métallique.

**Caisson latéral double** pour bureau directionnel, équipé de 3 tiroirs, étagères et 2 portes. Structure en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm. Finitions disponibles: mélaminé couleur, laquée ou plaquée avec supplément.

**Accessoires: Voiles de fond** en panneau épaisseur 18 mm, ayant les mêmes caractéristiques et finitions que les plateaux de travail. Tiroir suspendu pour plumier en panneaux agglomérés EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm. Finition mélaminée ou laquée. **Support pour ordinateur** suspendu en métal. Support pour ordinateur sur roulettes en tôle percée. **Electrification** goulotte en matière plastique. **Boitier prises** en aluminium avec couvercle coulissant 1 UNEL + 1 RJ45 + 1 USB recharge. **Top access en aluminium avec** 2 UNEL + 2 RJ45 + 1 USB recharge. **Top access** équipé d'un couvercle en aluminium anodisé avec brosse passe-câbles couleur aluminium. Plateau porte câble en métal laque blanc. **Chargeur à induction:** élément de recharge mm 80 (compatible avec Smartphone de dernière génération)

**Cloisons en mélaminé** épaisseur 28 mm même finition que les plateaux, fixé sous le plateau avec étriers « L » en métal ou avec pinces métalliques laqué aluminium; **en polyester**, matériau composite microporeux en fibres de polyester pour un confort acoustique, épaisseur 10 mm, couleur gris moyen mélange fixé sous le plateau avec étriers « L » en métal; **en tissu avec système de fixation au bureau simple ou double.**

## SCHEDA TECNICA

**“OPERATIVO”**
**Scrivanie e tavoli riunione**

**Piani** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm. 18 con due profondità. Finiture disponibili: - nobilitato antigraffio, antistatico con bordi ABS spessore mm. 2.

**Strutture metalliche** **gamba singola** costituita da due elementi ad “L” in tubolare metallico quadrato spessore 20/10, dim. mm. 40x40, finitura verniciata mono colore, o bicolore o cromata, uniti mediante giunto in fusione di alluminio. **Gamba doppia** a “ponte”, realizzata con l’inserimento di un’estensione ed un ulteriore giunto fra i due elementi ad “L” della gamba singola. **Gamba intermedia** rientrata, per postazioni doppie in serie, con anello metallico, finitura verniciata bianco o nero, teste ad “L”, chiuso da due pannelli spessore mm. 10 (spessore totale struttura mm. 80), laccati. I pannelli sono agganciati all’anello tramite clips e formano un’intercapedine adatta al passaggio in verticale dei cavi di servizio. Per consentire l’entrata dei cavi, i pannelli sono provvisti alla base, di una conchiglia d’ingresso (diam. mm. 80), di color alluminio, e di un’asolatura nella parte superiore per l’uscita degli stessi. Il tutto è dotato di piedini per la regolazione millimetrica al pavimento. **Traversi** di giunzione metallici dim. mm. 40x20, verniciati bianco o nero; i traversi esterni sono saldati ad un profilo ad “L” spessore mm. 5 dim. mm. 40x40.

**Cassettiera portante** Cassettiera in sostituzione della gamba, composta da cinque cassetti di cui il primo porta cancelleria e dotata di serratura di serie a chiusura centralizzata, chiave pieghevole antinfortunio. Scocca cassetti in metallo verniciato nero a polveri, guide a sfere. Chiusura dei cassetti con soft system.

Coperchio, fondo e schiena in pannelli spessore mm. 18 e fianchi spessore mm. 28, bordi ABS spessore mm. 0,6; frontali in nobilitato. Sul retro schiena fissa sulla profondità cm. 60, anta con apertura premi e apri su profondità cm. 90.

Per postazione doppia elemento con due cassette prof. cm. 60 e un vano centrale largo cm. 40 con anta e apertura premi e apri.

**Accessori** Su richiesta possibilità di **pedino regolabile**. **Gonne sottopiano** in pannello spessore mm. 18, caratteristiche e finiture come i piani di lavoro, fissate al traverso. Elemento porta computer su ruote in lamiera forata, verniciato a polveri colore alluminio. **Canalizzazione** per cavi elettrici e telefonici in materiale plastico.

**Scatola elettrica Top access** in alluminio verniciato piombo con chiusura soft rallentata dello sportello. La scatola sottostante e provvista di fori di entrata e uscita per i cavi degli impianti tecnologici. **Divisori** fra scrivanie postazione bench in nobilitato spessore mm. 18 inserito su foratura e agganciato al piano con staffe metalliche e in Plexiglass bianco latte spessore mm.8 inserito fra gli sportelli di apertura del top access.

**“MANAGERIALE”**
**Scrivanie e tavoli riunione**

Piani pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm. 18, Compact top nobilitato pannello di legno ad alta densità spessore mm.12. compatto color bianco. La parte superiore e nobilitata con carta decorativa per strati carta barriera, composizione a più fogli (per lato), è resistente agli spruzzi d’acqua e si presta perfettamente per destinazioni in ambienti ad elevata umidità; pannelli in truciolare Laminato Anti Touch di ultima generazione, spessore mm. 18, con una superficie profonda e piena, altamente resistente al graffio e al calore, anti-impronta, i lati sono bordati in abs spessore mm. 2 finitura alluminio satinato; pannelli impiallacciati (8/10) spessore mm. 18 protetti da fondo e vernice, acrilica trasparente effetto naturale, con bordi in tranciato di legno spessore mm. 2,5. Vetro acidato e retro verniciato a caldo (nero e bianco) a freddo (rosso) temperato, spessore mm. 12 anti-touch. bordi molati filo lucido piatto. Tavolo rotondo con sottopiano strutturale laccato spessore mm.28 e struttura metallica composta da quattro tubolari uniti ad un unico tubolare centrale superiore verniciata o cromata.

**Strutture metalliche** **gamba singola** costituita da due elementi ad “L” in tubolare metallico quadrato spessore 20/10, dim. mm. 40x40, finitura verniciata mono colore, o bicolore o cromata (cromatura trivalente, cromo al suo stato naturale con impatto ambientale ridotto), uniti mediante giunto in fusione di alluminio. **gamba doppia** a “ponte”, realizzata con l’inserimento di un’estensione ed un ulteriore giunto fra i due elementi ad “L” della gamba singola. **Gamba intermedia** rientrata, per postazioni doppie in serie, con anello metallico quadrato, finitura verniciata chiuso da due pannelli spessore mm. 14 (spessore totale struttura mm. 80), laccati. I pannelli sono agganciati all’anello tramite clips e formano un’intercapedine adatta al passaggio in verticale dei cavi di servizio. Per consentire l’entrata dei cavi, i pannelli sono provvisti alla base, di una conchiglia d’ingresso (diam. mm. 80), di color alluminio, e di un’asolatura nella parte superiore per l’uscita degli stessi. Il tutto è dotato di piedini per la regolazione millimetrica al pavimento. **Traversi** di giunzione metallici dim. mm. 40x20, verniciati; i traversi esterni sono saldati ad un profilo ad “L” spessore mm. 5 dim. mm. 40x40.

**Cassettiera portante** Cassettiera in sostituzione della gamba, composta da cinque cassetti di cui il primo porta cancelleria e dotata di serratura di serie a chiusura centralizzata, chiave pieghevole antinfortunio. Scocca cassetti in metallo verniciato nero a polveri, guide a sfere. Chiusura dei cassetti con soft system. Coperchio, fondo e schiena in pannelli spessore mm. 18 e fianchi spessore mm.28, bordi ABS spessore mm. 0,6 laccati oppure impiallacciati; frontali in mdf laccati oppure impiallacciati spessore mm. 19 fresati lateralmente per ricavarne la maniglia di apertura; sul reto contenitore anta con apertura premo e apri. Frontali e anta della cassetteria sono disponibili anche a specchio. Sono altresì previste cassette totalmente laccate bicolore (3/4 -1/4).

**Accessori** Su richiesta possibilità di **pedino regolabile**. **Cassetto sospeso** porta cancelleria per scrivania in pannelli spessore mm. 18 laccati. **Gonne sottopiano** in pannello spessore mm. 18, caratteristiche e finiture come i piani di lavoro, fissate al traverso.

**CONTENITORI SOSPESI CON ANTA UNICA**

**Struttura** Fondo, fianchi, fianchi intermedi e coperchio in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm. 18, bordi in ABS spessore mm. 0.6, schiena spessore mm. 8. Sistema di fissaggio a parete: supporto interno per pensile, in nylon e parte portante in acciaio, regolabile in tre direzioni. Finiture disponibili per fondo, fianco e schiena:

- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all’abrasione e al graffio
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanic trasparenti. Bordi in tranciato di legno.

**Frontali** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, Compact top alta densità spessore mm 16, mdf spessore mm. 19 o impiallacciato. Ante con pannello laccato o specchio, spessore totale mm.19. Versione contenitore verticale con anta a battente completa di cerniere e basette registrabili e sistema di apertura premi-apri. Versione contenitore orizzontale con anta a ribalta e sistema di apertura con cavo regolabile. Finiture disponibili per frontali:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all’abrasione e al graffio;
- pannello in nobilitato laccato e frontale specchio, bordo filo lucido piatto, angoli smussati;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanic trasparenti. Bordi in tranciato di legno.

**CONTENITORI SOSPESI CON ANTE E VANI A GIORNO**

**Struttura** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, fondo e coperchio spessore mm. 28, fianchi spessore mm. 18, fianchi intermedi spessore 18-50-80, schiena spessore mm. 8, bordi in ABS spessore mm. 0.6. Il contenitore è composto di due elementi che vengono uniti tra di loro attraverso un sistema di fissaggio con giunto eccentrico. Il contenitore ospita 7 vani a giorno e 5 vani ciechi. Nei vani con anta a ribalta, sulla parte interna del fondo è fissato un piano spessore mm.18 che funge da supporto per le cerniere. Sistema di fissaggio a parete: supporto interno per pensile, in nylon e parte portante in acciaio, regolabile in tre direzioni. Finiture disponibili per fondo, fianco, schiena e coperchio:

- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all’abrasione e al graffio

**Frontali** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm. 18, bordi in ABS spessore mm. 0.6. Sul contenitore sono montate 3 ante a battente complete di cerniere e basette registrabili e sistema di apertura premi-apri e 2 ante a ribalta con sistema di apertura con cavo regolabile. Finiture disponibili per ante:

- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all’abrasione e al graffio;

## LIBRERIA A MURO MODULO UNICO

**Struttura** e ripiani pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm. 18, bordi ABS spessore mm. 0,6; schiena spessore mm. 18. Il fondo è dotato di 11 piedini regolabili in altezza, in materiale plastico con anima e base in metallo. La libreria è composta interamente da vani a giorno con altezza a larghezza di diverse misure. Finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione e al graffio

### CONTENITORI

**Struttura** Fianchi, coperchio e fondo in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm. 18, bordi ABS spessore mm. 0,6; schiena spessore mm. 8, bifacciale.

I contenitori base sono dotati di quattro o cinque piedini ad altezza regolabile, in materiale plastico con anima metallica filettata. Il mobile è completo di ripiani in nobilitato, posizionabili a tutta altezza con passo mm. 32.

**Frontali** Pannelli ante di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm. 18, bordi ABS mm. 0,6, CDF ad alta densità spessore mm. 16. Ante con pannello laccato e vetro acidato verniciato o specchio, spessore totale mm. 19. Ante complete di cerniere e basette regolabili e sistema di apertura premi-apri. Finiture disponibili per frontali:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione e al graffio;
- pannello in nobilitato laccato e frontale specchio bordo filo lucido piatto, angoli smussati;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanic trasparenti. Bordi in tranciato di legno.

**Top di finitura e fianchi di finitura** Pannello ad alta densità in mdf spessore mm. 12, oppure versione in vetro spessore mm. 12. Finiture disponibili per top e fianchi di finitura:

- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione e al graffio;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanic trasparenti. Bordi in tranciato di legno.

## TECHNICAL DATA

### “OPERATIVE”

#### Desk and meeting table

**Tops** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, with two depth. Available in the following finishes:

- melamine scratchproof, antistatic with 2 mm thick ABS edges.

**Metal structure single leg** made up of two L-shaped units in squared metal tubular framing, 20/10 thickness, dim. 40x40 mm, finishing one-colored painted, or two-colored, or chromed, fixed together by means of a joint in fused aluminium. **Double leg** “bridge” shaped, made with insertion of an extension and a further joint between the two L-shaped elements of the single leg.

**Recessed middle leg** for double workstation range, metallic ring finishing white or black painted, L-shaped heads, closed by two 10 mm thick panels (total thickness 80 mm), lacquered. The panels are fastened to the ring by means of clips and form a hollow space appropriate for the vertical passing of service cables. To allow the cables to enter, the panels are supplied at the bottom with a shell for cables in-feed (diam. 80 mm), aluminium coloured, and a slot in the upper part for the exit of the cables. The entire piece of furniture is fitted with feet for millimetre adjustment to the floor. **Metallic junction beam** dim. 40x20 mm, painted white or black; the external beams are welded to a 5 mm thick L-shaped bar, dim. 40x40 mm.

**Structural drawers unit** Drawers unit in replacement to the leg, composed by five drawers, first one equipped with a stationery tray and central closing standard lock, folding key. Drawer body in black powder painted metal, ball guides. Soft closing system.

Top, bottom and back made of 18 mm thick panels, sides 28 mm thick, 0.6 mm thick ABS edges; fronts in melamine. On back side fixed panel on cm 60 depth, door push pull system on cm 90 depth. On double workstation element with two drawers unit cm 60 depth and large central unit cm 40 with door push pull.

**Accessories** On request **adjustable feet**. **Modesty panels** made of 18 mm thick panels, same features and finishes as worktops, fixed to the beam. **CPU holder** on castors in punched plate, aluminium powder painted. **Management** for electric and phone cables in plastic.

**Top access** in aluminium lead color painted with soft closing door. The box below is provided with inlet and outlet holes for the cables of the technological systems.

**Dividing screens on bench workstation** in melamine particle board panels 18 mm thick, inserted and hooked to the work top with metal supports and in milk white Plexiglass 8 mm thick inserted between the opening doors of the top access.

### “MANAGERIAL”

#### Desk and meeting table

**Tops** particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, melamine Compact top of high-density wood panel 12 mm thick, compact white colored. Multiply design (per side) top layer decor paper per barrier paper, it is resistant to water spray and lends itself perfectly to destinations in high humidity environments; Laminate Anti Touch particle board panels last generation, 18 mm thick, deep and full surface, highly scratch and heat-resistant, anti-fingerprint, sides are edged in ABS 2 mm thick brushed aluminium finish; veneered panels (8/10) 18 mm thick protected by bottom and paint, acrylic transparent natural effect, with edges in veneer wood thickness 2.5 mm.

Glass frosted and back hot painted (black and white) cold painted (red) tempered, 12 mm thick, anti-touch, ground polished edges.

Round table with structural under top lacquered 28 mm thick and metallic structure composed of four tubular combined with a central upper tubular painted or chromed.

**Metal structure single leg** made up of two L-shaped units in squared metal tubular framing, 20/10 thickness, dim. 40x40 mm, finishing one-colored painted, or two-colored, or chromed (trivalent chrome, a natural chromium with reduced environmental impact), fixed together by means of a joint in fused aluminium. **Double leg** “bridge” shaped, made with insertion of an extension and a further joint between the two L-shaped elements of the single leg.

**Recessed middle leg**, for double workstation range, metallic ring finishing painted, closed by two 14 mm thick panels (total thickness 80 mm), lacquered. The panels are fastened to the ring by means of clips and form a hollow space appropriate for the vertical passing of service cables. To allow the cables to enter, the panels are supplied at the bottom with a shell for cables in-feed (diam. 80 mm), aluminium coloured, and a slot in the upper part for the exit of the cables. The entire piece of furniture is fitted with feet for millimetre adjustment to the floor. **Metallic junction beam** dim. 40x20 mm, painted white or black; the external beams are welded to a 5 mm thick L-shaped bar, dim. 40x40 mm, painted; the external beams are welded to a 5 mm thick L-shaped bar, dim. 40x40 mm

**Structural drawers unit** Drawers unit in replacement to the leg, composed by five drawers, first one equipped with a stationery tray and central closing standard lock, folding key. Drawer body in black powder painted metal, ball guides. Soft closing system. Top, bottom and back made of 18 mm thick panels, sides 28 mm thick, 0.6 mm thick ABS edges in lacquered or veneered; fronts in lacquered mdf or veneered 19 mm thick milled laterally to open. The back unit with door push pull system. Front and door of drawers unit available also in mirror. Drawers unit available also in two color totally lacquered (3/4 – 1/4).

Accessories On request **adjustable feet**. **Suspended drawer** for stationary in panels 18 mm thick lacquered. **Modesty panels** made of 18 mm thick panels, same features and finishes as worktops, fixed to the beam.

## HANGING STORAGE UNIT WITH ONE DOOR

**Structure** Top, bottom, sides, intermediate sides in particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges, back 8 mm thick.

Wall fixing system: internal support for hanging, in nylon and steel supporting, adjustable in three directions.

Finishing available for bottom, sides and back:

- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection. Veneered edges.

**Fronts** particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, Compact top of high-density 16 mm thick, MDF 19 mm thick or veneered. Door with lacquered panel and mirror, total 19 mm thick. Version with vertical element with wind door complete with hinges and adjustable bases and opening system push-open. Version with horizontal element with tilting door and opening system with adjustable cord. Finishing available for fronts:

- melamine scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching;
- lacquered melamine panels and front in mirror, ground polished edges, rounded corners;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection. Veneered edges.

#### HANGING STORAGE UNIT WITH DOORS AND OPEN UNITS

**Structure** particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, top and bottom 28 mm thick, sides 18 mm thick, intermediate sides 18-50-80 thick, back 8 mm thick, 0.6 mm thick ABS edges. The storage unit is composed of two elements joined together through a fixing system with eccentric coupling. The storage unit has 7 open units and 5 blind units. Inside tilting door units, fixed to the bottom, there is a fixed panel 18 mm thick to support the hinges. Wall fixing system: internal support for hanging, in nylon and steel supporting, adjustable in three directions. Finishing available for bottom, sides, back and top:

- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching;

**Fronts** particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges. 3 wind doors complete with hinges and adjustable bases and opening system push-open and 2 tilting door and opening system with adjustable cord. Finishing available for doors:

- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching;

#### WALL BOOKCASE UNIQUE MODULE

**Structure and shelves melamine** particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges, back 18 mm thick. Bottom equipped with 11 adjustable height feet, in plastic material with metal core and base.

The bookcase is composed entirely of open units of several height and width. Available finishes:

- melamine scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching;

#### STORAGE UNIT

**Structure** Sides, top and bottom in particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges, back 8 mm thick, bifaced.

The base storage units are fitted with four or five adjustable feet, in plastic with threaded metal centre. The storage unit is complete with melamine shelves, positionable to all heights with 32 mm spacing.

**Fronts** Doors panel in particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges, CDF of high-density 16 mm thick. Door with lacquered panel and frosted glass painted or mirror, total 19 mm thick. Doors complete with hinges and adjustable bases and opening system push-open. Finishing available for fronts:

- melamine scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching;
- lacquered melamine panels and front in mirror, ground polished edges, rounded corners;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection. Veneered edges.

**Finishing top and sides** High-density MDF panel mm. 12 thick, or version in glass 12 mm thick. Finishing available for finishing top and sides:

- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection. Veneered edges.

## FICHE TECHNIQUE

### “OPERATIVE”

#### Bureaux et tables de réunion

**Plateaux** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm., en deux profondeur. Finitions disponibles:

- mélaminé antirayure, antistatique avec bords en ABS, épaisseur 2 mm.

**Structures métalliques Piètement simple** se composant de deux éléments en forme de “L” en pièce tubulaire métallique carrée, épaisseur 20/10, dim. 40x40 mm, finition laqué une ou deux couleurs ou chromée; ces deux éléments sont connectés par un joint en fusion d'aluminium. **Piètement double** à “pont” réalisé en introduisant une rallonge et un joint supplémentaire entre les deux “L” éléments du piètement simple. **Piètement moyen**, pour les postes de travail à deux places en série, avec anneau métallique, finition laqué blanc ou noir, têtes en “L”, fermeture par deux panneaux, épaisseur 10 mm (épaisseur totale: 80 mm) laqués. Les panneaux sont accrochés à l'anneau par des clips, tout en formant un interstice convenable au passage vertical des câbles de service. Pour faciliter l'accès des câbles, la base des panneaux est pourvue d'une coquille d'entrée (diamètre 80 mm), couleur aluminium, et d'une fente dans la partie supérieure pour la sortie des câbles. Cet ensemble est équipé de pieds réglables au sol de manière millimétrique. **Traverses** métalliques, dim. 40x20 mm, laqué blanc ou noir; les traverses externes sont soudées à un profil en forme de “L”, épaisseur 5 mm, dim. 40x40 mm.

**Meuble portant** Élément de rangement porteur en remplacement du piètement, composée de cinq tiroirs dont le premier avec plumier et serrure à fermeture centralisée et une clé pliante. La structure des tiroirs est en métal noir laqué époxy. Glissières à rouleaux. System de fermeture soft.

Couvercle, fond et dos en panneaux en aggloméré mélaminé épaisseur 18 mm et cotes épaisseur 28 mm, bords en ABS épaisseur 0,6 mm; façades en mélaminé. Sur le dos, dos fixé sur la profondeur cm. 60, porte ouverture «pousser pour ouvrir».

sur profondeur cm. 90. Pour lieu de travail double, élément avec deux tiroirs prof. cm. 60 cm et partie centrale cm 40 avec porte ouverture «pousser pour ouvrir».

**Accessoires** Sur demande **piéd réglable**. **Voiles de fond** en panneau épaisseur 18 mm, ayant les mêmes caractéristiques et finitions des plateaux de travail, fixées à la traverse. **Support pour ordinateur** sur roulettes en tôle percée, laqué époxy couleur aluminium. **Canalisation pour câbles électriques et téléphoniques** en matière plastique. **Top accès** en aluminium laque plomb avec porte fermeture soft. La boîte dessous est fournie d'entrée et de sortie pour les câbles des systèmes technologiques. **Cloisons sur bureaux bench** en mélamine mm d'épaisseur. 18 inséré sur trous et fixé sur plateau travail avec des supports en métal et Plexiglas blanc laiteux 8 mm d'épaisseur insérées entre les portes d'ouverture de top accès.

## « DIRECTIONNEL »

### Bureaux et tables de réunion

**Plateaux** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, Compact top mélaminé panneau de bois d'épaisseur 12 mm haute densité, compact de couleur blanc. La partie supérieure et mélamine avec papier décoratif pour couches papier barrière, composition multi-feuille (par côté), il est résistant aux éclaboussures d'eau et est parfait pour des destinations dans des environnements très humides; panneaux en aggloméré Laminé Anti Touch dernière génération, épaisseur 18 mm, avec surface profonde et pleine, très résistant aux rayures et à la chaleur, anti-empreintes digitales, les côtés sont bordés ABS épaisseur 2 mm, finition en aluminium brossé; panneaux plaqués (8/10) épaisseur 18 mm protégés par le fond et la peinture, transparent acrylique effet naturel, avec des bords en bois de placage épaisseur 2,5 mm. Verre gravé et laqué à chaud (noir et blanc) à froid (rouge), trempé, épaisseur 12 mm, anti-touch, bords meulage à fil plat poli.

Table ronde avec sous plateau structurel laqué épaisseur 28 mm et structure métallique composée de quatre tubulaire combiné avec une tubulaire centrale supérieure laqué ou chromé.

**Structures métalliques** **Piètement simple** se composant de deux éléments en forme de "L" en pièce tubulaire métallique carrée, épaisseur 20/10, dim. 40x40 mm, finition laqué une ou deux couleurs ou chromée (chrome trivalent, chrome dans son état naturel, avec un impact réduit sur l'environnement); ces deux éléments sont connectés par un joint en fusion d'aluminium. **Piètement double** à "pont" réalisé en introduisant une rallonge et un joint supplémentaire entre les deux "L" éléments du piètement simple. **Piètement moyen**, pour les postes de travail à deux places en série, avec anneau métallique, finition laqué, fermeture par deux panneaux, épaisseur 14 mm (épaisseur totale: 80 mm) laqués. Les panneaux sont accrochés à l'anneau par des clips, tout en formant un interstice convenable au passage vertical des câbles de service. Pour faciliter l'accès des câbles, la base des panneaux est pourvue d'une coquille d'entrée (diamètre 80 mm), couleur aluminium, et d'une fente dans la partie supérieure pour la sortie des câbles. Cet ensemble est équipé de pieds réglables au sol de manière millimétrique. **Traverses** métalliques, dim. 40x20 mm, laqué blanc ou noir; les traverses externes sont soudées à un profil en forme de "L", épaisseur 5 mm, dim. 40x40 mm.

**Meuble portant** Élément de rangement porteur en remplacement du piètement, composée de cinq tiroirs dont le premier avec plumier et serrure à fermeture centralisée et une clé pliante. La structure des tiroirs est en métal noir laqué époxy. Glissières à rouleaux. Système de fermeture soft. Couvercle, fond et dos en panneaux en aggloméré mélaminé épaisseur 18 mm et cotes épaisseur 28 mm, bords en ABS épaisseur 0,6 mm laqué ou plaqué; façades en MDF laqué ou plaqué cotes épaisseur 19 mm travaillé latéralement pour l'ouverture. le dos du meuble est une porte avec ouverture «pousser pour ouvrir». Façades et dos sont aussi disponibles en miroir. Il est également prévu caisson totalement laqué bicolore ((3/4 -1/4).

**Accessoires** Sur demande **piéd réglable**. **Tiroir suspendu** plumier pour les bureaux en panneaux épaisseur 18 mm laqué. **Voiles de fond** en panneau épaisseur 18 mm, ayant les mêmes caractéristiques et finitions des plateaux de travail, fixées à la traverse.

### ELEMENT DE RANGEMENT SUSPENDU AVEC UNE PORTE

**Structure** Fond, cotes, cotes intermédiaires et couvercle en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm, dos épaisseur 8 mm. Système de fixation à mur: support interne pour accrocher, en nylon et partie portant en acier, réglable en trois directions. Finitions disponibles pour fond, cote et dos:

- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents. Bords en placage

**Façades** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, Compact top haute densité épaisseur 16 mm, MDF épaisseur 19 mm ou plaqué. Porte avec panneau laqué et verre gravé laqué ou miroir, épaisseur totale 19 mm.

Version élément vertical avec porte battant avec charnières et pattes réglables et ouverture «pousser pour ouvrir».

Version élément horizontal avec porte abattante et système d'ouverture avec cordon réglable.

Finitions disponibles pour façades :

- mélaminé antirayure, antistatique ;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures;
- panneau en mélamine laque et façade miroir, bords meulage à fil plat poli, coin arrondis ;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents. Bords en placage

mm, cotes épaisseur 18 mm, cotes au milieu épaisseur 18-50-80, dos épaisseur 8 mm, bords en ABS épaisseur 0,6 mm. Le rangement est composé de deux éléments reliés entre eux par un système de fixation avec l'accouplement excentrique. Le rangement a 7 parties ouvert et 5 parties aveugles. Dans les parties porte abattante, à l'intérieur du fond est fixé un plateau d'épaisseur 18 mm qui sert de support pour les charnières. Système de fixation à mur: support interne pour accrocher, en nylon et partie portant en acier, réglable en trois directions. Finitions disponibles pour fond, cote, dos et couvercle:

- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures;

**Façades** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm. Trois portes à battent avec charnières et pattes réglables et ouverture «pousser pour ouvrir» et deux portes abattante et système d'ouverture avec cordon réglable.

Finition disponibles pour portes :

- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures

### BIBLIOTHEQUE AU MUR MODULE SEUL

**Structure et étagères** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm, dos épaisseur 18 mm. Le fond est équipé de 11 pieds réglables en plastique, dont l'âme en métal est filetée. La bibliothèque est composé par partie ouverts avec hauteur et larguer différents. Finitions disponibles:

- mélaminé antirayure, antistatique ;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures;

### RANGEMENTS

**Structure** Côtés, couvercle et fond en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm; épaisseur du dos 8 mm, façade double.

Les éléments de rangement de base sont équipés de quatre ou cinq pieds réglables en plastique, dont l'âme en métal est filetée. Le meuble est fourni d'étagères mélaminé qui peuvent être positionnés librement en hauteur, pas 32 mm.

**Façades** panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm, CDF haute densité épaisseur 16 mm. Portes avec panneau laqué et verre gravé laqué ou miroir, epaisseur totale 19 mm. Portes complètes des charnières et bases réglables, système d'ouverture «pousser pour ouvrir». Finition disponibles pour façades :

- mélaminé antirayure, antistatique ;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures;
- panneau en mélamine laque et façade miroir, bords meulage à fil plat poli, coin arrondis ;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents. Bords en placage

**Top de finition et cotes de finition** panneau haute densité en MDF épaisseur 12 mm, ou version en verre épaisseur 12 mm.

Finition disponibles pour top et cotes de finition:

- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents. Bords en placage.

## SCHEDA TECNICA

Piani Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28, con bordi perimetrali ABS spessore mm 2.

Finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretano realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio.
- laminato antitouch, spessore mm. 28, resistente al graffio e al calore, anti-impronta, i lati sono bordati in ABS spessore mm. 2
- impiallacciatura protetta da fondo e vernice con bordi in tranciato di legno spessore 2 mm

**Struttura** Colonna metallica elevabile in altezza, sezione mm80x50 verniciata a polveri colore bianco o nero, ricoperta da 2 pannelli suddivisi da fascia h mm 50. Traverso metallico sezione mm 140/50 agganciato alle gambe. Centralina elettronica di comando up/down. Sensore anticollisione. Escursione piano da a mm 740 a 1390.

**Laterale portante** Contenitore laterale portante per scrivania manageriale dotato di un cassetto, un vano a giorno e due ante. Struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm. 2. Cassetto con vaschetta porta cancelleria inclusa; scocca cassetto in metallo verniciato grigio, guide a sfere. Finitura disponibile nobilitato colore, laccato ed impiallacciato con maggiorazione.

**Accessori** Scatola elettrica in alluminio con tre prese UNEL, due prese RJ45, 1 USB ricarica. Top access, dotato di sportello in alluminio anodizzato con spazzola passacavi colore alluminio. Canalizzazione: vasca alloggio cavi in metallo verniciato. Ricarica wireless a induzione elemento di ricarica diam.mm.80 sotto piano (compatibile con smartphone di ultima generazione).

Divisori in poliestere, materiale composito microporoso di fibra di poliestere per confort acustico, sp.10mm, colore grigio medio melange agganciato sotto al piano con staffe metalliche ad "L"; pannello acustico con rivestimento in tessuto con sistemi di fissaggio per scrivania singola e bench.

## TECHNICAL DATA

**Tops** Particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 28 mm thick, with 2 mm thick ABS edges. Available in :

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching.
- antitouch laminate, thickness mm. 28, resistant to scratch and abrasion, anti-fingerprint, ABS edges thickness mm. 2
- veneered protected by primer and paint with veneered wood edges thickness 2 mm.

**Metal structure** Metal columns that can be raised in height, 80x50 mm section, powder coated in white or black, covered with 2 panels separated by h mm 50 strip. Metal crosspiece 140/50 mm section attached to the legs and covered by a panel. Electronic up/down control unit. Anti-collision sensor. Top minimum/maximum height from 740 to 1390 mm.

Side return for manager desk, equipped with 1 drawer, an open shelf and 2 doors, Structure made of particle board panels, EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges; 18 mm door and drawer, 2 mm thick ABS edge. Drawer equipped with a stationary tray; drawer frame in powder painted metal, ball guides. Available in melamine, lacquered or veneered with increase.

**Accessories** Electrical box with sliding cover with 1 UNEL socket, 1 RJ45 and 1 USB

charger. Top access with aluminum cover with 3 UNEL sockets, 2 RJ45 and 1 USB charger. Channeling: metal painted tray. Wireless inductive charging unit diam. mm 80 under the top (for latest smartphones generation). Polyester screens made of microporous polyester fiber for acoustic comfort, 10mm thick, medium melange grey color, fixed under the top with metal "L" supports; fabric upholstered acoustic panel with fixing device for single desk and bench.

## FICHE TECHNIQUE

**Plateaux** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm, avec chants périmétriques épaisseur 2 mm.

Finitions disponibles:

- mélaminé antirayure, antistatique ;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures.
- laminé antiempreinte, épaisseur mm. 28, résistant aux griffes et à la chaleur, bordé en ABS épaisseur mm. 2 ;
- placage protégé par fond et vernis avec chant en placage de bois épaisseur 2 mm.

**Structure en métal** Colonne métallique réglable en hauteur, section 80x50 mm, thermolaquée en blanc ou noir, recouvertes par 2 panneaux avec bandes intermédiaires de h mm 50. Poutre métallique de section 140/50 mm fixée aux pieds.

Centrale électronique montée/descente. Capteur anti-collision. Hauteur inimum/maximum du plateau 740 à 1390 mm.

**Caisson latéral** pour bureau de direction équipé d'un tiroir, d'un compartiment ouvert et de deux portes. Structure en panneaux de particules EPA TSCA CARB 2 à faible émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, chants ABS mm d'épaisseur. 2. Tiroir avec plumier inclus ; structure tiroir en métal peint, glissières à billes. Finition disponible :mélaminé couleur, laqué et plaqué bois avec supplément.

**Accessoires**

**Boîtier prises** en aluminium avec couvercle coulissant 1 UNEL + 1 RJ45 + 1 USB recharge. Top access en aluminium avec 3 UNEL + 2 RJ45 + 1 USB recharge. Top access équipé d'un couvercle en aluminium anodisé avec brosse passe-câbles couleur aluminium. Chemin de câble : en métal. Chargeur à induction: élément de recharge

mm 80 (compatible avec Smartphone de dernière génération)

Cloisons en polyester, matériau composite microporeux en fibres de polyester pour un confort acoustique, épaisseur 10 mm, couleur gris moyen mélange fixé sous le plateau

avec étriers « L » en métal; en tissu avec système de fixation au bureau simple ou double.

## SCHEDA TECNICA

**Piani PROSPERO OFFICE** prevede piani in:

- mdf spessore mm 28 con laccatura poliuretanica, realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio;
- mdf spessore mm 29 con impiallacciatura 8/10 protetta da fondo e vernice, poliuretanici trasparenti;
- vetro temperato spessore mm. 12, molato filo lucido, trasparente oppure verniciato;
- versione MULTILEGNI: multistrati di faggio evaporato, spessore mm 26, impiallacciato multilegni. Versione "multilegni sbiancato": righe rovere-betulla-noce nazionale, sbiancati.

Versione "multilegni naturale": righe rovere-betulla-ciliegio-palissandro-noce nazionale, tinta naturale.

**PROSPERO BENCH:**

- mdf spessore mm 28, laccatura come i piani Prospero Office.

Angoli arrotondati raggio mm 50 per tutti i piani; bordi rastremati per i piani in mdf e in multistrati.

**Strutture PROSPERO OFFICE:** gambe e traversi di giunzione in tubolare metallico spessore 25/10, gambe diam. mm 30, traversi diam. mm 50; braccetti reggi piano realizzati con tubo pieno trafilato, diam. mm 11; (Tavolini da salotto Gambe in tubolare metallico spessore 25/10, diam. mm 30; telaio sottopiano in tubolare metallico quadro spessore 20/10, sezione mm 40x20); piedini in fusione di alluminio a forma conica, diam. mm 70, finitura opaca. Strutture metalliche verniciate a polveri colore bianco, nero o alluminio, cromate con maggiorazione. **Versione con cassetteria strutturale:** cassetteria dim. mm 500x910x480 H con tre cassetti ed anta sul retro, serratura di serie con funzione di maniglia su primo cassetto ed anta posteriore; altri cassetti (senza serratura) con maniglia ad incavo incassata, in materiale plastico colore alluminio. Scocca cassetti in metallo verniciato grigio a polveri, guide a sfere. Vaschetta porta cancelleria. Piedini in metallo mm 31 H, base in fusione di alluminio a forma conica diam. mm 70, finitura opaca. Fianchi, coperchio strutturale e fondo in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm 0,6; top di finitura in mdf spessore mm 12, angoli arrotondati raggio mm 40; frontali dei cassetti ed anta in mdf spessore mm 40, bordi verticali arrotondati raggio mm 40. Cassetteria disponibile con parti a vista finitura laccata, oppure impiallacciata; interno nobilitato bianco N; interspazio tra i cassetti solamente colore alluminio. Unione al piano scrivania tramite traliccio in tubolare metallico completo di braccetti reggi piano, caratteristiche e finiture come gambe scrivania. **Versione con contenitore strutturale:** contenitore dim. mm 500x1820x480 H con tre cassetti, coppia ante a fianco dei cassetti e anta sul retro, serratura di serie con funzione di maniglia su primo cassetto e ante; altri cassetti (senza serratura) con maniglia ad incavo incassata, in materiale plastico colore alluminio. Scocca cassetti in metallo verniciato grigio a polveri, guide a sfere. Vaschetta porta cancelleria. Piedini in metallo mm 31 H, base in fusione di alluminio a forma conica diam. mm 70, finitura opaca. Fianchi, coperchio strutturale e fondo, come pure frontali cassetti e coppia ante affiancate, in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm 0,6; top di finitura in mdf spessore mm 12, angoli arrotondati raggio mm 40; il fianco di finitura del contenitore e l'anta posteriore sono invece in mdf spessore mm 40, bordi verticali arrotondati raggio mm 40. Contenitore disponibile con parti a vista finitura laccata, oppure impiallacciata; interno nobilitato bianco N; interspazio tra i cassetti solamente colore alluminio. Unione al piano scrivania tramite traliccio in tubolare metallico completo di braccetti reggi piano, caratteristiche e finiture come gambe scrivania. I tavoli riunione da mm 3000 presentano un elemento centrale strutturale, con funzione di alloggiamento computer e passaggio verticale cavi, realizzato in mdf spessore mm 19, disponibile solamente laccato colore alluminio e con fughe orizzontali, bordi lavorati a 45°.

**PROSPERO BENCH:** struttura metallica come sopra; cassetteria strutturale, con funzione di cassetteria multipla e vano per passaggio verticale dei cavi, realizzata in mdf spessore mm 19, completamente laccata e con fughe orizzontali, ante con bordi lavorati a 45°. Corpo cassetteria diviso in due parti distinte, ciascuna con un'anta intera per Art. PR180M - PR200M o due ante piccole per le altre tipologie, complete di serratura con funzione di maniglia. Per ogni anta intera ci sono quattro cassetti estraibili in metallo verniciato nero a polveri con guide a sfere, per ogni anta piccola, due cassetti estraibili. Secondo cassetto di ogni anta con vaschetta porta cancelleria. La scrivania PROSPERO BENCH è completa di divisorii mm 1200x350 H, spessore mm 60, realizzati in mdf finitura laccata e con fughe orizzontali.

**Accessori** **Elemento porta computer** su ruote in lamiera forata, verniciato a polveri colore alluminio. Per PROSPERO OFFICE **Gonne sottopiano** in pannello di truciolare nobilitato spessore mm 28, bordi ABS spessore mm 0,6, angoli arrotondati raggio mm 40, finitura laccata, complete di canalina passacavi in plastica colore alluminio affogata nello spessore del pannello stesso e dotate di due staffe in metallo verniciato alluminio. **Coppia ruote** diam. mm 60 colore alluminio per scrivanie mobili (escluso scrivanie con cassetteria o contenitore strutturali). **Cassetteria** A tre cassetti, serratura di serie a chiusura centralizzata, chiave pieghevole, ruote piroettanti nere. Primo cassetto con vaschetta porta cancelleria. Scocca cassetti in metallo verniciato nero a polveri, guide a sfere. Struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 22, bordi ABS spessore mm 2,5; schiena spessore mm 18, non bordata; frontali dei cassetti in mdf spessore mm 19 con bordo superiore lavorato a 45°.

Cassetteria disponibile con le seguenti finiture:

- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio. Per la sola finitura alluminio, laccatura acrilica;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanici trasparenti. Nella finitura impiallacciata, i bordi sono in tranciato di legno spessore mm 2,5, raggio 3.

**Elettificazione** in materiale plastico. **Scatola elettrica** in alluminio con due prese Schuko e due prese RJ45.

---

## TECHNICAL DATA

**Tops** PROSPERO OFFICE tops are in:

- MDF, 28 mm thick, with polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching;
- MDF, 29 mm thick with 8/10 wood veneer finish with transparent base coat and polyurethane protection;
- tempered glass, 12 mm thick, ground polished edge, clear or painted;
- MULTI-WOOD version: steamed beech plywood, 26 mm thick, multi-wood veneer. "Bleached multi-wood" version: oak-birch-Italian walnut striped, bleached. "Natural multi-wood" version: oak-birch-cherry wood-rosewood-Italian walnut striped, natural colour.

**PROSPERO BENCH:**

- MDF, 28 mm thick, with lacquer finish as Prospero Office tops.

Rounded corners, corner radius 50 mm for all tops; tapered edges for MDF and plywood tops.

**Structures** PROSPERO OFFICE: legs and crosspieces in metal tubular framing, thickness 25/10, legs diam. 30 mm, crosspieces diam. 50 mm; supporting arms for tops made in solid drawn tube, diam. 11 mm; (Coffee table Legs in metal tubular framing, thickness 25/10, diam. 30 mm; underside frame in square metal tubular framing, thickness 20/10, section 40x20 mm); aluminium cast tapered feet, diam. 70 mm, matt finish. White, black or aluminium powder painted or chromed with additional cost metal structures.

**Version with structural drawer unit:** drawer unit size 500x910x480(height) mm consisting of three drawers and door on the back, standard lock with handle function for upper drawer and back door; other drawers (without lock) are with recessed handle in aluminium coloured plastic. Drawer structure in grey powder painted metal, ball guides. Stationery tray. Feet in metal, 31 mm high, aluminium cast tapered base, diam. mm. 70, matt finish. Sides, structural top and bottom made of particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0,6 mm thick ABS edges; finishing top in MDF, 12 mm thick, rounded corners, corner radius 40 mm; drawer fronts and door in MDF, 40 mm thick, with 40 mm radius rounded vertical edges. Drawer unit available with lacquered or veneered finish; white N melamine inside; space between drawers available only with aluminium lacquer finish. Connected to the desk top through a metal tubular framing complete with supporting arms, same features and finishes as legs. **Version with structural storage unit:** storage unit size 500x1820x480(height) mm with three drawers, a couple of doors by drawers side and door on the back, standard lock with handle function for upper drawer and doors; other drawers (without lock) are with recessed handle in aluminium coloured plastic. Drawer structure in grey powder painted metal, ball guides. Stationery tray. Feet in metal, 31 mm high, aluminium cast tapered base, diam. mm. 70, matt finish. Sides, structural top and bottom, also drawer fronts and the couple of doors, made of Particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0,6 mm thick ABS edges; finishing top in MDF, 12 mm thick, rounded corners, corner radius 40 mm; the storage unit finishing side and the back door are in MDF, 40 mm thick, with 40 mm radius rounded vertical edges. Storage unit available with lacquered or veneered finish; white N melamine inside; space between drawers available only with aluminium lacquer finish. Connected to the desk top through a metal tubular framing complete with supporting arms, same features and finishes as legs. The 3000 mm meeting tables have a structural central unit, serving as CPU holder and vertical cable channel, made in MDF, 19 mm thick, only available in aluminium colour lacquer finish and with horizontal grooves, edges worked at 45°. PROSPERO BENCH: metal structure as above; structural drawer unit, with multi-drawer function and vertical cable in-feed space, made in 19 mm thick MDF, completely lacquered and with horizontal grooves, doors with edges worked at 45°. Drawer unit body divided in two separate units, each with a single door as for Art. PR180M - PR200M or two small doors for other types, complete with lock with handle function. For each single door there are four extractable drawers in black powder paint with ball guides, for each small door there are two extractable drawers. The second drawer of each door has a stationery tray. PROSPERO BENCH desk is complete with screens size 1200x350 (height) mm, 60 mm thick, made in MDF with lacquer finish and with horizontal grooves.

**Accessories** CPU holder on castors in punched plate, aluminium powder painted. **Vertical cable channel** in aluminium coloured plastic. For PROSPERO OFFICE

**Modesty panels** made of 28 mm thick panels, 0,6 mm thick ABS edges, with 40 mm radius rounded corners, lacquered finish, equipped with housed plastic aluminium coloured cable duct and with aluminium painted metal brackets. **Pair of castors** diam. 60 mm, aluminium colour, for creating mobile desks (desks with structural drawer-storage unit excluded). **Drawer unit** Made up of three drawers, equipped with central closing standard lock, folding key, black swivel castors. First drawer with stationery tray. Drawer structure in black powder painted metal, ball guides. Structure made of particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 22 mm thick, 2,5 mm thick ABS edges; 18 mm thick back, not bordered; drawer fronts in MDF, 19 mm thick, with upper edge worked at 45°. Available in the following finishes:

- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching. Only for aluminium finish, acrylic lacquering;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection. Veneered version with edges in 2.5 mm thick sliced veneer, corner radius 3 mm.

**Cable management** in plastic. **Electrical box** in aluminium with two Schuko + two RJ45 sockets.

## FICHE TECHNIQUE

**Plateaux** PROSPERO OFFICE prévoit plateaux en:

- fibres de moyenne densité, épaisseur 28 mm avec laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures;
- épaisseur 29 mm avec placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents;
- verre trempé, épaisseur 12 mm, meulage à fil poli, transparent ou laqué;
- version PLUSIEURS BOIS: bois stratifié en hêtre étuvé, épaisseur 26 mm, plaqué en plusieurs bois. Version "blanchie en plusieurs bois": rayures chêne-bouleau noyer italien blanchis.

Version "naturelle en plusieurs bois": rayures chêne-bouleau-cerisier-palissandre-noyer italien, couleur naturelle.

**PROSPERO BENCH:**

- fibres de moyenne densité, épaisseur 28, laquage identique aux plateaux Prospero Office.

Angles arrondis, arrondissement 50 mm, pour tous les plateaux; chants fuselés pour les plateaux en fibres de moyenne densité et en bois stratifiés.

**Structures** PROSPERO OFFICE: piétements et croisillons en pièce tubulaire métallique, épaisseur 25/10, piétements diam. 30 mm, croisillons diam. 50 mm; bras de support du plan de travail en tube plein étiré, diam. 11 mm; (Petites tables basses Piétements en pièce tubulaire métallique, épaisseur 25/10, diam. 30 mm; châssis de fond en pièce tubulaire métallique carrée, épaisseur 20/10, section 40x20 mm); pieds en fusion d'aluminium en forme conique, diamètre 70 mm, finition opaque. Structures en métal laquées époxy couleur blanc, noir ou aluminium, chromées avec supplément. **Version avec caisson structural:** caisson dimensions 500x910x480(hauteur) mm, composé de trois tiroirs et porte en derrière, serrure standard dont la clé sert de poignée pour tiroir supérieur et porte postérieur; autres tiroirs (sans serrure) avec poignée en creux, en plastique couleur aluminium. Structure des tiroirs en métal gris laqué époxy, glissières à billes. Plumier. Pieds en métal, hauteur 31 mm, base en fusion d'aluminium en forme conique, diamètre 70 mm, finition opaque. Côtés, couvercle structural et fond en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm; plateau à finir en fibres de moyenne densité, épaisseur 12 mm, angles arrondis, arrondissement 40 mm; façades des tiroirs et porte en fibres de moyenne densité, épaisseur 40 mm, bords verticaux avec arrondissement 40 mm. Caisson disponible avec finition laquée ou plaquée; intérieur blanc N mélaminé; espace entre tiroirs exclusivement en version laquée aluminium. Joint au plateau à l'aide d'une structure tubulaire métallique avec bras de support du plan de travail, caractéristiques et finitions comme piétements de la bureau. **Version avec meuble structural:** meuble de rangement dimensions 500x1820x480(hauteur) mm, avec trois tiroirs, couple des portes à côté des tiroirs et porte en derrière, serrure standard dont la clé sert de poignée pour tiroir supérieur et portes; autres tiroirs (sans serrure) avec poignée en creux, en plastique couleur aluminium. Structure des tiroirs en métal gris laqué époxy, glissières à billes. Plumier. Pieds en métal, hauteur 31 mm, base en fusion d'aluminium en forme conique,

diamètre 70 mm, finition opaque. Côtés, couvercle structural et fond, aussi façades des tiroirs et couple des portes en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm; plateau à finir en fibres de moyenne densité, épaisseur 12 mm, angles arrondis, arrondissement 40 mm; côté à finir et porte postérieure en fibres de moyenne densité, épaisseur 40 mm, bords verticaux avec arrondissement 40 mm. Meuble de rangement disponible avec finition laquée ou plaquée; intérieur blanc N mélaminé; espace entre tiroirs exclusivement en version laquée aluminium. Joint au plateau à l'aide d'une structure tubulaire métallique avec bras de support du plan de travail, caractéristiques et finitions comme piétements de la bureau. Les tables de réunion de 3000 mm ont un élément central de support, pour le logement de l'UC et le passage vertical des câbles, réalisé en fibres de moyenne densité, épaisseur 19 mm, disponibles seulement avec laquage couleur aluminium et joints horizontaux, chants usinés à 45°.

PROSPERO BENCH: structure en métal, voir ci-dessus; élément de rangement structural, pour le rangement multiple, et logement pour le passage vertical des câbles, en fibres de moyenne densité, épaisseur 19 mm, complètement laqué avec joints horizontaux, portes aux chants usinés à 45°. Corps de l'élément de rangement divisé en deux parties différentes: chaque partie est pourvue d'une porte entière pour l'Art. PR180M - PR200M ou de deux portes petites pour les autres typologies; elles sont équipées de serrure dont la clé sert de poignée. Chaque porte entière comprend quatre tiroirs à extraire en métal laqué époxy (noirs), avec des glissières à billes, tandis que chaque porte petite comprend deux tiroirs à extraire. Le deuxième tiroir de chaque porte comprend un plumier. Le bureau PROSPERO BENCH est pourvu dimensions 1200x350 mm (hauteur), épaisseur 60 mm, en fibres de moyenne densité, finition laquée et joints horizontaux.

**Accessoires** Support pour ordinateur sur roulettes en tôle percée, laqué époxy couleur aluminium. **Chemin de câbles vertical** en plastique couleur aluminium. Pour PROSPERO OFFICE **Voiles de fond** en aggloméré mélaminé, épaisseur 28 mm, bords en ABS épaisseur 0,6 mm, angles arrondis, arrondissement 40 mm, finition laquée, équipé de chemin de câbles en plastique couleur aluminium dans l'épaisseur du panneau et avec deux étriers en métal laqué aluminium. **Couple de roulettes** diamètre 60 mm, couleur aluminium, pour la réalisation de bureaux mobiles (exclu bureaux avec caisson-meuble structural). **Caisson II** se compose de trois tiroirs, serrure standard à fermeture centralisée, clé pliante, roulettes pivotantes noires. Premier tiroir avec plumier. Structure des tiroirs en métal noir laqué époxy, glissières à billes. Structure en Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 22 mm, bords en ABS épaisseur 2,5 mm; dos épaisseur 18 mm, sans chants; façades des tiroirs en fibres de moyenne densité, épaisseur 19 mm, avec chant supérieur usiné à 45°. Disponible selon les finitions suivantes:

- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures. Seulement pour la finition en aluminium, laquage acrylique;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents. Pour le modèle plaqué, les chants sont en feuilles de placage tranchées, épaisseur 2,5 mm, arrondissement 3 mm.

**Electrification** in matière plastique. **Coffret de branchement** en aluminium avec deux prises Schuko + deux prises RJ45.

I piani C003 verniciati bianchi sono su base vetro "FLOAT" - Scelta cromatica del progettista per ottenere l'effetto acquamarina.  
C003 tops, made of "FLOAT" glass (clear glass with a blue tint), are painted white. Shades are chosen by the designer to gain an "aquamarine" colour effect.  
Les plateaux C003 laqués en blanc ont une base en verre "FLOAT". Choix chromatique du créateur pour obtenir l'effet aigue-marine.

### SCHEDA TECNICA

**PROSPERO OFFICE Art. PRS047 e varianti componibili o multilegni:** fianchi, fianco centrale e schiena pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm 0,6; coperchio e fondo spessore mm 28. I contenitori sopraelevati sono privi del fondo: il coperchio del contenitore sottostante funge da fondo. Piedini in metallo mm 31 H, base in fusione di alluminio a forma conica diam. mm 70, finitura opaca. Ante in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, maniglia ad incavo incassata, in materiale plastico colore alluminio, disponibili con le seguenti finiture:

- laccatura poliuretanica (acrilica per il solo alluminio) realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanici trasparenti;
- versione MULTILEGNI: impiallacciatura multilegni a righe orizzontali betulla-ciliegio-palissandro-noce nazionale, tinta naturale.

Struttura nobilitata grigio N, oppure laccata (consigliabile con ante impiallacciate).

I contenitori sono affiancabili e sovrapponibili. A completamento dei contenitori: coppia fianchi di finitura in MDF spessore mm 40, bordi verticali arrotondati raggio mm 40, finitura laccata o impiallacciata; top di finitura in MDF spessore mm 14, angoli arrotondati raggio mm 40, laccato oppure impiallacciato.

**Art. PR157 e varianti multilegni:** struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm 0,6, schiena non bordata. Piedini mm 81 H, caratteristiche e finiture come sopra. Fianco centrale e due ripiani strutturali, realizzati in pannello spessore mm 18, disponibili solamente laccati alluminio; quattro ripiani in vetro temperato spessore mm 10, molato filo lucido, trasparente. Due ante con larghezza maggiore rispetto alla struttura, in pannello di truciolare nobilitato spessore mm 18, disponibili con le seguenti finiture:

- laccatura come per le ante Prospero Office;
- versione MULTILEGNI: "multilegni sbiancati" a righe rovere-betulla-noce nazionale, sbiancati; "multilegni naturale" a righe rovere-betulla-ciliegio-palissandro-noce nazionale, tinta naturale.

Struttura laccata alluminio, oppure laccata con altre colorazioni.

**PROSPERO BENCH** Fianchi, coperchio e fondo in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm 0,6; schiena spessore mm 8, bifacciale (un lato bianco N, un lato nero). Piedini in metallo mm 31 H, base in fusione di alluminio a forma conica diam. mm 70, finitura opaca. Il mobile è completo di due ripiani in nobilitato, posizionabili a tutta altezza con passo mm 32. Ante in MDF spessore mm 19, finitura laccata come Prospero Office, con fughe orizzontali. Serratura di serie con funzione di maniglia. Fianchi, coperchio e fondo nobilitato grigio N, oppure laccati.

**Accessori** Per **PROSPERO OFFICE Serrature** tutte le ante possono essere dotate, a richiesta, di serratura. **Schiene di finitura** in pannello di truciolare nobilitato, spessore mm 18, bordi ABS spessore mm 0,6, finitura laccata o impiallacciata. Per **PROSPERO BENCH Schiene di finitura** caratteristiche e spessori come le ante, fughe orizzontali. **Portacartelle estraibili** in metallo verniciato, con due astine reggicartella regolabili e guide telescopiche ad estrazione totale.

### TECHNICAL DATA

**PROSPERO OFFICE Art. PRS047 and different versions as modular storage units or with multi-wood doors:** sides, central side and back in particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges; cover and bottom 28 mm thick. The upper element is without bottom that is comprised by the cover of the piece below. Feet in metal, 31 mm high, aluminium cast tapered base, diam. mm. 70, matt finish. Doors made of particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, with recessed handle in aluminium coloured plastic, available in the following finishes:

- polyurethane lacquer finish (acrylic for aluminium only) in several layers to guarantee maximum resistance to abrasion and scratching;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection;
- MULTI-WOOD version: multi-wood veneer, birch-cherry wood-rosewood-Italian walnut horizontally striped, natural colour.

Structure in grey N melamine finish or lacquer finish (advised with veneered doors).

The storage units can be positioned side-by-side or stacked. To complete the storage units: pair of finishing sides in MDF, 40 mm thick, with 40 mm radius rounded vertical edges, lacquered or veneered finish; finishing top in MDF, 14 mm thick, rounded corners, corner radius 40 mm, lacquered or veneered finish.

**Art. PR157 and different multi-wood versions:** structure in particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges, back not bordered. 81 mm high feet, features and finishes as above. Central panel and two structural shelves, made of 18 mm thick panel, available only with aluminium lacquer finish; four shelves in tempered glass, 10 mm thick, ground polished edge. Two doors wider than the structure, made of particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, available in the following finishes:

- lacquer finish as Prospero Office doors;
- MULTI-WOOD version: "bleached multi-wood" oak-birch-Italian walnut striped, bleached; "natural multi-wood" oak-birch-cherry wood-rosewood-Italian walnut striped, natural colour.

Structure lacquered in aluminium or other colours.

**PROSPERO BENCH** Sides, cover and bottom in particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges; 8 mm thick back, bifaced (one side white N, one side black). Feet in metal, 31 mm high, aluminium cast tapered base, diam. mm. 70, matt finish. The piece of furniture is complete with two melamine shelves, positionable to all heights with 32 mm spacing. Doors in MDF, 19 mm thick, with lacquer finish as Prospero Office doors, with horizontal grooves. Standard lock with handle function.

Sides, cover and bottom in grey N finish or lacquer finish.

**Accessories** For **PROSPERO OFFICE Locks** all the doors can be fitted with a locking system on request. **Finishing backs** in melamine particle board panels, 18 mm thick, 0.6 mm thick ABS edges, lacquered or veneered finish. For **PROSPERO BENCH Finishing backs**, same features and thickness as door, horizontal grooves. **Extractable file holders** in painted metal, with two adjustable file holding rods and fully extendible telescopic guides.

## FICHE TECHNIQUE

**PROSPERO OFFICE Art. PRS047 et versions modulaires ou avec portes en plusieurs bois:** côtés, côté central et dos en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm; couvercle et fond épaisseur 28 mm. Les éléments supérieur ne sont pas équipés de fond. Ce dernier se compose du couvercle du meuble en bas. Pieds en métal, hauteur 31 mm, base en fusion d'aluminium en forme conique, diamètre 70 mm, finition opaque. Portes en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, avec poignée en creux en plastique couleur aluminium, disponibles selon les finitions suivantes:

- laquage polyuréthanique (uniquement acrylique pour l'aluminium) réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures;

- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents;

- version PLUSIEURS BOIS: placage en plusieurs bois, rayures horizontales bouleau-cerisier-palissandre-noyer italien, couleur naturelle.

Structure en gris N, ou laquée (conseillée avec portes plaquées).

Les éléments de rangement peuvent être rapprochés et sont superposables. Pour compléter les éléments de rangement: paire de côtés à finir en fibres de moyenne densité, épaisseur 40 mm, bords verticaux avec arrondissement 40 mm, finition laquée ou plaquée; plateau à finir en fibres de moyenne densité, épaisseur 14 mm, angles arrondis, arrondissement 40 mm, finition laquée ou plaquée.

**Art. PR157 et versions en plusieurs types de bois:** structure en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm, dos sans chants. Pieds hauteur 81 mm, caractéristiques et finitions, voir ci-dessus. Panneau central et deux étagères structuraux, réalisés en panneaux épaisseur 18 mm, disponibles seulement laqués couleur aluminium; quatre étagères en verre trempé épaisseur 10 mm, meulage à fil poli, transparent. Deux portes dont la largeur est supérieure à la structure, en panneaux en aggloméré mélaminé épaisseur 18 mm, disponibles selon les finitions suivantes:

- laquage identique aux portes Prospero Office;

- version PLUSIEURS BOIS: "blanchie en plusieurs bois" à rayures chêne-bouleau-noyer italien blanchis; "naturelle en plusieurs bois" à rayures chêne-bouleau-cerisier-palissandre-noyer italien, couleur naturelle.

Structure laquée, couleur aluminium, ou laquée en autres couleurs.

**PROSPERO BENCH** Côtés, couvercle et fond en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm; dos épaisseur 8 mm, façade double (un côté blanc N, un côté noir). Pieds en métal, hauteur 31 mm, base en fusion d'aluminium en forme conique, diamètre 70 mm, finition opaque. Le meuble est équipé avec deux étagères mélaminé qui peuvent être positionnées librement en hauteur, pas 32 mm. Portes en fibres de moyenne densité épaisseur 19 mm, finition laquée identique aux portes Prospero Office, avec joints horizontaux. Serrure standard dont la clé sert de poignée.

Côtés, couvercle et fond en mélaminé gris N, ou laqués.

**Accessoires** Pour PROSPERO OFFICE **Serrures** sur demande, toutes les portes peuvent être équipées de serrure. **Dos à finir** en panneaux en aggloméré mélaminé, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm, finition laquée ou plaquée. Pour PROSPERO BENCH **Dos à finir** ayant les mêmes caractéristiques et épaisseur des portes, joints horizontaux. **Porte-dossiers à extraire** en métal peint, avec deux tiges porte-dossiers réglables et glissières télescopiques à extraction total.

## SCHEDA TECNICA

**Piani** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Due piani suddivisi da fascia h. mm. 50 (conchiglia passacavi nera diam. mm 80 sul piano inferiore della scrivania). Finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretani trasparenti.

Versione nobilitato e laccato con bordi perimetrali ABS spessore mm 2,5. Versione impiallacciata con bordi in tranciato di legno.

**Fascia tra piani** standard laccato, oppure laminato con grafiche o impiallacciato. Opzioni alternative: **Fascia in plexiglass con LED luminoso** completo di alimentatore; **gruppo prese** con due Schuko e due RJ45; **coppia casse acustiche** con due altoparlanti fullrange e due tweeter, potenza massima 20 Wms, connessione Bluetooth 3.0, compatibili per Android e iOS, complete di cavo e retine copricassa.

**Strutture metalliche** **Gamba** in tubolare metallico spessore 20/10, diam. mm 35, finitura verniciata a polveri bianco, nero o cromata con maggiorazione, completa di piedino snodato con base piana in materiale plastico nero per la regolazione millimetrica al pavimento. Telaio strutturale nascosto tra i piani in tubolare metallico spessore 20/10, dim. mm 50x20.

**Cassetto su scrivania o allungo** Struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS completo di vaschetta porta cancelleria; scocca cassetto in metallo verniciato nero a polveri, guide con sistema Blumotion. Disponibile di serie con frontale e schiena in nobilitato, con maggiorazione laccato o impiallacciato. Fianchi laterali in abbinamento ai piani scrivania o allungo. Frontale con maniglia ad incavo incassata, in materiale plastico colore alluminio.

**Accessori** **Gonne sottopiano** in pannello spessore mm 18, caratteristiche e finiture come i piani di lavoro.

## TECHNICAL DATA

**Tops** Particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick. Top and bottom divided by 50 mm-high strip (Shell for cables in-feed - dia. 80 mm on bottom, available on desk). Available in the following finishes:

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching.
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

Melamine and lacquered version with 2.5 mm thick ABS edges. Veneered version with sliced veneer edges.

**Band between tops** on standard version lacquered, laminated with graphics or veneered. Options: **Plexiglas strip with LED lighting** with power supply; two Schuko and two RJ45 sockets; pair of speakers with two speakers fullrange and two tweeter, maximum power 20 Wms, connection Bluetooth 3.0, compatible for Android and iOS, with cable and front speaker panels.

**Metal structures** **Leg** made of 20/10 tubular metal, dia. 35 mm, white, black painted or chrome finish with additional cost, complete with articulated foot - black plastic base plate for millimetre regulation to floor. 20/10 tubular metal frame between top and bottom, dim. 50x20 mm painted.

**Drawer on desk or extension** Structure made of particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, complete with stationery tray; black powder-coated metal drawer frame, Blumotion system guides. Available as standard with melamine front and back, supplement for lacquered or veneered finish. Side panels matching desk tops or extension. Front with groove recessed handle, made of aluminium-coloured plastic.

**Accessories** **Modesty panels** made of 18 mm thick panels, same features and finishes as worktops.

## FICHE TECHNIQUE

**Plateaux** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm. Deux plateaux divisés par un bandeau de 50 mm de haut (coquille passe-câble noire, 80 mm de diamètre, sur le plateau inférieur du bureau). Finitions disponibles :

- mélaminé antirayure, antistatique ;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures.
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

Version mélaminé et laquée avec bords en ABS, épaisseur 2,5 mm. Version plaqué avec bords en feuilles de placage tranchées.

**Bandeau parmi les plateaux** standard laqué ou bien avec graphiques ou plaqué. Alternatives en option : **bandeau en plexiglas avec LED lumineux** avec alimentation; **groupe de prises** comprenant deux prises Schuko et deux prises RJ45; **paire de haut-parleurs**, avec deux haut-parleurs fullrange et deux tweeter, puissance maximale 20 Wms, connexion Bluetooth 3.0, compatible pour Android et iOS, pourvues de câble et de filets couvre-caisse.

**Structures en métal** **Piètement** en pièce tubulaire en métal (épaisseur 20/10, diamètre 35 mm), finition laquée blanc ou noir, chromée avec supplément, avec pied articulé et base plate noire en plastique pour le réglage millimétrique au sol. Encadrement structural caché parmi les plateaux en pièce tubulaire en métal, épaisseur 20/10, dimensions 50x20 mm laqué.

**Tiroir sur bureau ou plateau** Structure réalisée avec des panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm, avec plumier ; structure de tiroir en métal noir laqué époxy et glissières avec système Blumotion. Fourni en standard avec façade et dos en mélaminé, avec extension laquée ou plaquée. Côtés coordonnés au plateau ou aux plateaux du bureau. Façade avec poignée creuse encastrée en plastique, couleur aluminium.

**Accessoires** **Voiles de fond** en panneau épaisseur 18 mm, ayant les mêmes caractéristiques et finitions que les plateaux de travail.

**Emballage** Tous les articles sont fournis démontés et emballés en carton ondulé double cannelure. Les surfaces laquées et plaquées sont protégées par une feuille d'ouate. Dans les zones nécessaires, les angles et les bords sont protégés par des protège-angles en polystyrène ou en polyuréthane expansé.

## SCHEDA TECNICA

**Contenitore sospeso** Struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS. Anta a ribalta spessore mm 18, bordi ABS spessore mm 2,5 con due maniglie ad incavo incassate, in materiale plastico colore alluminio.

Fondo, fianco e schiena strutturali in nobilitato grigio N; coperchio e fondo a vista, fianchi e anta con finiture:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanici trasparenti.

**Fascia tra piani** laccato, o impiallacciato.

**Mensola** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Due pannelli suddivisi da fascia h. mm 50, con supporti. Finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanici trasparenti.

Versione nobilitato e laccato con bordi perimetrali ABS spessore mm 2,5 raggio 3. Versione impiallacciata con bordi in tranciato di legno.

**Fascia tra piani** laccato, o impiallacciato.

**Contenitori a battente**

**Struttura** Fianchi, coperchio e fondo in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm 0,6; schiena spessore mm 8, bifacciale (un lato bianco N, un lato nero).

Il mobile è completo di ripiani in nobilitato posizionabili a tutta altezza con passo mm 32; nella versione guardaroba, un ripiano e tubo appendiabiti. Struttura nobilitato grigio N.

**Frontali** Ante cieche in pannelli spessore mm 18, bordi ABS mm 2,5, con maniglia ad incavo incassata, in materiale plastico colore alluminio; per contenitori alti sistema di apertura premi e apri. Ante complete di cerniere e basette registrabili.

Frontali disponibili con le seguenti finiture:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio. Per la sola finitura alluminio, laccatura acrilica;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanici trasparenti. Bordi in tranciato di legno.

**Componenti di finitura per contenitori a battente**

**Fianchi e top** in pannello spessore mm 18, bordi ABS mm 2,5 raggio 3, disponibili con finiture come frontali. **Divisorio intermedio** h. mm 55 formato da un telaio con fasce in pannello spessore mm 18 nobilitato grigio N e frontale in pannello spessore mm 18, laccato o impiallacciato. **Schiena** per centrostanza, con caratteristiche come frontali. **Zoccolo con fascia frontale** in pannello spessore mm 28, nobilitata, laccata o impiallacciata.

## TECHNICAL DATA

**Wall storage unit** Structure made of melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges. 18 mm thick tilting door, 2.5 mm thick ABS edges with two groove recessed handles made of aluminium-coloured plastic.

Structural bottom, sides and back in grey N melamine; cover and bottom in full view, side and door finishes:

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching.
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

**Band between top and bottom** on version lacquered, or veneered.

**Bracket** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick. Top and bottom divided by 50 mm-high strip, with supports. Available in the following finishes:

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching.
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

Melamine and lacquered version with 2.5 mm thick ABS edges and corner radius 3 mm. Veneered version with sliced veneer edges.

**Band between top and bottom** on version lacquered, or veneered.

**Storage units with hinged doors**

**Structure** Sides, cover and bottom made of melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, ABS edges; 8 mm thick back, bifaced (one side white N, one side black).

The unit comes complete with shelves fully adjustable every 32 mm; shelf and tubular hanger in wardrobe version. Structure with grey N melamine finish.

**Fronts** Solid 18 mm thick panel door, 2.5 mm thick ABS edges, with groove recessed handle, made of aluminium-coloured plastic; push-to-open system on high storage units. Doors complete with adjustable hinges and plates.

Fronts available in the following finishes:

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching. Only for aluminium finish, acrylic lacquering;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection. Sliced veneer edges.

**Finishing components for hinged-door storage units**

**Sides and top** made of 18 mm thick panels, 2.5 mm thick ABS edges, corner radius 3 mm, available in same finish as fronts. **Middle frame** 55 mm high, consisting of a frame with 18 mm thick grey N melamine panel strips, and 18 mm thick lacquered or veneered panel front. **Back** room centrepiece, with front panels features.

**Base with strip** made of 28 mm thick melamine panel, lacquered or veneered.

---

## FICHE TECHNIQUE

**Élément de rangement suspendu** Structure en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS. Porte abattante épaisseur 18 mm, bords en ABS épaisseur 2,5 mm avec deux poignées creuses encastrées en plastique, couleur aluminium. Fond, côté et dos en mélaminé gris N ; couvercle et fond apparents, côtés et porte aux finitions suivantes :

- mélaminé antirayure, antistatique ;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures.
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

**Bandeau parmi les plateaux** laqué ou plaqué.

**Console** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm. Deux panneaux divisés par un bandeau de 50 mm de haut, avec supports. Finitions disponibles :

- mélaminé antirayure, antistatique ;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures.
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

Version mélaminé et laquée avec bords en ABS, épaisseur 2,5 mm, arrondissement 3 mm. Version plaqué avec bords en feuilles de placage tranchées.

**Bandeau parmi les plateaux** laqué ou plaqué.

### Éléments de rangement à battants

**Structure** Côtés, couvercle et fond en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm; épaisseur du dos 8 mm, façade double (un côté blanc N, un côté noir).

Le meuble est équipé d'une série d'étagères qui peuvent être positionnées librement en hauteur (pas 32 mm), tandis que la version garde-robe comprend une étagère et un tube pour accrocher les vêtements. Structure en mélaminé gris N.

**Façades** Portes pleines en panneaux épaisseur 18 mm, bords en ABS de 2,5 mm avec poignée creuse encastrée en plastique couleur aluminium ; les éléments de rangement en haut sont équipés du système "pousser pour ouvrir". Les portes sont équipées de charnières et de plaquettes réglables.

Les façades sont disponibles selon les finitions suivantes :

- mélaminé antirayure, antistatique ;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures. Seulement pour la finition en aluminium, laquage acrylique;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents. Bords en feuilles de placage tranchées.

### Composantes à finir pour les éléments de rangement à battants

**Côtés et plateau** en panneau, épaisseur 18 mm, bords en ABS de 2,5 mm, arrondissement 3 mm, disponibles avec des finitions identiques aux façades. **Cadre moyen** 55 mm de haut, comprenant un encadrement avec bandeaux en panneau mélaminé gris N (épaisseur 18 mm) et une façade en panneau laqué ou plaqué (épaisseur 18 mm). **Dos** au milieu de la chambre, avec les mêmes caractéristiques que les façades. **Plinthe avec bandeau frontal** en panneau mélaminé, laqué ou plaqué (épaisseur 28 mm).

## SCHEDA TECNICA

**Piani** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Due piani suddivisi da fascia h.50 mm. Finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanici trasparenti.

Versione nobilitato e laccato con bordi perimetrali ABS spessore mm 2,5. Versione impiallacciata con bordi in tranciato di legno.

**Fascia tra piani** standard laccato, oppure laminato con grafiche o impiallacciato. Opzioni alternative: **fascia in plexiglass con LED luminoso** completo di alimentatore; **gruppo prese** con due Schuko e due RJ45; **coppia casse acustiche** con due altoparlanti fullrange e due tweeter, potenza massima 20 Wms, connessione Bluetooth 3.0, compatibili per Androis e iOS, complete di cavo e retine copri cassa.

**Strutture metalliche** **Mod. SHORT** piede realizzato con lastra di lamiera spessore mm 2 curvata e tubolare spessore 30/10 dim. mm 50x50 verniciato alluminio, ricoperto da uno strato di gomma rigata colore nero. **Mod. LONG** gamba ad anello in tubolare metallico spessore 20/10 dim. mm 50x20 verniciata a polveri bianco, nero o cromato con maggiorazione, completa di piedino in materiale plastico nero per la regolazione millimetrica al pavimento. **Telaio strutturale** inserito tra i piani in tubolare metallico spessore 20/10, dim. mm 50x20 verniciato.

**Contentitore portante** Struttura in pannelli di truciolare nobilitato classe E1 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm 0,6. Dotato di cassetto e anta lato operatore con maniglia ad incavo incassata, in materiale plastico colore alluminio; anta unica lato opposto con sistema di apertura premi e apri. Schiena interna per la suddivisione in due vani. Schiena interna e fondo con conchiglia passacavi diam. mm. 60 in materiale plastico. Ante e cassetto mm 18 bordo ABS spessore mm 2,5 raggio 3. Cassetto completo di vaschetta porta cancelleria; scocca cassetto in metallo verniciato nero a polveri, guide con sistema Blumotion. Disponibile di serie con frontale e retro nobilitato (con maggiorazione laccato, laminato con grafiche o impiallacciato in abbinamento alla fascia tra piani). Fianchi laterali in abbinamento ai piani scrivania, bordi ABS sp. mm 2,5.

## TECHNICAL DATA

**Tops** Particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick. Top and bottom divided by 50 mm-high strip.

Available in the following finishes:

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching.
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

Melamine and lacquered version with 2.5 mm thick ABS edges. Veneered version with sliced veneer edges.

**Band between tops** on standard version lacquered, laminated with graphics or veneered. Options: **plexiglas band with Led lighting** with power supply; two Schuko and two RJ45 **sockets**; **pair of speakers**, with two speakers fullrange and two tweeter, maximum power 20 Wms, connection Bluetooth 3.0, compatible for Android and iOS, with cable and front speaker panels.

**Metal structures** **SHORT version** with 2 mm thick sheet steel foot plate - 30/10-thick tubular arch, dim. 50x50 mm painted aluminium, coated with a layer of ribbed black rubber. **LONG version** 20/10 tubular metal ring leg, dim. 50x20 mm, white, black powder painted or chromed with additional cost, complete with black plastic foot for millimetre

regulation to floor. 20/10 tubular **metal frame** between top and bottom, dim. 50x20 mm painted.

**Pedestal** Structure made of melamine particle board panels, class E1 with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges. Drawer and door on worker's side, with groove recessed handle, made of aluminium-coloured plastic; single door on opposite side with push-to-open system. Internal back and bottom for dividing two compartments. Internal back with shell for cables in-feed - dia. 60 mm. 18 mm door and drawer, 2.5 mm thick ABS edge, corner radius 3 mm. Drawer with stationery tray; black powder-coated metal drawer frame, Blumotion system guides. Available as standard with melamine front and back, supplement for lacquered, laminated with graphics or veneered finish matching band between tops. Side panels matching desk tops, 2.5 mm thick ABS edges.

## FICHE TECHNIQUE

**Plateaux** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm. Deux plateaux divisés par un bandeau de 50 mm de haut. Finitions disponibles :

- mélaminé antirayure, antistatique ;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures.
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

Version mélaminé et laquée avec bords en ABS, épaisseur 2,5 mm. Version plaqué avec bords en feuilles de placage tranchées.

**Bandeau parmi les plateaux** standard laqué ou bien avec graphiques ou plaqué. Alternatives en option : **bandeau en plexiglas avec Led lumineux** avec alimentation; **groupe de prises** comprenant deux prises Schuko et deux prises RJ45 ; **paire de haut-parleurs**, avec deux haut-parleurs fullrange et deux tweeter, puissance maximale 20 Wms, connexion Bluetooth 3.0, compatible pour Android et iOS, pourvues de câble et de filets couvre-caisse.

**Structures en métal** **Mod. SHORT**, pied en plaque de tôle (épaisseur 2 mm) courbée et pièce tubulaire épaisseur 30/10, dimensions 50x50 mm laquée aluminium, revêtement en caoutchouc strié noir. **Mod. LONG** Piètement en anneau en pièce tubulaire en métal (épaisseur 20/10, dimensions 50x20 mm) plaqué couleur blanc, noir, chromées avec supplément, pourvu de pied en plastique noir pour le réglage millimétrique au sol. **Encadrement structural** caché parmi les plateaux en pièce tubulaire en métal, épaisseur 20/10, dimensions 50x20 mm laqué.

**Meuble portant** Structure en panneaux en aggloméré mélaminé de classe E1 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm. Avec tiroir et porte côté opérateur et poignée creuse encastrée en plastique couleur aluminium ; porte unique sur le côté opposé avec système "pousser pour ouvrir". Dos interne pour créer deux espaces différents. Dos interne et fond avec coquille passe-câble (diamètre 60 mm) en plastique. Portes et tiroir 18 mm, bords en ABS épaisseur 2,5 mm, arrondissement 3 mm. Tiroir avec plumier ; structure de tiroir en métal noir laqué époxy et glissières avec système Blumotion. Fourni en standard avec façade et derrière en mélaminé, avec majoration laquée, laminée avec graphiques ou plaquée (coordonnée au bandeau parmi les plateaux). Côtés coordonnés aux plateaux du bureau, bords en ABS, épaisseur 2,5 mm..

## SCHEDA TECNICA

**Piani** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Finiture disponibili:

- nobilitato antigraffio, antistatico. Bordi mm. 2,5
- impiallacciatura 8/10 protetta da fondo e vernice. Bordi in tranciato di legno sp. mm 2,5
- vetro spessore 12 mm, bordo filo lucido piatto, angoli smussati, verniciato nero o bianco fissato al telaio con due flange
- vetro spessore 12 mm, acidato e retro verniciato a caldo nero o bianco temperato, anti-touch. bordi molati filo lucido piatto fissato al telaio con due flange

**Sottopiano tavolo riunione** pannello di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28, laccato.

**Gamba** Pannello di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, mm 712 H, spessore mm 56. Munita di piedini per la regolazione millimetrica al pavimento. Finiture disponibili:

- nobilitato antigraffio, antistatico
- laccatura poliuretanica realizzata a più strati
- impiallacciatura 8/10 protetta da fondo e vernice.

**Per tavolo riunione** due parti in tubolare metallico spessore 15/10, dim. mm 372/682x20x50 H, verniciato alluminio, bianco o nero, fissato alla gamba con barra in metallo dim. 120x40, spessore mm 5.

**Versione con gonna frontale in legno e telaio metallico**

**Telaio di irrigidimento per piano scrivania** in tubolare metallico spessore 15/10, verniciato alluminio, fissato alla gamba e al piano.

**Gonna sottopiano** Pannello strutturale in MDF, spessore mm 28, mm 300 H, con lavorazione ad incisione, laccato, irrigidito da tensore (x scrivania gambe pannelate) oppure frontale pannello di finitura in MDF, spessore mm 28, mm 145 H, laccato (x scrivanie con cassetteria o laterale portante).

**Telaio di irrigidimento per piano allungo** in tubolare metallico spessore 15/10 con parti laterali in lamiera spessore mm 5, verniciato alluminio, fissato alla gamba e al piano.

**Cassetteria portante** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, mm 900x407x566 H, fianchi, schiena interna e frontali cassetti spessore mm 18, coperchio spessore mm 28, fondo in MDF spessore 19, laccato alluminio, munito di piedini per la regolazione millimetrica al pavimento. Finitura disponibile:

- nobilitato antigraffio, antistatico
- laccatura poliuretanica realizzata a più strati.

**Anta con incisione** in MDF, dim. mm 403x543, spessore mm 19, laccata.

**Laterale portante** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, mm. 1800x900/650x396H, piani perimetrali spessore mm 28, divisori interni, ante o frontali cassetti, spessore mm 18. Finitura disponibile:

- nobilitato antigraffio, antistatico
- laccatura poliuretanica realizzata a più strati.

**Schiena con incisione** in MDF, dim. mm 1744x336, spessore mm 19, laccata, su versione profondità mm 650.

**Anta a ribalta con incisione** in MDF, dim. mm 873x336, spessore mm 19, laccata, su versione profondità mm 900.

**Ripiano** in vetro dim. mm 866x230 spessore mm 8, acidato, su versione profondità mm 900.

**Zoccolo** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, dim. mm 170 H, esterni spessore mm 56, e interni spessore mm 28, laccatura poliuretanica colore alluminio realizzata a più strati, munito di piedini per la regolazione millimetrica al pavimento.

**Contenitori Struttura** contenitori ad ante pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, sp. mm 18, nobilitato grigio N.

**Top di finitura** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28. Finiture disponibili:

- nobilitato antigraffio, antistatico
- laccatura poliuretanica realizzata a più strati
- impiallacciatura 8/10 protetta da fondo e vernice.

**Ante** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Finiture disponibili:

- nobilitato antigraffio, antistatico
- laccatura poliuretanica realizzata a più strati
- impiallacciatura 8/10 protetta da fondo e vernice.

**Ripiani** in nobilitato grigio N spessore mm 28

**Contenitori laterali a giorno** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, laccati, con frontale con incisione in MDF, larghezza mm 350, spessore mm 19, laccato.

**Ripiani vano a giorno** in vetro acidato dim. mm 411x330 spessore mm 8.

**Zoccolo** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2 Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, dim. mm 170 H, esterni spessore mm 56, e interni spessore mm 28, laccatura poliuretanica colore alluminio, munito di piedini per la regolazione millimetrica al pavimento.

**Accessori Porta computer** in metallo verniciato alluminio, dim. mm 497x472, spessore mm 2, disponibile per laterale.

**Elettificazione** disponibile in varie versioni per scrivanie: conchiglia passacavi, scatola elettrica, canalizzazione su gamba. Su tavolo riunione lunghezza mm 2400, canalizzazione completa. Esclusa su piani in vetro.

---

## TECHNICAL DATA

**Tops** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick. Available in the following finishes:

- melamine, scratchproof, antistatic with 2.5 mm thick ABS edges
- 8/10 wood veneer finish with transparent base coat and polyurethane protection with 2.5 mm thick sliced veneer edges
- glass thickness 12mm, flat polished edges, rounded corners, black or white lacquered, fixed to the frame with two discs
- glass frosted thickness 12mm and back hot painted colour black or white tempered, anti-touch, ground polished edges

**Underside panel meeting table** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 28 mm thick, in lacquered finish.

**Leg** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, mm 712 high, 56 mm thick. Feet for millimeter regulation to floor. Available in the following finishes:

- melamine, scratchproof, antistatic
- polyurethane lacquer finish
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

**For meeting table** two parts in metal tubular framing, thickness 15/10, dim. mm 372/682x20x50 H, aluminium, white or black painted, fixed to the leg with metal bar dim. 120x40, thickness mm 5.

**Version with wooden modesty panel and metal frame**

**Stiffening frame for top desk** in metal tubular framing, thickness 15/10, aluminium painted, fixed to leg and top.

**Modesty panel** MDF structural panel, thickness mm 28, mm 300 H, with engraving, lacquered, stiffened by tensor (for panel legs desk) or frontal beam with MDF finishing panel, thickness mm 28, mm 145 H, lacquered (for desk with pedestal or lateral unit).

**Stiffening frame for return top** in metal tubular framing, thickness 15/10, with lateral parts in metal sheet thickness mm 5, aluminium painted, fixed to leg and top.

**Pedestal** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, mm 900x407x566 H, sides, internal back and front drawers thickness mm 18, top thickness mm 28, bottom in MDF thickness 19, aluminium lacquered, with feet for millimetre regulation to floor. Available in the following finishes:

- melamine, scratchproof, antistatic
- polyurethane lacquer finish

**Door with engraved** in MDF, dim. mm 403x543, thickness mm 19, lacquered.

**Side** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 1800x900/650x396H, perimetral tops thickness mm 28, internal dividing, doors or drawers front, thickness mm 18. Available in the following finishes:

- melamine, scratchproof, antistatic
- polyurethane lacquer finish in several layers

**Engraved back** in MDF, dim. mm 1744x336, thickness mm 19, lacquered, on version depth mm 650.

**Engraved tilting door** in MDF, dim. mm 873x336, thickness mm 19, lacquered, on version depth mm 900.

**Glass shelf** dim. mm 866x230 and 8 mm thick, frosted, on version depth mm 900.

**Base** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, dim. mm 170 H, externals thickness mm 56, internals and bottom thickness mm 28, polyurethane aluminium lacquer finish in several layers, with feet for millimeter regulation to floor.

**Storage units Structure doors units** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, grey N melamine.

**Finishing top** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 28 mm thick. Available in the following finishes:

- melamine, scratchproof, antistatic
- polyurethane lacquer finish
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

**Doors** thickness mm 19, 18 mm thick. Available in the following finishes:

- melamine, scratchproof, antistatic
- polyurethane lacquer finish
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

**Shelves** grey N melamine thickness mm 28

**Open lateral units** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, lacquered, MDF front with engraved, width mm 350, thickness mm 19, lacquered.

**Shelves for open units** in frosted glass dim. mm 411x330, thickness mm 8.

**Base** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, dim. mm 170 H, externals thickness mm 56, internals thickness mm 28, polyurethane aluminium lacquer finish in several layers, with feet for millimeter regulation to floor.

**Accessories CPU holder** aluminium painted metal, dim. mm 497x472, thickness mm 2, available on return.

**Cable management** available in several versions on desks: shell for cables in-feed, electrical box, cable channel on leg. On meeting tables width mm 2400, complete cable channel. Excluded on glass tops.

## FICHE TECHNIQUE

**Plateaux** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm. Finitions disponibles:

- mélaminé antirayure, antistatique, avec chants en ABS, épaisseur 2,5 mm.
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents, chants en feuilles de placage tranchées, épaisseur 2,5 mm.
- verre épaisseur 12 mm, bord plats poli, coins arrondis, laqué noir, fixé au cadre par deux disques
- verre épaisseur 12 mm gravé et laqué à chaud noir ou blanc, trempé, anti-touch, bords meulage à fil plat poli

**Dessous plateaux pour table de réunion** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm, laqué.

**Piètement** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, 712 H, épaisseur 56 mm. Piètement avec pieds pour le réglage millimétrique au sol. Finitions disponibles:

- mélaminé antirayure, antistatique
- laquage polyuréthanique, réalisé en plusieurs couches
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents

Pour table de réunion deux parties en tubulaire métallique épaisseur 15/10, dim. mm 372/682x20x50 H, laqué aluminium, blanc ou noir, fixé à le piètement avec bar métallique dim. mm 120x40, épaisseur mm 5.

**Version avec voile de fond en bois et cadre métallique**

**Cadre de raidissement pour plateau bureau** en tubulaire métallique épaisseur 15/10, laqué aluminium, fixé à le plateau et le piètement.

**Voile de fond** Panneau en MDF, épaisseur mm 28, mm 300 H, avec gravure, laqué, raidi par tenseur (sur bureau piètement panneaux), ou frontal panneau de finition en MDF, épaisseur mm 28, mm 145 H, laqué (sur bureaux avec caisson ou latéral portant).

**Cadre de raidissement pour plateau latéral** en tubulaire métallique épaisseur 15/10, avec partie latérales en métal épaisseur mm 5, laqué aluminium, fixé à le plateau et le piètement.

**Caisson portant** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, mm 900x407x566 H, cotes, dos intérieure et façades tiroirs épaisseur mm 18, couvercle épaisseur mm 28, fond en MDF épaisseur mm 19, laqué aluminium, avec pieds pour le réglage millimétrique au sol. Finitions disponibles:

- mélaminé antirayure, antistatique;
- laquage polyuréthanique, réalisé en plusieurs couches

**Porte avec gravure** en MDF, 403x543 mm, épaisseur 19 mm laqué.

**Élément latéral** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, mm 1800x900/650x396 H, plateaux de périmètre épaisseur mm 28, séparateurs internes, portes ou façades tiroirs, épaisseur mm 18. Finitions disponibles:

- mélaminé antirayure, antistatique
- laquage polyuréthanique, réalisé en plusieurs couches

**Dos avec gravure** en MDF, dim. mm 1744x336, épaisseur 19 mm, laqué, sur version profondeur mm 650.

**Porte abattante avec gravure** en MDF, dim. mm 873x336, épaisseur 19 mm, laqué, sur version profondeur mm 900.

**Étagère** en verre dim. mm 866x230 et 8 mm d'épaisseur, sur version profondeur mm 900.

**Plinthe** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, dim. mm 170 H, extérieures épaisseur mm 56, intérieures et fond épaisseur mm 28, laquage polyuréthanique aluminium réalisé en plusieurs couches, avec pieds pour le réglage millimétrique au sol.

**Meubles de rangement Structure meubles avec portes** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, mélamine gris N.

**Plateau à finir** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm. Finition disponible:

- aggloméré mélaminé antirayure, antistatique
- laquage polyuréthanique, réalisé en plusieurs couches
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

**Portes** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm. Finition disponible:

- aggloméré mélaminé antirayure, antistatique
- laquage polyuréthanique, réalisé en plusieurs couches
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

**Étagères** en mélamine gris N épaisseur mm 28

**Latéral ouvert** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, laqué, façade avec gravure en MDF, largeur mm 350, épaisseur mm 19, laqué.

**Étagère partie ouvert** en verre sablé dim. mm 411x330 épaisseur mm 8.

**Plinthe** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, dim. mm 170 H, extérieures épaisseur mm 56, intérieures épaisseur mm 28, laquage polyuréthanique aluminium réalisé en plusieurs couches, avec pieds pour le réglage millimétrique au sol.

**Accessoires Support pour ordinateur** en métal laqué aluminium, dim. mm 497x472, épaisseur mm 2, disponible sur le latéral.

**Électrification** disponible en plusieurs versions pour bureaux : obturateur, boîte électrique, canalisation sur piétements. Sur table de réunion mm 2400 canalisation complète. Exclu sur plateaux en verre.

## SCHEDA TECNICA

**Piani** Disponibili con le seguenti finiture:

- vetro temperato spessore mm 12, molato filo lucido, trasparente oppure sabbiato;
- mdf spessore mm 28 con laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio;
- multistrati spessore mm 29 con impiallacciatura 8/10 protetta da fondo e vernice, poliuretanici trasparenti.

Bordi rastremati per i piani in mdf e in multistrati.

**Strutture** Costituite da elementi a tubolare e da cassettiere/contenitori strutturali. Tubolare metallico spessore 20/10, diam. mm 55, a più elementi sagomati a ponte ed aggregati tramite giunti fusi in alluminio, piedini in fusione di alluminio; disco a terra e di appoggio alla cassettera/contenitore strutturale in fusione di alluminio, diam. mm 300. Verniciatura a polveri colore alluminio oppure con altre colorazioni. Cassettera strutturale mm 420x600x555 H a tre cassette, serratura di serie a chiusura centralizzata, chiave pieghevole; primo cassetto con vaschetta porta cancelleria; scocca cassette in metallo verniciato nero a polveri, guide a sfere; struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 22, bordi ABS spessore mm 2,5; schiena spessore mm 18, non bordata; frontali dei cassette in mdf spessore mm 19 con bordo superiore lavorato a 45°. Disponibile con finitura laccata, oppure impiallacciata. Nella finitura impiallacciata, i bordi sono in tranciato di legno spessore mm 2,5. La versione Isottina propone anche un contenitore strutturale mm 1380x500x555 H con fianchi, coperchio e fondo in pannelli spessore mm 22, bordi ABS spessore mm 2,5; ripiano e due fianchi interni spessore mm 22, bordo ABS mm 0,6; vano centrale a giorno con funzione di alloggio computer, schiena in lamiera forata verniciata colore alluminio; un cassetto con scocca in truciolare rivestito PVC nero, guide a rotelle, frontale spessore mm 18, bordi ABS mm 2,5; conchiglia passacavi in materiale plastico colore alluminio, diam. mm 60, posizionata sul coperchio. Il contenitore è disponibile con finitura laccata.

**Accessori** **Elemento porta computer** in lamiera forata, verniciata a polveri colore alluminio, agganciato al tubolare metallico della scrivania. **Vertebra passacavi** in materiale plastico colore alluminio. **Leggio** realizzato con pannelli spessore mm 28, bordi ABS spessore mm 0,6, laccati o impiallacciati, struttura in tubolare come le scrivanie. Per ISOTTA **Canalizzazione** con elemento tubolare a sospensione, per il passaggio orizzontale dei cavi, materiale plastico laccato colore nero. **Portaoggetti e portavideo** di servizio alla scrivania, piani in mdf spessore mm 28 laccato, bordi rastremati, struttura come le scrivanie a cui si aggregano tramite giunti fusi in alluminio. Il portavideo è dotato di schiena in lamiera forata, verniciata a polveri colore alluminio. Per ISOTTINA **Portaoggetti e portavideo** di servizio alla scrivania, piani in mdf spessore mm 28 laccato, bordi rastremati, a sospensione a mezzo di tubolare aggregato alla scrivania tramite giunti in alluminio. Portavideo come sopra. **Piano portatastiera** in mdf spessore mm 28, bordi rastremati e angoli arrotondati raggio mm 50, finitura laccato oppure impiallacciato, con meccanismo estensibile in metallo verniciato alluminio. **Cassettera** A tre cassette, serratura di serie a chiusura centralizzata, chiave pieghevole, ruote piroettanti nere. Primo cassetto con vaschetta porta cancelleria. Scocca cassette in metallo verniciato nero a polveri, guide a sfere. Struttura in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 22, bordi ABS spessore mm 2,5; schiena spessore mm 18, non bordata; frontali dei cassette in mdf spessore mm 19 con bordo superiore lavorato a 45°. Cassettera disponibile con le seguenti finiture:

- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio. Per la sola finitura alluminio, laccatura acrilica;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanici trasparenti. Nella finitura impiallacciata, i bordi sono in tranciato di legno spessore mm 2,5.

## TECHNICAL DATA

**Tops** Available with the following finishes:

- tempered glass, 12 mm thick, ground polished edge, transparent or sanded;
- MDF, 28 mm thick, with polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching;
- plywood 29 mm thick with 8/10 wood veneer finish with transparent base coat and polyurethane protection.

Tapered edges for MDF and plywood tops.

**Structures** Made up of tubular units and by structural drawer units/storage units. Metal tubular frame thickness 20/10, diam. 55 mm, made up of several U-shaped units, connected by means of aluminium cast joints, aluminium cast feet; floor disc and disc on the structural drawer unit/storage unit, diam. mm. 300. Powder painted in aluminium colour or with other colours. Structural drawer unit size 420x600x555(height) mm consisting of three drawers, complete with central closing standard lock, folding key; the first drawer is equipped with a stationery tray; drawer structure in black powder painted metal, ball guides; structure made of particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 22 mm thick, 2.5 mm thick ABS edges; 18 mm thick back, not bordered; drawer fronts in MDF, 19 mm thick, with upper edge worked at 45°. Available with lacquered or veneered finish. Veneered version with 2.5 mm thick sliced veneer edges. Isottina version has also a structural storage unit, size 1380x500x555(height) mm, with sides, cover and bottom in 22 mm thick panel, 2.5 mm thick ABS, edges; shelf and two internal sides 22 mm thick, 0.6 mm thick ABS edge; central open space for CPU housing, back in aluminium painted punched plate; a drawer with structure in particle board covered in black PVC, roller guides, 18 mm thick fronts, 2.5 mm thick ABS edges; shell for cable in-feed in aluminium coloured plastic, diam. 60 mm, located on the cover. The storage unit is available with lacquer finish.

**Accessories** **CPU holder** in punched plate, aluminium colour powder painted, connected to the metal tubular frame of the desk. **Vertical cable channel** in aluminium coloured plastic. **Reading unit** made of 28 mm thick panels, 0.6 mm thick ABS edges, lacquered or veneered, structure in tubular frame as desks. For ISOTTA **Channelling** with suspended tubular frame, for the horizontal feeding of cables, black lacquered plastic. **Object-holder and video holder** for the desk, tops in MDF, 28 mm thick, lacquered, tapered edges, structure just like desk to which is aggregated by means of aluminium cast joints. The video holder is equipped with back in punched plate, aluminium colour powder painted. For ISOTTINA **Object-holder and video holder** for the desk, tops in MDF, 28 mm thick, lacquered, tapered edges, supported by a tubular frame connected to the desk by means of aluminium joints. Video holder as above. **Keyboard shelf** in MDF, 28 mm thick, tapered edges and rounded corners, corner radius 50 mm, with lacquered or veneered finish, with extension mechanism in aluminium painted metal. **Drawer unit** Made up of three drawers, equipped with central closing standard lock, folding key, black swivel castors. First drawer with stationery tray. Drawer structure in black powder painted metal, ball guides. Structure made of particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 22 mm thick, 2.5 mm thick ABS edges; 18 mm thick back, not bordered; drawer fronts in MDF, 19 mm thick, with upper edge worked at 45°. Available in the following finishes:

- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching. Only for aluminium finish, acrylic lacquering;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection. Veneered version with edges in 2.5 mm thick sliced veneer.

---

## FICHE TECHNIQUE

**Plateaux** Disponibles selon les finitions suivantes:

- verre trempé, épaisseur 12 mm, meulage à fil poli, transparent ou sablé;
- fibres de moyenne densité épaisseur 28 mm avec laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures;
- bois stratifié, épaisseur 29 mm avec placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

Chants fuselés pour les plateaux en fibres de moyenne densité et en bois stratifié.

**Structures** Elles se composent d'éléments en pièce tubulaire et d'éléments de rangement structuraux. Pièce tubulaire métallique, épaisseur 20/10, diamètre 55 mm, avec plusieurs éléments façonnés à pont et raccordés par des joints en fusion d'aluminium, pieds fusion d'aluminium; disque au sol et disque au dessus de l'élément de rangement structural en fusion d'aluminium, diamètre 300 mm. Laquage époxy couleur aluminium ou d'autres couleurs différentes. Eléments de rangement structural dimensions 420x600x555(hauteur) mm, composé de trois tiroirs, serrure standard à fermeture centralisée, clé pliante; premier tiroir avec plumier; structure des tiroirs en métal noir laqué époxy, glissières à billes; structure en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 22 mm, bords en ABS épaisseur 2,5 mm; dos épaisseur 18 mm, sans chants; façades des tiroirs en fibres de moyenne densité, épaisseur 19 mm, avec chant supérieur usiné à 45°. Disponible avec finition laquée ou plaquée. Version plaquée avec bords en feuilles de placage tranchées, épaisseur 2,5 mm. La version Isottina a un élément de rangement structural aussi, dimensions 1380x500x555 (hauteur) mm avec côtés, couvercle et fond en panneaux épaisseur 22 mm, bords en ABS épaisseur 2,5 mm; étagère et deux côtés internes épaisseur 22 mm, bords en ABS épaisseur 0,6 mm; compartiment central ouvert qui fait fonction de logement pour l'ordinateur, dos en tôle percée laquée couleur aluminium; un tiroir avec structure en aggloméré revêtu en PVC noir, glissières à rouleaux, façade épaisseur 18 mm, bords en ABS épaisseur 2,5 mm; coquilles pour le passage des câbles en plastique couleur aluminium, diam. 60 mm, sur le couvercle. L'élément de rangement est disponible avec finition laquée.

**Accessoires** **Support pour ordinateur** en tôle percée, laqué époxy couleur aluminium, accroché à la pièce tubulaire métallique du bureau. **Chemin de câbles vertical** en plastique couleur aluminium. **Pupitre** réalisé par des panneaux, épaisseur 28 mm, bords en ABS épaisseur 0,6 mm, laqués ou plaqués, structure en pièce tubulaire comme les bureaux. Pour ISOTTA **Canalisation** avec élément tubulaire suspendu, pour le passage horizontal des câbles, en plastique laqué noir. **Porte-objets et support visuel PC** de service du bureau, plateaux en fibres de moyenne densité épaisseur 28 mm, laqués, bords fuselés, même structure des bureaux, agrégation par joints en fusion d'aluminium. Le support visuel PC est pourvu de dos en tôle percée, laqué époxy couleur aluminium. Pour ISOTTINA **Porte-objets et support visuel PC** de service du bureau, plateaux en fibres de moyenne densité épaisseur 28 mm, laqués, bords fuselés, suspendus et soutenus par une pièce tubulaire accrochée au bureau par des joints en aluminium. Support visuel PC, voir ci-dessus. **Tablette porte-clavier** fibres de moyenne densité épaisseur 28 mm, bords fuselés et angles arrondi, arrondissement 50 mm, finition laquée ou plaquée, avec mécanisme extensible en métal peint, couleur aluminium. **Caisson II** se compose de trois tiroirs, serrure standard à fermeture centralisée, clé pliante, roulettes pivotantes noires. Premier tiroir avec plumier. Structure des tiroirs en métal noir laqué époxy, glissières à billes. Structure en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 22 mm, bords en ABS épaisseur 2,5 mm; dos épaisseur 18 mm, sans chants; façades des tiroirs en fibres de moyenne densité, épaisseur 19 mm, avec chant supérieur usiné à 45°. Disponible selon les finitions suivantes:

- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures. Seulement pour la finition en aluminium, laquage acrylique;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents. Pour le modèle plaqué, les chants sont en feuilles de placage tranchées, épaisseur 2,5 mm.

**SCHEDA TECNICA**

Pannelli parete di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28, bordi ABS spessore mm 2,5. Completi di contenitori con anta a ribalta, struttura in pannelli spessore mm 18, bordi ABS mm 0,6, schiena spessore mm 18, non bordata; ante spessore mm 18, bordo superiore in ABS spessore mm 2,5, altri bordi spessore mm 0,6, fissate al fondo del contenitore con tre cerniere e dotate di meccanismi per l'apertura a ribalta. Tra i contenitori, per facilitare l'apertura delle ante, piani spessore mm 28, bordi laccati alluminio. I contenitori sono sostenuti da gambe in tubolare metallico spessore 20/10, diam. mm 55, sagomate a ponte, verniciate a polveri colore alluminio, complete di piedino in fusione di alluminio. I pannelli parete con contenitori sono dotati di montanti in metallo verniciato alluminio, a sezione rettangolare, per il fissaggio dei contenitori e delle gambe. Sono disponibili anche pannelli parete con mensola o piano di lavoro, in pannello spessore mm 28, bordi ABS spessore mm 2,5 oppure con pianetto portaoggetti ellittico o rotondo, in mdf spessore mm 28 con bordi rastremati; struttura in tubolare metallico, verniciato a polveri colore alluminio.

Le ante sono disponibili con le seguenti finiture:

- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio. Per la sola finitura alluminio, laccatura acrilica;

- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanic trasparenti.

I pannelli parete ed i contenitori sono disponibili solamente laccati grigio medio o bianco.

**TECHNICAL DATA**

Wall panels particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 28 mm thick, 2.5 mm thick ABS edges. Complete with tilting door storage units, structure made of 18 mm thick panels, 0.6 mm thick ABS edges, 18 mm thick back, not bordered; 18 mm thick doors, upper edge in ABS, 2.5 mm thick, other edges 0.6 mm thick, attached at the bottom of the storage unit with three hinges and fitted with tilting door opening mechanism. Between the storage units, to facilitate door opening, 28 mm thick tops, aluminium lacquered edges. The storage units are supported by legs in metal tubular framing with thickness 20/10, diam. 55 mm, U-shaped, powder painted in aluminium colour. The wall panels with storage units are fitted with aluminium painted metal uprights, rectangular section, for the fastening of the units to the legs. Wall panels with shelf or work top are also available, in 28 mm thick panel, 2.5 mm thick ABS edges or with small elliptic or round object-holder top, in MDF, 28 mm thick, with tapered edges; structure in metal tubular framing, powder painted in aluminium colour.

Doors are available with the following finishes:

- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching. Only for aluminium finish, acrylic lacquering;

- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

Wall panels and storage units are available only in medium grey or white lacquering.

**FICHE TECHNIQUE**

Panneaux-parois en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm, chants en ABS épaisseur 2,5 mm. Pourvus d'éléments de rangement avec porte abattante, structure en panneaux épaisseur 18 mm, chants en ABS épaisseur 0,6 mm, dos épaisseur 18 mm, sans chants; portes épaisseur 18 mm, chant supérieur en ABS épaisseur 2,5 mm, autres chants épaisseur 0,6 mm, fixées au fond de l'élément de rangement par trois charnières et équipées de mécanismes d'ouverture abattante. Pour faciliter l'ouverture des portes, les éléments de rangement sont divisés par des plateaux (épaisseur 28 mm) ayant des chants laqués couleur aluminium. Les éléments de rangement sont soutenus par des piétements en pièce tubulaire métallique (épaisseur 20/10, diamètre 55 mm) façonnés à pont et laqués époxy couleur aluminium; ils sont pourvus de pieds en fusion d'aluminium. Les panneaux-parois pourvus d'éléments de rangement sont équipés de montants en métal, laqués couleur aluminium, à section rectangulaire, pour la fixation des conteneurs et des piétements. De plus, on peut également commander des panneaux-parois pourvus d'étagère ou de plan de travail, en panneau, épaisseur 28 mm, chants en ABS épaisseur 2,5 mm, ou bien avec support porte-objets elliptique ou rond, en fibres de moyenne densité, épaisseur 28 mm, aux chants fuselés; structure en pièce tubulaire métallique laquée époxy, couleur aluminium.

Les portes sont disponibles selon les finitions suivantes:

- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures. Seulement pour la finition en aluminium, laquage acrylique;

- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

Les panneaux-parois et les éléments de rangement sont disponibles seulement laqués couleur gris moyen ou blanc.

SCHEDA TECNICA

SCRIVANIE

Piani: pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm. 18 laccati con vernice poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione e al graffio; pannelli impiallacciati (8/10) spessore mm. 18 protetti da fondo e vernice, acrilica trasparente effetto naturale, con bordi in tranciato di legno spessore mm. 2; pannelli in truciolare laminato antitouch di ultima generazione spessore mm. 18, altamente resistente al graffio e al calore, antimpronta.

**Strutture metalliche** gamba costituita da due elementi ad "L" in tubolare metallico quadrato spessore 20/10, dim. mm. 40x40, finitura verniciata mono colore, uniti mediante giunto in fusione di alluminio. Traversi esterni sono saldati ad un profilo ad "L" spessore mm. 5 dim. mm. 40x40.

**Contentore portante estraibile** Contentore in sostituzione della gamba, composto da una struttura esterna e una interna estraibile tramite maniglia, scorrevole su guide metalliche a sfere di portata 130 Kg, chiusura con soft system. La struttura esterna è disponibile in Laminato, laccato oppure impiallacciato; la struttura interna in pannelli di truciolare nobilitati EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm. 18, bordi in ABS spessore mm. 0.6;

TECHNICAL DATA

DESK

Tops: EPA TSCA CARB 2 particle board panels with low formaldehyde emission, class 2 fire proofing, 18 mm thick lacquered with multilayer polyurethane paint so as to guarantee the highest levels of resistance to abrasion and scratching, veneered (8/10) 18 mm thick protected by base coat and paint, acrylic transparent natural effect, with edges in veneer wood thickness 2 mm; Laminate Anti Touch particle board panels last generation, 18 mm thick, highly scratch and heat-resistant, anti-fingerprint,

Glass frosted and back hot painted (extra clear white or black float) tempered, 12 mm thick anti-touch, ground polished edges.

Metal structure made up of two L-shaped units in squared metal tubular framing, 20/10 thickness, dim. 40x40 mm, finishing one-coloured painted, fixed together by means of a joint in fused aluminium. The external beams are welded to a 5 mm thick L-shaped bar, dim. 40x40 mm.

Lateral pedestal to replace the leg, consisting of an external structure, an internal one, as a drawer that can be opened by pulling with the handle, sliding on metal ball guides with a capacity of 130 kg, soft closing system.

The external structure is available in latest generation anti-touch laminated particle boards, lacquered or veneered panels; the inside structure is made of melamine particle board panels EPA TSCA CARB 2 with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges.

FICHE TECHNIQUE

BUREAUX

Plateaux panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 m; panneaux stratifié (9/10) anti-traces de doigt de dernière génération, épaisseur 18 mm, très résistant aux rayures et à la chaleur, anti-empreintes, les côtés sont bordés ABS épaisseur 2 mm ; panneaux laqués avec peinture polyuréthane multicouche pour garantir les plus hauts niveaux de résistance à l'abrasion et aux rayures; panneaux plaqués (8/10) épaisseur mm.18 protégés par une couche de fond et peinture, effet acrylique transparent naturel, avec bords en placage de bois épaisseur mm 2 ; verre trempé dépoli et fond peint à chaud (blanc extra clair et noir float), épaisseur mm.12, anti-empreintes, bords rectifiés, plats et polis.

**Structures métalliques** Piétement formé par deux éléments en tubulaire métallique carré en forme de "L", épaisseur 20/10, dim. 40x40 mm, finition laquée une seule couleur, ces deux éléments sont reliés par un raccord en fusion d'aluminium. Les traverses extérieures sont soudées à un profil en forme de "L", épaisseur 5 mm, dim. 40x40 mm.

**Caisson de rangement**, il remplace le piétement composé d'une structure externe et une interne qui peut être ouverte grâce à une poignée, en coulissant sur des glissières à billes métalliques d'une capacité de 130 kg, système de fermeture soft, structure constituée par des panneaux en aggloméré mélaminé à faible émission de formaldéhyde EPA TSCA CARB 2, réaction au feu classe 2, épaisseur mm 18, bords en ABS épaisseur mm 0,6, partie supérieure, bords avant et arrière en ABS épaisseur mm 2.

Structure extérieure disponible en panneaux agglomérés stratifiés anti-traces de doigt de dernière génération, épaisseur mm 18, avec une surface anti-empreinte importante ou laquée polyuréthane réalisé en plusieurs couches capables de garantir les plus hauts niveaux de résistance à l'abrasion et aux rayures ou plaquées (8/10) épaisseur mm.18 protégés par une couche de fond et peinture, effet acrylique transparent naturel, avec bords en placage de bois épaisseur mm 2

Structure intérieure en panneaux mélaminé agglomérés EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm anti-rayures et antistatique.

## FRIDAY - ON - HOME OFFICE

Scrivanie, parétine / Desks, modul panel / Bureaux, cloison bureaux

### SCHEMA TECNICA

**Scrivanie:** **Piani** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spess. mm 18. Versione laminato e laccato con bordi perimetrali ABS spessore mm 2. Due piani suddivisi da fascia h. mm 50. Finiture disponibili in laminato Anti Touch di ultima generazione, spessore mm.18, con una superficie profonda e piena anti-impronta; laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio; impiallacciatura 8/10 protetta da fondo e vernice, trasparenti effetto naturale, con bordi in tranciato di legno.

**Fascia tra piani** standard laccato.

**Strutture metalliche FRIDAY** **pie** realizzato con lastra di lamiera spessore mm 2 curvata e tubolare spessore 30/10 dim. mm 50x50 verniciato alluminio, ricoperto da uno strato di gomma rigata colore nero o moquette. **Telaio strutturale** inserito tra i piani in tubolare metallico spessore 20/10, dim. mm 50x20 verniciato.

**Strutture metalliche ON Gamba** in tubolare metallico spessore 20/10, diam. mm 35, finitura verniciata a polveri bianco o nero, completa di piedino snodato con base piana in materiale plastico nero per la regolazione millimetrica al pavimento. **Telaio strutturale** nascosto tra i piani in tubolare metallico spessore 20/10, dim. mm 50x20.

**Contentore portante FRIDAY** Dotato di cassetto e anta lato operatore con maniglia ad incavo incassata, in materiale plastico colore alluminio; fondo con conchiglia passacavi diam. mm. 60. Cassetto completo di vaschetta porta cancelleria; scocca cassetto in metallo verniciato nero a polveri, guide con sistema Blumotion. Fianchi laterali, anta e cassetto in abbinamento ai piani scrivania, bordi ABS sp. mm 2.

**Accessori Scatola portaoggetti estraibile** su scrivania: struttura in pannelli di multistrato, spessore mm 12, laccato o impiallacciato con fondo interno rivestito in tessuto effetto velluto.

**Parétine** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18 con bordi perimetrali ABS spessore mm 2. Due pannelli suddivisi da fascia h. mm. 50. Telaio strutturale nascosto tra i pannelli in tubolare metallico spessore 20/10, dim. mm 50x20. Disponibile con laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio;

**Pannelli boiserie** Pannelli di truciolare nobilitato classe E1 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18 con bordi perimetrali ABS spessore mm 0.6. Il fissaggio a muro avviene tramite distanziatori in metallo dotati di aggancio per i pannelli boiserie.

Finiture disponibili con laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio; solo per pannello 90x180h rivestimento in tessuto vinilico con stampa digitale.

### TECHNICAL DATA

**Desks:** **Tops** Melamine particle board panels, class E1 with low formaldehyde emission, class 2 fire proofing, 18 mm thick. Top and bottom divided by 50 mm-high strip. Laminated and lacquered version with 2 mm thick ABS edges. Available in the following finishes: laminate Anti-Touch particle board panels last generation, 18 mm thick, deep and full surface anti-fingerprint; polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching; 8/10 wood veneer finish with transparent base coat and protection natural effect, with sliced veneer edges.

**Band between tops** on standard version lacquered. **Metal structures FRIDAY** with 2 mm thick sheet steel **foot** plate - 30/10-thick tubular arch, dim. 50x50 mm painted aluminium, coated with a layer of ribbed black rubber or carpet. 20/10 tubular **metal frame** between top and bottom, dim. 50x20 mm painted.

**Metal structures ON Leg** made of 20/10 tubular metal, dia. 35 mm, white or black painted, complete with articulated foot - black plastic base plate for millimetre regulation to floor. 20/10 tubular metal frame between top and bottom, dim. 50x20 mm painted.

**Pedestal FRIDAY** Drawer and door on worker's side, with groove recessed handle, made of aluminium-coloured plastic; bottom for dividing two compartments. cables in-feed - dia. 60 mm. 18 mm door and drawer, 2 mm thick ABS edge, corner radius 2 mm. Drawer with stationery tray; black powder-coated metal drawer frame, Blumotion system guides. Side panels, door and drawer matching desk tops, 2 mm thick ABS edges.

**Accessories Removable pen box** for desk multilayer structure, 12 mm thick, lacquered or veneered finishing, bottom upholstered with velvet-like fabric. **Wall panel** for desk chipboard panels EPA TSCA CARB 2 with low formaldehyde emission, reaction to fire class 2, 18 mm thick with 2 mm thick ABS edges. Two panels divided by h. mm. 50 band. Structural frame hidden between the panels in 20/10 thick metal tubing, dim. 50x20 mm. Available in polyurethane lacquering made in several layers to guarantee the highest levels of resistance to abrasion and scratching.

**Decorative wall panels** melamine-faced chipboard panels with low formaldehyde emission, reaction to fire class 2, 18 mm thick with 0.6 mm thick ABS perimeter edges. The panel is fixed to the wall by means of metal spacers equipped with specific hooks for panelling. Finishes available in polyurethane lacquering made in several layers to guarantee the highest levels of resistance to abrasion and scratching; only for 90x180h panel with digital printing on vinyl fabric.

### FICHE TECHNIQUE

**Bureaux:** **Plateaux** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm. Version laminé et laquée avec bords en ABS, épaisseur 2 mm. Deux plateaux divisés par un bandeau de 50 mm de haut. Finitions disponibles en panneaux en aggloméré Laminé Anti Touch dernière génération, épaisseur 18 mm, avec surface profonde et pleine, anti-empreintes; laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures; placage 8/10 protégé par un apprêt et une laque transparents effet naturel, avec bords en feuilles de placage tranchées.

**Bandeau parmi les plateaux** standard laqué.

**Structures en métal FRIDAY** **pie** en plaque de tôle (épaisseur 2 mm) courbée et pièce tubulaire épaisseur 30/10, dimensions 50x50 mm laquée aluminium, revêtement en caoutchouc strié noir ou tapis. **Encadrement structural** caché parmi les plateaux en pièce tubulaire en métal, épaisseur 20/10, dimensions 50x20 mm laqué.

**Structures en métal ON Piétement** en pièce tubulaire en métal (épaisseur 20/10, diamètre 35 mm), finition laquée blanc ou noir, avec pied articulé et base plate noire en plastique pour le réglage millimétrique au sol. Encadrement structural caché parmi les plateaux en pièce tubulaire en métal, épaisseur 20/10, dimensions 50x20 mm laqué.

**Meuble portant FRIDAY** Avec tiroir et porte côté opérateur et poignée creuse encastrée en plastique couleur aluminium ; fond avec coquille passe-câble (diamètre 60 mm). Tiroir avec plumier structure de tiroir en métal noir laqué époxy et glissières avec système Blumotion. Côtés coordonnés aux plateaux du bureau, port et tiroir, bords en ABS, épaisseur 2 mm.

**Accessoires Boîte tiroir:** structure de bureau en panneaux multicouches, épaisseur 12 mm, laqué ou plaqué avec fond intérieur recouvert en tissu effet velours. Cloison bureau EPA TSCA CARB 2 à faible émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm avec bords périphériques en ABS de 2 mm d'épaisseur Deux panneaux séparés par une bande de 50 mm. Cadre structurel en tube métallique épais de 20/10 caché entre les panneaux, dimensions 50x20 mm. Disponible en laqué polyuréthane multicouche capable de garantir les plus hauts niveaux de résistance à l'abrasion et aux rayures.

**Boiserie décorative** Panneaux agglomérés EPA TSCA CARB 2 à faible émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm avec bords périphériques en ABS de 0,6 mm d'épaisseur. Le panneau est fixé au mur à l'aide d'entretoises métalliques équipées de crochets spécifiques pour boiserie. Finitions disponibles en laqué polyuréthane multicouche capable de garantir les plus hauts niveaux de résistance à l'abrasion et aux rayures; uniquement pour panneau 90x180h, revêtement en tissu vinyle avec impression numérique

## SCHEMA TECNICA

## RECEPTION

**Piani di lavoro, gambe, fianchi, spalle di chiusura** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28, finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanic trasparenti.

Versione nobilitato e laccato con bordi ABS spessore mm 2. Versione impiallacciata con bordi in tranciato di legno spessore mm 2. Fianchi reception (gambe) bordati ABS spessore mm 0,6, con piedini per la regolazione millimetrica al pavimento.

**Piano di lavoro per postazione lineare o curva con video** Caratteristiche generali come precedente, presenta inoltre un foro sagomato appositamente per consentire l'appoggio di un video (fino a 19") su un piano ribassato spessore mm 18, regolabile a due diverse altezze grazie a due staffe metalliche dotate di due fori con piolini di sostegno. Piano ribassato a mm 55 o a mm 110.

**Frontali** Pannelli di truciolare EPA TSCA CARB2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28, finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio. Per la sola finitura alluminio, laccatura acrilica;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanic trasparenti.

Versione nobilitato e laccato con bordi ABS spessore mm 2. Versione impiallacciata con bordi in tranciato di legno spessore mm 2. Gli elementi curvi sono realizzati in multistrati, spessore mm 28, disponibili solo con finitura laccata oppure impiallacciata. Zoccolo paracolpi a terra in laminato alluminio semilucido h. mm 60.

**Piano alzata** Vetro molato filo lucido spessore mm 5+5 con film opalino, profondità mm 246, fissato a staffe in metallo colore alluminio oppure a spalle o a fianchi.

**Porta va e vieni** Struttura come frontali lineari. In un lato agiscono due cerniere a doppia azione contro un montante di larghezza mm 60 da fissare a muro. Dall'altro lato sulla parte superiore è presente una maniglia di colore alluminio.

**Accessori** **Portapenne e portacd** in acridite opalino spessore mm 4. **Elemento porta-computer** su ruote in lamiera forata, verniciato a polveri colore alluminio.

**Elettificazione** canalina in materiale plastico. **Scatola elettrica** in metallo colore alluminio con due prese Schuko e due prese RJ45.

## TECHNICAL DATA

## RECEPTION COUNTERS

**Worktops, legs, sides, end panels** Particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 28 mm thick, with finish as follows:

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

Melamine and lacquered version with 2 mm thick ABS edges. Veneered version with 2 mm thick sliced veneer edges. Counter sides (legs) 0,6 mm thick ABS bordered sides, with feet for millimetre regulation to floor.

**Worktop for linear or curved workstation with monitor** The same general features as above, but with a specifically shaped hole to house a monitor (up to 19") on a recessed top 18 mm thick, which can be adjusted to two different heights using two metal brackets. Top recessed to 55 mm or 110 mm.

**Fronts** Particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 28 mm thick with finish as follows:

- melamine scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching. Only for aluminium finish, acrylic lacquering;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

Melamine and lacquered version with 2 mm thick ABS edges. Veneered version with 2 mm thick sliced veneer edges. The curved parts are in plywood, 28 mm thick, only available in lacquered or veneer finish. Buffer floor base in laminated semi-gloss aluminium, height 60 mm.

**Reception top** 5+5mm glass with polished edge, with opaline film, 246 mm deep, fixed on metal supports, aluminium painted, or on end panels or sides.

**Double action door** Structure as the linear fronts. Two double-action hinges support the door on a 60 mm upright to fix to the wall on one side. The other side has an aluminium-coloured handle in the top section of the door.

**Accessories** **Pen holders and CD racks** made of opaline acrydite 4 mm thick. CPU holder on castors in punched plate, aluminium powder painted. **Cable management** in plastic. **Electrical box** in aluminium color with two Schuko + two RJ45 sockets.

## FICHE TECHNIQUE

## BANQUES D'ACCUEIL

**Plateaux de travail, piétements, côtés, épaules** Panneaux en aggloméré EPA TSCA BARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm. Finitions disponibles:

- mélaminé antirayure, antistatique;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

Version mélaminé et laqué avec chants en ABS, épaisseur 2 mm. Version plaqué avec chants en feuilles de placage tranchées, épaisseur 2 mm. Banques d'accueil avec côtés (piétements) chants épaisseur 0,6 mm, piétements équipés de vérins de réglage millimétrique au sol.

**Plateau de travail pour poste linéaire ou curviligne avec écran vidéo** Caractéristiques générales comme précédent, mais avec un trou profilé pour permettre d'insérer un écran vidéo(jusqu'à 19 pouces) sur un plateau surbaissé épaisseur 18 mm, réglable sur deux hauteurs différentes. Plateau surbaissé à 55 ou 110 mm.

**Façades** Panneaux en aggloméré EPA TSCA BARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm, finitions disponibles:

- mélaminé antirayure, antistatique;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures. Seulement pour la finition en aluminium, laquage acrylique;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

Version mélaminé et laqué avec chants en ABS épaisseur 2 mm. Version plaqué avec chants en feuilles de placage tranchées, épaisseur 2 mm. Les éléments courbés sont réalisés en bois stratifié, épaisseur 28 mm, disponibles seulement avec finition laquée ou plaquée. Base pare-chocs au sol en laminé d'aluminium demi-brillant (h. 60 mm).

**Plateau d'accueil** Verre poli à fil lucide, épaisseur 5+5 mm avec film opalin, profondeur 246 mm, fixé sur équerres métalliques, laqué couleur aluminium ou épaules ou côtés.

**Porte pivotante à double action** Structure identique à celle des façades linéaires. Deux charnières à double action agissent d'un côté contre un montant de 60 mm de largeur, à fixer au mur. De l'autre côté, en haut, il y a une poignée de couleur aluminium.

**Accessoires** **Plumiers et port-CD** en acrydite opalin de 4 mm d'épaisseur. **Support pour ordinateur** sur roulettes en tôle percée, laqué époxy couleur aluminium.

**Electrification** en matière plastique. **Coffret de branchement** en aluminium avec deux prises Schuko + deux prises RJ45.

## SCHEDA TECNICA

**Piani di lavoro e gambe** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28.

Finiture disponibili:

- nobilitato antigraffio, antistatico;
  - laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio;
- Piani con bordi ABS spessore mm 2,5; fianchi bordati ABS spessore mm 0,6, con piedini per la regolazione millimetrica al pavimento.

**Piano di lavoro per postazione lineare o curva con video** Caratteristiche generali come precedente, presenta inoltre un foro sagomato appositamente per consentire l'appoggio di un video (fino a 19") su un piano ribassato spessore mm 22 bianco N nobilitato, regolabile a due diverse altezze grazie a due staffe metalliche dotate di due fori con piolini di sostegno. Piano ribassato a mm 55 o a mm 110.

**Frontali per postazioni lineari** Pannelli a sei fasce orizzontali di altezze diverse, in truciolare nobilitato spessore mm 28, laccati. Anello metallico d'irrigidimento sopra il fianco scrivania verniciato colore alluminio. Zoccolo paracolpi a terra in laminato alluminio semilucido h. mm 60. I frontali delle postazioni scrivania sono costituiti da quattro fasce orizzontali, con piedini per la regolazione millimetrica al pavimento.

**Frontali per postazioni curve** Pannelli curvi in multistrati, spessore mm 28, composti da fasce differenziate per altezza e colorazione, finitura laccata. Zoccolo paracolpi a terra in laminato alluminio semilucido h. mm 60. Sei fasce per le reception, quattro fasce le scrivanie, con piedini per la regolazione millimetrica al pavimento.

**Piano alzatina** Vetro molato filo lucido spessore mm 5+5 con film opalino, profondità mm 246, fissato alle staffe in metallo verniciate colore alluminio.

**Porta va e vieni** Struttura come frontali lineari, le sei fasce orizzontali sono tenute insieme da una barra filettata passante. In un lato agiscono due cerniere a doppia azione contro un montante di larghezza mm 60 colore alluminio da fissare a muro. Dall'altro lato sulla parte superiore è presente una maniglia di colore alluminio.

**Accessori** **Elemento porta-computer** su ruote in lamiera forata, verniciato a polveri colore alluminio. **Elettificazione** in materiale plastico. **Scatola elettrica** in alluminio con due prese Schuko e due prese RJ45.

**Struttura elevabile Piani di lavoro e gambe** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28. Finiture disponibili come sopra.

**Frontali per postazioni lineari** Pannelli a sei fasce orizzontali di altezze diverse, in truciolare nobilitato spessore mm 28, laccati. Anello metallico d'irrigidimento sopra il fianco scrivania verniciato colore alluminio. Zoccolo paracolpi a terra in laminato alluminio semilucido h. mm 60.

**Frontali per postazioni curve** Pannelli curvi in multistrati, spessore mm 28, composti da sei fasce differenziate per altezza e colorazione, finitura laccata. Zoccolo paracolpi a terra in laminato alluminio semilucido h. mm 60

**Elemento elevabile:** gamba in profilo d'alluminio, elevabile elettronicamente, dotata di centralina di controllo e pulsantiera di comando; struttura in metallo tubolare; basamento in metallo, con gomma antiscivolo.

**Accessorio** **cassetto estraibile:** cassetto ruotabile a 360°, in materiale plastico.

**Contenitori di servizio su ruote** Struttura pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, finitura nobilitato o laccato. Frontali in mdf spessore mm 19 finitura laccata. **Storage** contenitore con un ripiano in truciolare nobilitato spessore mm 18. **Refriger** contenitore con frigorifero inserito, capacità 38 litri, tensione di alimentazione 220/230 V. **Storage-Waste** contenitore a due cassette estraibili su guide metalliche. Il cassetto superiore è munito di vasca portaposte in materiale plastico; quello inferiore, con spalle e fondo in acciaio inossidabile, contiene due secchi in plastica da 8 litri, uno dei quali con tappo, ed un secchio in plastica da 18 litri per la raccolta differenziata dei rifiuti.

## TECHNICAL DATA

**Worktops and legs** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 28 mm thick.

Finish as follows:

- melamine, scratchproof, antistatic;
  - polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching;
- Tops with 2.5 mm thick ABS edges; 0.6 mm thick ABS bordered sides, with feet for millimetre regulation to floor.

**Worktop for linear or curved workstation with monitor** The same general features as above, but with a hole shaped specifically to house a monitor (up to 19") on a recessed top 22 mm thick white N melamine, which can be adjusted to two different heights using two metal brackets. Top recessed to 55 mm or 110 mm.

**Fronts for linear workstations** Panels consisting of six horizontal bands, with various heights, made of 28 mm-thick melamine particle board panel, lacquered. Metal strengthening ring over side of desk, aluminium painted. Buffer floor base in laminated semi-gloss aluminium, height 60 mm. Desk workstations are with four horizontal bands, with feet for millimetre regulation to floor.

**Fronts for curved workstations** Curved panels in 28 mm thick plywood, made up of bands of various heights and colour, lacquer finish. Buffer floor base in laminated semi-gloss aluminium, height 60 mm. Six bands for reception counters, four bands for desks, with feet for millimetre regulation to floor.

**Reception** top 5+5mm glass with polished edge, with opaline film, 246 mm deep, upon metal supports, aluminium painted.

**Double action door** Structure as the linear fronts, divided into six horizontal bands and held together by a threaded bar. Two double-action hinges support the door on a 60 mm aluminium coloured upright to fix to the wall. The other side has an aluminium coloured handle in the top section of the door.

**Accessories** **CPU holder** on castors in punched plate, aluminium powder painted. **Cable management** in plastic. **Electrical box** in aluminium with two Schuko + two RJ45 sockets.

**Raisable structure Working top and legs** Melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 28 mm thick. Available in the following finishes as above.

**Fronts for linear workstations** Panels consisting of six horizontal bands, with various heights, made of 28 mm-thick melamine particle board panel, lacquered. Metal strengthening ring over side of desk, aluminium painted. Buffer floor base in laminated semi-gloss aluminium, height 60 mm.

**Fronts for curved workstations** Curved panels in 28 mm thick plywood, made up of six bands of various heights and colour, lacquer finish. Buffer floor base in laminated semi-gloss aluminium, height 60 mm.

**Raisable element:** Leg in aluminium profile, raisable electronically, equipped with control and command panel unit; structure in tubular metal; metal base with non-slip rubber.

**Accessory:** **Extractable drawer** turnable drawer 360°, made of plastic material.

---

**Service storage units on castors** Particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, melamine or lacquered finishing. MDF fronts, 19 mm-thick, lacquered. **Storage** storage unit with melamine particle board 18 mm-thick shelf. **Refriger** storage unit with refrigerator inside, 38 litre capacity, 220/230 V. **Storage-Waste** storage unit with two drawers that pull out on metal guides. The top drawer has a plastic cutlery tray; the bottom drawer with stainless steel strengtheners and bottom holds two 8 litre buckets, one of which has a top, and another 18 litre plastic bucket for separate waste disposal.

## FICHE TECHNIQUE

**Plateaux de travail et piétements** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm. Finitions disponibles:

- mélaminé antirayure, antistatique;
  - laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures;
- Plateaux avec bords en ABS, épaisseur 2,5 mm; côtés bordés en ABS, épaisseur 0,6 mm; avec pieds pour le réglage millimétrique au sol.

**Plateaux de travail pour poste linéaire ou curviligne avec écran vidéo** Caractéristiques générales comme précédemment, mais il présente également un trou profilé de manière à permettre d'y insérer un écran vidéo (jusqu'à 19 pouces) sur un plateau surbaissé épaisseur 22 mm mélaminé blanc N, réglable sur deux hauteurs différentes. Plateau surbaissé 55 mm ou 110 mm.

**Façades pour postes linéaires** Panneaux laqués comprenant six bandes horizontales de hauteurs différentes, en panneaux en aggloméré mélaminé de 28 mm d'épaisseur. Anneau métallique de raidissage sur le côté du bureau laqué couleur aluminium. Base pare-chocs au sol en laminé d'aluminium demi-brillant (h. 60 mm). Façades pour bureaux composés par quatre bandes horizontales, avec pieds pour le réglage millimétrique au sol.

**Façades pour postes curvilignes** Panneaux courbés en bois stratifié, épaisseur 28 mm, se composant de bandes différenciées selon la hauteur et la couleur, finition laquée. Base pare-chocs au sol en laminé d'aluminium demi-brillant (h. 60 mm). Six bandes pour banques d'accueil, quatre pour bureaux, avec pieds pour le réglage millimétrique au sol.

**Plateau d'accueil** Verre poli à fil lucide, épaisseur 5+5 mm avec film opalin, profondeur 246 mm, joint sur étriers métalliques laqués couleur aluminium.

**Porte pivotante à double action** Structure identique à celle des façades linéaires, divisée en six bandes horizontales solidarisées par une barre filetée passante. Deux charnières à double action agissent d'un côté contre un montant de 60 mm de largeur, couleur aluminium, à fixer au mur. De l'autre côté, en haut, il y a une poignée de couleur aluminium.

**Accessoires** **Support pour ordinateur** sur roulettes en tôle percée, laqué époxy couleur aluminium. **Electrification** in matière plastique. **Coffret de branchement** en aluminium avec deux prises Schuko + deux prises RJ45.

**Structure relevable** **Plateaux de travail et piétements** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm. Finitions disponibles comme plus haut.

**Façades pour postes linéaires** Panneaux laqués comprenant six bandes horizontales de hauteurs et couleur différentes, en panneaux en aggloméré mélaminé de 28 mm d'épaisseur. Anneau métallique de raidissage sur le côté du bureau laqué couleur aluminium. Base pare-chocs au sol en laminé d'aluminium demi-brillant h. 60 mm.

**Façades pour postes curvilignes** Panneaux courbés en bois stratifié, épaisseur 28 mm, comprenant six bandes horizontales de hauteurs et couleur différente, finition laquée. Base pare-chocs au sol en laminé d'aluminium demi-brillant h. 60 mm.

**Élément de levage:** piétement en profilé d'aluminium, élévation par voie électronique, équipé d'une unité de commande et panneau de commande; structure tubulaire métallique; base en métal avec caoutchouc antiglis.

**Accessoire:**  **tiroir extractible** : tiroir rotatif de 360 °, en matière plastique.

## SCHEDA TECNICA

**Cassettiera legno** A tre cassetti o un cassetto ed un classificatore, serratura di serie a chiusura centralizzata, chiave pieghevole, ruote piroettanti nere. Primo cassetto con vaschetta porta cancelleria. Cassettiera art. NL058N-NL058CN con cassetti in truciolare rivestito PVC nero, fondo cassetto in faesite laccato nero un lato; cassettiera art. NL058N-NL058CN con cassetti in metallo verniciato nero a polveri. Struttura reggicartelle per classificatore. Guide a rotelle o sfere per cassetti, guide telescopiche ad estrazione totale per classificatori. Classificatore con quinto ruotino che ne facilita l'apertura e funge da antiribaltamento. Fianchi, fondo e schiena in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm 0,6; coperchio e frontali dei cassetti spessore mm. 18 con bordi ABS mm 2,5. Struttura nobilitato bianco N o nero, oppure laccata. Frontali disponibili con le seguenti finiture:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio.

Per la sola finitura alluminio, laccatura acrilica.

**Cassettiera metallica** A tre cassetti o un cassetto ed un classificatore, in lamiera, serratura di serie a chiusura centralizzata, chiave pieghevole, ruote piroettanti nere. Primo cassetto con vaschetta porta cancelleria. Scocca cassetti in metallo verniciato nero a polveri. Guide a rotelle per cassetti, guide telescopiche ad estrazione totale per classificatori. Cassettiera a tre cassetti con sistema antiribaltamento, classificatore con quinto ruotino. Verniciatura a polveri epossidiche.

## TECHNICAL DATA

**Wood drawer unit** Made up of three drawers or by one drawer and one filing drawer, equipped with central closing standard lock, folding key, black swivel castors. First drawer with stationery tray. drawer units art. NL058N-NL058CN with drawers in melamine particle board covered in black PVC, drawer bottom in black lacquered fiberboard one side; drawer units art. NM058N-NM058CN with black powder painted metal drawers. File holding frame for filing drawer. Ball or roller guides for drawers, fully extendible telescopic guides for filing drawers. The fifth castor on the filing drawer makes drawer opening easy and creates stability against overturning. Sides, bottom and back made of 18 mm thick, particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 0.6 mm thick ABS edges; drawer cover and fronts, 18 mm thick, with 2.5 mm thick ABS edges. Structure with white N or black melamine finish, or lacquer finish. Fronts available in the following finishes:

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching.

Only for aluminium finish, acrylic lacquering.

**Metal drawer unit** Made up of three drawers or by one drawer and one filing drawer, in metal sheet, central closing standard lock, folding key, black swivel castors. First drawer with stationery tray. Drawer body in black powder painted metal. Top and front with safety corners. Roller guides for drawers, fully extendible telescopic guides for filing drawers. Three-drawer unit with over-turn proof structure, filing drawer with fifth castor. Epoxy powder painting.

## FICHE TECHNIQUE

**Caisson en bois** Il se compose de trois tiroirs ou d'un tiroir et d'un tiroir pour dossiers suspendus, avec une serrure standard à fermeture centralisée et une clé pliante, roulettes pivotantes noires. Premier tiroir avec plumier. Éléments de rangement, art. NL058N-NL058CN avec tiroirs en bois aggloméré revêtu en PVC noir, fond du tiroir en panneau de fibres, un côté laqué noir; éléments de rangement, art. NL058N-NL058CN avec tiroirs en métal laqué époxy noirs. Structure portedossiers pour tiroir pour dossiers suspendus. Glissières à rouleaux ou à billes pour tiroirs, glissières télescopiques à extraction total pour les tiroirs pour dossiers suspendus. Tiroir pour dossiers suspendus avec cinquième roulette antibasculante, qui facilite également l'ouverture du tiroir. Côtés, fond et dos en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm; couvercle et façades des tiroirs épaisseur 18 mm avec bords en ABS, épaisseur 2,5 mm. Structure en mélaminé blanc N ou noir, ou laqué. Façades disponibles selon les finitions suivantes:

- mélaminé antirayure, antistatique;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures.

Seulement pour la finition en aluminium, laquage acrylique.

**Caisson en métal** Il se compose de trois tiroirs ou d'un tiroir et d'un tiroir pour dossiers suspendus, en tôle, avec une serrure standard à fermeture centralisée et une clé pliante, roulettes pivotantes noires. Premier tiroir avec plumier. La structure des tiroirs est en métal noir laqué époxy. Glissières à rouleaux pour tiroirs, glissières télescopiques à extraction total pour les tiroirs pour dossiers suspendus. Élément de rangement à trois tiroirs avec système de sécurité antibasculement; cinquième roulette pour le tiroir pour dossiers suspendus. Laquage époxy.

## BOXES

6x3 Contenitori a battente, giorno, cassetti / Hinged doors storage units, open fronted, drawers / Meubles de rangement à battants, ouvert, tiroirs

### SCHEDA TECNICA

**Struttura** Fianchi, coperchio e fondo in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm 0,6; schiena spessore mm 8, bifacciale (un lato grigio chiaro, un lato nero).

I contenitori base sono dotati di quattro o cinque piedini registrabili mm 40 H, in materiale plastico con anima metallica filettata. Il mobile è completo di ripiani in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28 bianco N o nero, posizionabili a tutta altezza con passo mm 32. Il contenitore cieco/vetro è dotato inoltre di un ripiano in truciolare bianco N o nero spessore mm 28, bordato ABS mm 0,6, che funge da battuta per le ante. I ripiani sono fissati al fianco del mobile con perni metallici e bussole ottonate.

Gli elementi cassetiera/classificatore larghi 45 sono dotati di cassetti in truciolare rivestito PVC nero, fondo cassetto in faesite laccato nero un lato, guide a rotelle per cassetti, guide telescopiche ad estrazione totale per classificatori. Una struttura reggicartelle, fissata con viti alla scocca del cassetto, permette l'aggancio di cartelle con interasse mm 39.

Gli elementi classificatore larghi cm 90 sono dotati di portacartelle estraibili in metallo verniciato grigio RAL9006, con due astine reggicartella regolabili e guide telescopiche ad estrazione totale. Struttura nobilitata bianco N o nero, oppure laccata.

**Frontali** Ante cieche e frontali cassetiera/classificatore in pannelli pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm 0,6; coperchio e fondo spessore mm 28, finitura nobilitata bianco N o nero. I contenitori sopralzo sono privi del fondo: il coperchio del contenitore sottostante funge da fondo.

Frontali disponibili con le seguenti finiture:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio. Per la sola finitura alluminio, laccatura acrilica;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanici trasparenti. Bordi in tranciato di legno.

**Casellario** fianchi, fianco centrale e schiena pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, bordi ABS spessore mm 0,6; coperchio e fondo spessore mm 28, finitura nobilitata bianco N o nero. I contenitori sopralzo sono privi del fondo: il coperchio del contenitore sottostante funge da fondo.

I contenitori base sono dotati di quattro piedini registrabili mm 40 H, in materiale plastico con anima metallica filettata.

Ante in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18, con serratura, disponibili con le seguenti finiture:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio.

**Top di finitura** in pannello spessore mm 18, bordi ABS mm 2,5. **Fianchi di finitura** in pannello spessore mm 28, bordi ABS mm 2,5.

**Accessori Mensole** in pannello spessore mm 28, tre bordi ABS spessore mm 2,5, altro bordo ABS mm 0,6, complete di reggimensola in metallo a scomparsa.

**Top di finitura** in pannello spessore mm 18, bordi ABS mm 2,5. **Fianchi di finitura** in pannello spessore mm 18, bordi ABS mm 2,5. **Schiene di finitura** caratteristiche e spessori come i frontali, dotate di fresata per incastro a ridosso della schiena interna. **Zoccolo** in sostituzione dei piedini, mm 45 H, in truciolare rivestito con PVC bianco N o nero oppure laccato, dotato di quattro angolari con piedino registrabile, su richiesta con fascia frontale mm 45 H in laminato alluminio semilucido.

**Frigobar** I.39 (mm 400x390x535 H) o I.50 (mm 400x390x640 H), per armadio larghezza mm 450. **Portacartelle estraibili** in metallo verniciato, con due astine reggicartella regolabili e guide telescopiche ad estrazione totale. **Serrature** di serie per i classificatori, a chiusura centralizzata, applicabili a richiesta anche sulle cassette. Tutte le ante possono essere dotate, a richiesta, di serratura. **Attrezzatura guardaroba** in sostituzione dei ripiani esistenti, costituita da uno o due appendiabiti estraibili e da un ripiano in truciolare nobilitato bianco N o nero spessore mm 28, bordato ABS mm 0,6.

### TECHNICAL DATA

**Structure** Sides, cover and bottom made of particle board panels EPA TSCA CARB 2 with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges; 8 mm thick back, bifaced (one side white N, one side black). The base storage units are fitted with four or five adjustable feet 40 mm high, in plastic with threaded metal centre. The piece of furniture is complete with shelves made of particle board panels EPA TSCA CARB 2 with low formaldehyde emission, class 2 fire proofing, 28 mm thick, white N or black, positionable to all heights with 32 mm spacing and arranged for the attachment of hanging files. The solid/glass storage unit is also equipped with a melamine particle board shelf in white N or black, 28 mm thick, 0.6 mm thick ABS edges, which acts as a ledge for the door. The shelves are fixed to the side of the piece of furniture with metal studs and brass plated bush. The drawer unit/ filing drawer units width cm. 45 are fitted with melamine particle board drawers in black PVC, the drawer bottom in black lacquered fiberboard one side, roller guides for the drawers, fully extendible telescopic guides for filing drawers. A file holding frame fixed to the body of the drawer allows for the attaching of 39 mm wide files. The filing drawer units width cm. 90 are fitted with extractable file holders in grey RAL9006 painted metal, with two adjustable file holding rods and fully extendible telescopic guides. Structure in white N or black, or lacquered.

**Fronts** Solid doors and fronts of drawer unit/filing drawers made of particle board panels EPA TSCA CARB 2 with low formaldehyde emission, class 2 fire proofing 18 mm thick panels, 0.6 mm thick ABS edges, horizontal plastic handles in aluminium or black colour. Doors in tempered glass, smoke grey, 5 mm thick, ground polished edged, round black handle to attach to glass opening. Door complete with adjustable hinges and plates.

Fronts available in the following finishes:

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching. Only for aluminium finish, acrylic lacquering;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection. Edges in sliced veneer.

**Lockers** sides, central side and back in particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, 0.6 mm thick ABS edges; cover and bottom 28 mm thick. The upper element is without bottom that is comprised by the cover of the piece below. The base storage units are fitted with four adjustable feet 40 mm high, in plastic with threaded metal centre. Doors made of particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick, with lock, available in the following finishes:

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching.

**Finishing top** in 18 mm thick panel, 2.5 mm thick ABS edges. **Finishing sides** in 28 mm thick panel, 2.5 mm thick ABS edges.

**Accessories Brackets** made of 28 mm thick panels, three 2.5 mm thick ABS edges, other ABS edge 0.6 mm thick, complete with metal hidden shelf holder. **Finishing top** in 18 mm thick panel, 2.5 mm thick ABS edges. **Finishing sides** in 18 mm thick panel, 2.5 mm thick ABS edges. **Finishing backs**, same features and thickness as fronts, equipped with milled surface to insert pieces at the rear of the internal back. **Base support** in replacement of feet, 45 mm high, in melamine particle board covered in white N or black PVC, or lacquered, supplied with four corners with adjustable feet, on demand feet with 45 mm. H laminated semi-gloss aluminium front section. **Mini-bar**, 39 I (400x390x535 mm high) or 50 I (400x390x640 mm high), for 450 mm wide storage unit. **Extractable file holders** in painted metal, with two adjustable file holding rods and fully extendible telescopic guides. Locks filing drawers with standard centralised locking system, also available on request for drawer units. All the doors can be fitted with a locking system on request. **Wardrobe equipment** in replacement of existing shelves, made up of one or two removable clothes racks and by a melamine particle board shelf in white N or black, 28 mm thick, 0.6 mm thick ABS edges.

---

## FICHE TECHNIQUE

**Structure** Côtés, couvercle et fond en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm; épaisseur du dos 8 mm, façade double (un côté blanc N, un côté noir). Les éléments de rangement de base sont équipés de quatre ou cinq pieds réglables de 40 mm (hauteur) en plastique, dont l'âme en métal est filetée. Le meuble est pourvu d'étagères panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm, blanc N ou noir positionnés librement en hauteur, pas 32 mm. L'élément de rangement plein/verre est de plus équipé d'une étagère en aggloméré mélaminé blanc N ou noir, épaisseur 28 mm, chants en ABS de 0,6 mm pour la feuillure des portes. Les étagères sont fixées au côté du meuble par des goujons en métal et des douilles en laiton. Les éléments de rangement/tiroirs larg. cm. 45 pour dossiers suspendus sont pourvus de tiroirs en aggloméré revêtu en PVC noir; fond du tiroir en panneau de fibres laqué noir sur un côté, glissières à rouleaux pour les tiroirs, glissières télescopiques à extraction total pour les tiroirs pour dossiers suspendus. Une structure porte-dossiers fixée à la structure du tiroir par des vis permet d'accrocher des dossiers (entraxe 39 mm). Les éléments du tiroir larg. cm.90 pour dossiers suspendus sont équipés de porte-dossiers à extraire en métal peint (gris RAL9006), avec deux tiges porte-dossiers réglables et des glissières télescopiques à extraction totale. Structure en mélaminé blanc N ou noir, ou laquée.

**Façades** Portes pleines et façades pour l'élément de rangement/tiroir pour dossiers suspendus en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, chants en ABS de 0,6 mm, poignées horizontales en plastique couleur aluminium ou noir. Portes en verre fumé et trempé, épaisseur 5 mm, meulage à fil poli, poignée noire, circulaire, encastrable dans un trou du verre. Les portes sont équipées de charnières et de plaquettes réglables. Les façades sont disponibles selon les finitions suivantes:

- mélaminé antirayure, antistatique;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures. Seulement pour la finition en aluminium, laquage acrylique;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents. Chants en feuilles de placage tranchées.

**Casiers** côtés, côté central et dos en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 0,6 mm; couvercle et fond épaisseur 28 mm blanc N ou noir. Les éléments supérieur ne sont pas équipés de fond. Les éléments de base sont équipés de quatre pieds réglables de 40 mm (hauteur) en plastique, dont l'âme en métal est filetée. Portes en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, avec serrure, disponibles selon les finitions suivantes:

- mélaminé antirayure, antistatique;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures. Seulement pour la finition en aluminium, laquage acrylique.

**Plateau à finir** en panneau, épaisseur 18 mm, bords en ABS épaisseur 2,5 mm. **Côtés à finir** en panneau, épaisseur 28 mm, bords en ABS épaisseur 2,5 mm, arrondissement 3 mm.

**Accessoires** **Consoles** en panneaux épaisseur 28 mm, trois bords en ABS épaisseur 2,5 mm, l'autre chant est en ABS épaisseur 0,6 mm, pourvues de porte-étagères en métal rentrantes. **Plateau à finir** en panneau, épaisseur 18 mm, bords en ABS épaisseur 2,5 mm. **Côtés à finir** en panneau, épaisseur 18 mm, bords en ABS épaisseur 2,5 mm, arrondissement 3 mm. **Dos à finir** ayant les mêmes caractéristiques et épaisseur des façades, pourvus de rainure pour l'encastrement près du dos interne. **Plinthe** remplaçant les pieds, 45 mm (hauteur), en aggloméré revêtu en PVC blanc ou noir, ou laquée, équipée de quatre cornières, avec pied réglable, à demande avec bandeau frontal de 45 mm. de haute en laminé d'aluminium semipoli. **Minibar** 39 I (400x390x535 mm hauteur) ou 50 I (400x390x640 mm hauteur), pour armoire, largeur 450 mm. **Porte-dossiers à extraire** en métal peint, avec deux tiges porte-dossiers réglables et glissières télescopiques à extraction total. **Serrures** tiroirs pour dossiers suspendus avec serrure standard et fermeture centralisée pouvant être appliquée, sur demande, sur les éléments de rangement aussi. Sur demande, toutes les portes peuvent être équipées de serrure. **Equipement garde-robe** remplaçant les étagères existantes, comprenant un ou deux portemanteaux extractibles et une étagère en aggloméré mélaminé blanc N ou noir, épaisseur 28 mm, chants en ABS de 0,6 mm.

## SCHEDA TECNICA

**Struttura** Fianchi esterni e coperchio in pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28, bordi ABS spessore mm 2,5; versione impiallacciata con bordi in tranciato di legno; fondo e fianco interno come sopra, rispettivamente spessore mm 28 e mm 18, bordi ABS spessore mm 0,6; schiene spessore mm 8, bifacciali (un lato bianco N, un lato nero).

Regolazione dei contenitori tramite quattro scarpette (materiale plastico con piedino registrabile) sui fianchi esterni e due piedini livellatori posti sul fondo in corrispondenza del fianco interno. Il mobile è completo di ripiani metallici verniciati a polveri colore grigio, posizionabili a tutta altezza con passo mm 32 e predisposti per l'aggancio di cartelle sospese; fissaggio al fianco del mobile con perni metallici e bussole ottonate.

Gli elementi classificatore sono dotati di portacartelle estraibili in metallo verniciato grigio RAL9006, con due astine reggicartella regolabili e guide telescopiche ad estrazione totale. Gli elementi con vano a giorno superiore hanno un ripiano in truciolare nobilitato nero o bianco N spessore mm 28, bordato ABS mm 0,6, che funge da battuta e da coperchio per il cassetto superiore.

Struttura esterna nobilitata nero o bianco N, oppure laccata e impiallacciata. Fondo e fianco interno nobilitato nero o bianco N.

**Frontali** Ante cieche in pannelli spessore mm 18, bordi ABS mm 0,6, complete di profili maniglia verticali in alluminio estruso anodizzato naturale o verniciato opaco nero o bianco. Le ante scorrono tramite due staffe in acciaio con cusci netto a sfere su un binario in alluminio anodizzato naturale o verniciato opaco nero o bianco, fissato al coperchio del mobile e dotato di freno di chiusura. La parte inferiore dell'anta è guidata da staffe in acciaio su binario in alluminio anodizzato nero, posto sotto al fondo del mobile. Le ante sono autoregolanti e dotate di profili parapolvere. Il sistema di aggancio elimina completamente i possibili inconvenienti dello scorrimento. Ante in vetro trasparente, acidato trasparente, oppure acidato e retro verniciato nero o bianco temperato anti-touch, spess mm 4 intelaiato dalle maniglie verticali e da profili superiori ed inferiori in alluminio anodizzato naturale o verniciato opaco nero o bianco. Frontali classificatore, avvitati al telaio estraibile, in pannelli spessore mm 18, bordi ABS mm 0,6, con profilo maniglia orizzontale. Frontali ciechi disponibili con le seguenti finiture:

- nobilitato antiraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio. Per la sola finitura alluminio, laccatura acrilica;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanici trasparenti.

**Accessori** Schiene di finitura caratteristiche e spessori come i frontali, dotate di fresata per incastro a ridosso della schiena interna. **Frigobar** realizzato con un contenitore a giorno nero o bianco N nobilitato (frigobar 1.50 mm 400x390x640 H), inserito all'interno dell'armadio a scorrere. **Portacartelle estraibili** in metallo verniciato grigio RAL9006, con due astine reggicartella regolabili e guide telescopiche ad estrazione totale. **Serrature** di serie sui classificatori; i contenitori possono essere dotati, a richiesta, di serratura a premere che blocca lo scorrimento delle ante.

## TECHNICAL DATA

**Structure** External sides and cover made of particle board panels EPA TSCA CARB 2 with low formaldehyde emission, class 2 fire proofing, 28 mm thick, 2.5 mm thick ABS edges; veneered version with 2.5 mm thick siliced veneer edges; bottom and internal side as above, 28 mm thick the former and 18 mm thick the latter, 0.6 mm thick ABS edges; 8 mm thick backs, bifaced (one side white N, one side black).

Adjustment of storage units by means of four bases (plastic with adjustable feet) on the external sides and two levelling feet on bottom in correspondence with internal side. The piece of furniture is complete with grey powder painted metal shelves, positionable to all heights with 32 mm spacing and prearranged for the attachment of hanging files; the shelves are fixed to the side of the piece of furniture with metal studs and brass plated bush.

The filing drawer units are fitted with extractable file holders in grey RAL9006 painted metal, with two adjustable file holding rods and fully extendible telescopic guides. The filing drawer units with upper opening have a black or white N melamine particle board shelf, 28 mm thick, 0.6 mm thick ABS edges, which acts as a ledge and top for the upper drawer.

External structure in black or white N melamine finish, or lacquer and veneered finish. Bottom and internal side in black or white N melamine finish.

**Fronts** Solid doors with 18 mm thick panels, 0.6 mm thick ABS edges, complete with vertical handle profiles in natural anodized extruded aluminium or matt black or white painted. The doors run by means of two steel brackets with ball bearing on a natural anodized aluminium or matt black or white painted rail, fixed to the cover of the piece of furniture and fitted with a close brake. The lower part of the door is guided by steel brackets on the rail in black anodized aluminium, fitted on the underside of the piece of furniture. The self-adjusting doors are fitted with dust guards. The hooking system completely eliminates possible problems with running.

Glass doors, transparent, transparent etched, glass frosted and back painted colour black or white tempered anti-touch, 4 mm thick framed by vertical handles and by upper and lower bars in natural anodized aluminium or matt black or white painted. Filing drawer fronts, screwed to the extractable frame, made of 18 mm thick panels, 0.6 mm thick ABS edges, with horizontal handle profile. Solid fronts available in following finishes:

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching. Only for aluminium finish, acrylic lacquering;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

**Accessories** **Finishing backs**, same features and thickness as fronts, equipped with milled surface to insert at the rear of the internal back. **Mini-bar** made up of an open unit black or white N melamine (refrigerator 50 l. 400x390x640 mm high), located inside the sliding storage unit. **Extractable file holder** in grey RAL9006 painted metal, with two adjustable file holding rods and fully extendible telescopic guides. **Locks** filing drawers with standard locking system; the storage units can be fitted, on request, with a push button lock that blocks the door running.

## FICHE TECHNIQUE

**Structure** Côtés externes et couvercle en panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm, bords en ABS épaisseur 2,5 mm; version plaquée avec bords plaqués bois, épaisseur 2,5 mm, arrondissement 3 mm; fond et côté interne ayant les caractéristiques ci-dessus indiquées, épaisseur 28 mm et 18 mm respectivement, bords en ABS épaisseur 0,6 mm; épaisseur des dos 8 mm, façade double (un côté noir, un côté blanc N).

Réglage des éléments de rangement par quatre bases (en plastique avec pied réglable) sur les côtés externes et deux pieds de mise à niveau situés au fond, à la hauteur du côté interne. Le meuble est équipé d'étagères métalliques grises laquées époxy qui peuvent être positionnées librement en hauteur, pas 32 mm, préparées pour l'accrochage des dossiers suspendus; les étagères sont fixées au côté du meuble par des goudons en métal et des douilles en laiton.

Les éléments du tiroir pour dossiers suspendus sont équipés de porte-dossiers à extraire en métal peint gris RAL9006, avec deux tiges porte-dossiers réglables et des glissières télescopiques à extraction total. Les éléments avec ouvert supérieur ont une étagère en aggloméré mélaminé noir ou blanc N, épaisseur 28 mm, chants en ABS de 0,6 mm, qui est utilisée en tant que feillure et de couvercle pour le tiroir supérieur.

Structure externe en mélaminé noir ou blanc N, laquée ou plaquée. Fond et côté interne en mélaminé noir ou blanc N.

**Façades** Portes pleines en panneaux, épaisseur 18 mm, chants en ABS de 0,6 mm, pourvues de profils poignée verticale en aluminium extrudé et anodisé naturel ou peint opaque noir ou blanc. Les portes glissent à l'aide de deux étriers en acier avec coussinet à billes sur une voie en aluminium anodisé naturel ou peint opaque noir ou blanc, qui est fixée au couvercle du meuble et qui est équipée de frein de fermeture. La partie inférieure de la porte est guidée par des étriers en acier glissant sur une voie en aluminium anodisé noir qui est située au-dessous du meuble. Les portes sont autoréglables et sont pourvues de profils parepoussière. Le système d'accrochage élimine complètement tout inconvénient possible de glissement. Portes en verre transparent, transparent gravée, gravé et laqué à chaud noir ou blanc, trempé anti-touch, épaisseur 4 mm fixé sur le châssis par des poignées verticales et des profils supérieurs et inférieurs en aluminium anodisé naturel ou

peint opaque noir ou blanc. Façades du tiroir pour dossiers suspendus, serrées au châssis à extraire, en panneaux épaisseur 18 mm, chants en ABS de 0,6 mm, avec profil poignée horizontale.

Façades pleines disponibles selon les finitions suivantes:

- mélaminé antirayure, antistatique;

- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures. Seulement pour la finition en aluminium, laquage acrylique;

- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

**Accessoires** **Dos à finir** ayant les mêmes caractéristiques et épaisseur des façades, pourvus de rainure pour l'encastrement près du dos interne. **Minibar** réalisé avec un élément ouvert mélaminé noir ou blanc N (réfrigérateur 50 l, 400x390x640 mm. hauteur), inséré dans l'élément de rangement à portes coulissantes. **Porte-dossiers à extraire** en en métal peint gris RAL9006, avec deux tiges porte-dossiers réglables et des glissières télescopiques à extraction total. **Serrures** tiroirs pour dossiers suspendus avec serrure standard; sur demande, les récipients peuvent être équipés de serrure à pousser bloquant le glissement des portes.

## ELASTOBOXES - SEIXME

Libreria componibile a tutta altezza / Floor to ceiling modular bookcase / Bibliothèque modulaire pleine hauteur

### SCHEDA TECNICA

Librerie componibili a tutta altezza con modulo larghezza mm 500 e mm 800.

**LIBRERIE A MURO** con spalle mm 380 profondità e schiene strutturali e **LIBRERIE CENTRO STANZA** con spalle mm 360 profondità, a giorno o con schiene.

**Struttura** Pannelli di truciolare corrispondenti a EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2: **spalle, fondi e ripiani** spessore mm 28, bordi ABS spessore mm 0,6; **schiene** spessore mm 18, bordi ABS (mm 0,6 per librerie a muro, mm 2 per centro stanza); **tamponamenti laterali e superiori** spessore mm 18, bordi ABS spessore mm 0,6. Spalle con piedini a terra per la regolazione millimetrica e piedino superiore per contropinta; fondi provvisti di fascia mm 45 H in laminato alluminio semilucido (solo lato frontale per librerie a muro, su ambo i lati per librerie centro stanza).

Finiture disponibili con laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio, foratura passo mm 32 solo su richiesta.

**Frontali** Libreria con modulo mm 500 attrezzabile con ante a battente altezza mm 380 oppure a tutta altezza (Elastoboxes) e con coppia ante concava/convessa altezza mm 380 (larghezza ante concava mm 371, ante convessa mm 621). Libreria con modulo mm. 800 attrezzabile con ante a ribalta altezza mm 380 e con coppia ante a battente a tutta altezza (Elastoboxes). Ante a battente ed a ribalta in pannelli di truciolare nobilitato classe E1 a bassa emissione di formaldeide, reazione al fuoco classe 2 spessore mm 18, bordi ABS mm 2, finitura laccato; ante concava/convessa in mdf spessore mm 18, solo finitura laccata.

Sistema di apertura "premi ed apri". Per ante con altezza superiore a mm 2400 consigliabile barra di irrigidimento.

**Modulo porta** Porta con altezza complessiva mm 2350, larghezza mm 972, cornice di battuta in legno, spessore mm 60 laccata sagomata e con guarnizione. Pannello porta in tamburato spessore mm 50, maniglia in metallo effetto cromosatinato.

### TECHNICAL DATA

Floor to ceiling modular bookcases, unit 500 and 800 mm width.

**WALL BOOKCASES** with 380 mm depth shoulders and structural backs and **MIDDLE ROOM BOOKCASES** with 380 mm depth shoulders, open unit or with backs.

**Structure** particle board panels, EPA TSCA CARB 2 with low formaldehyde emission, class 2 fire proofing: **shoulders, bases and shelves** 28 mm thick, 0.6 mm ABS edging; **backs** 18 mm thick, ABS edging (0.6 mm for wall bookcases, 2 mm for middle room bookcases); **side and top paneling** 18 mm thick, 0.6 mm ABS edging. Shoulders with feet for millimeter adjustment and top ceiling foot; bases with 45 mm high semi-gloss laminated

aluminium skirt (only front side for wall bookcases, both front and back sides for middle room bookcases).

Available finishes in polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching, drilling with 32 mm spacing only on request.

**Fronts** Bookcase 500 mm unit equipped with hinged doors 380 mm high or floor to ceiling (Elastoboxes) and concave/convex doors 380 mm high (concave door width 371 mm, convex door 621 mm). Bookcase 800 mm unit equipped with 380 mm high tilting door and floor to ceiling pair of hinged doors (Elastoboxes). Hinged and tilting doors in melamine particle board panels, class E1 low formaldehyde emission, class 2 fire proofing, 18 mm thick, 2 mm ABS edging, lacquered finishing; concave/convex doors 18 mm thick MDF, lacquered finishing.

"Push to open" system. Advisable reinforcing bar with doors over 2400 mm high.

**Door unit** Door overall height 2350 mm, width 972 mm, 60 mm wooden jamb in lacquer, shaped and with gasket. 50 mm sandwich door panel, metal handle in chromo satin.

### FICHE TECHNIQUE

Bibliothèque modulaire pleine hauteur module largeur 500 mm et 800 mm.

**BIBLIOTHEQUE AU MUR** avec épaules profondeur 380 mm et dos structural et **BIBLIOTHEQUE AU CENTRE DE LA SALLE** avec épaules profondeur 360 mm, ouvert ou avec dos.

**Structure** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2: **épaules, fonds et étagères** épaisseur 28 mm, bords en ABS épaisseur 0,6 mm; **dos** épaisseur 18 mm, bords en ABS (épaisseur 0,6 mm pour bibliothèque au mur, épaisseur 2 mm, pour bibliothèque au centre de la salle). **Lambris latéral et en haut** épaisseur 18 mm, bords en ABS épaisseur 0,6 mm. Epaules avec pieds au sol de réglage millimétrique et support supérieur de butée; fonds avec bandeau en laminé d'aluminium semi-poli de 45 mm de haut (seulement côté frontal pour bibliothèque au mur, sur les deux côtés pour bibliothèque au centre de la salle).

Finitions en laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures, perçement pas 32 mm seulement à la demande.

**Façades** Bibliothèque module largeur 500 mm équipée avec portes à battants hauteur 380 mm ou pleine hauteur (Elastoboxes) et avec portes concaves et convexes hauteur 380 mm (largeur porte concave 371 mm, porte convexe 621 mm). Bibliothèque au centre de la salle équipée avec portes abattantes hauteur 380 mm et avec paire de portes à battants pleine hauteur (Elastoboxes). Portes à battants et abattantes en panneaux en aggloméré mélaminé de classe E1 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm, bords en ABS épaisseur 2 mm, version laquée; portes concaves et convexes épaisseur 18 mm, en fibres de moyenne densité en version laquée.

Système d'ouverture «pousser pour ouvrir». Conseillé barre de raidissement avec portes hauteur supérieure à 2400 mm.

**Module porte** Porte hauteur totale 2350 mm, largeur 972 mm, jambage mouluré en bois avec bourrelet épaisseur 60 mm. Panneau contreplaqué à âme alvéolaire de la porte épaisseur 50 mm, poignée en métal effet chromé satiné.

## FORME

Contentori sospesi / Hanging units / Éléments de rangement suspendus

### SCHEDA TECNICA

#### Contentori con ante

**Top, fondo, fianchi e schiena** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm.18.

Finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio. Per la sola finitura alluminio, laccatura acrilica;

Versione nobilitato e laccato con bordi perimetrali ABS spessore 0,6 mm.

Il fissaggio a muro avviene tramite elementi di acciaio zincato estruso, sagomati a "s" stirata, agenti ad incastro.

**Ante concave e convesse** Altezza mm 380, spessore mm18 in MDF con sistema di apertura "premi e apri" a battente, **laccate o impiallacciate 8/10**.

**Ante inclinate** Altezza mm 380, spessore mm18 in MDF con sistema di apertura "premi e apri" a battente, **laccate o impiallacciate 8/10**.

#### Contentori a giorno

**Top, fondo, fianco e frontale** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28.

Finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio. Per la sola finitura alluminio, laccatura acrilica;

Versione nobilitato e laccato con bordi perimetrali ABS spessore mm 0,6.

**Schiena posteriore e divisorio centrale** in truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18.

Finitura **solo laccati**.

Il fissaggio a muro avviene tramite elementi di acciaio zincato estruso, sagomati a "s" stirata, agenti ad incastro, con viti e tasselli da mm 8.

### TECHNICAL DATA

#### Doors Units

**Top, bottom, sides and back** Particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 18 mm thick. Available in the following finishes:

- melamine, scratchproof, antistatic;
  - polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching. Only for aluminium finish, acrylic lacquering;
- Melamine and lacquered version with 0.6 mm thick ABS edges.

Wall mounting by galvanised extruded steel S track with clip-on attachment.

**Concave & convex doors** 380 mm high, 18 mm thick MDF with "push to open" opening system, **lacquer or 8/10 wood veneer finish**.

**Slanting doors** 380 mm high, 18 mm thick MDF with "push to open" opening system, **lacquer or 8/10 wood veneer finish**.

#### Open units

**Top, bottom, side and front** Particle board panels EPA TSCA CARB 2 with low formaldehyde emission, class 2 fire proofing, 28 mm thick. Available in the following finishes:

- melamine, scratchproof, antistatic;
  - polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching. Only for aluminium finish, acrylic lacquering;
- Melamine and lacquered version with 0.6 mm thick ABS edges.

**Back and central screen** Particle board panels EPA TSCA CARB 2 with low formaldehyde emission, class 2 fire proofing, 18 mm thick.

Only available in **lacquer** finish, with screws and screws anchor mm 8.

Wall mounting by galvanised extruded steel S track with clip-on attachment, with screws and screws anchor mm 8.

### FICHE TECHNIQUE

#### Éléments de rangement avec portes

**Couvercle, fond, côtés et dos** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm. Finitions disponibles :

- aggloméré mélaminé antirayure, antistatique;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures. Seulement pour la finition en aluminium, laquage acrylique.

Version mélaminé et laquée avec chants en ABS, épaisseur 0,6 mm.

La fixation au mur est assurée par des éléments en acier zingué et extrudé, en forme de "S" allongé, à encastrer.

**Portes concaves et convexes** Hauteur 380 mm, 18 mm d'épaisseur, en fibres de moyenne densité, équipées d'un système d'ouverture "pousser pour ouvrir" à battant, **laquées ou plaquées 8/10<sup>ème</sup>**.

**Portes inclinées** Hauteur 380 mm, 18 mm d'épaisseur, en fibres de moyenne densité, équipées d'un système d'ouverture "pousser pour ouvrir" à battant, **laquées ou plaquées 8/10<sup>ème</sup>**.

#### Éléments ouverts

**Couvercle, fond, côté et facade** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm. Finitions disponibles:

- aggloméré mélaminé antirayure, antistatique;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures. Seulement pour la finition en aluminium, laquage acrylique.

Version mélaminé et laquée avec chants en ABS, épaisseur 0,6 mm.

**Dos postérieur et cloison central** en aggloméré mélaminé classe E1 à basse émission de formaldéhyde, réaction au feu classe 2, 18 mm d'épaisseur. Finition **uniquement en version laquée**.

La fixation au mur est assurée par des éléments en acier zingué et extrudé, en forme de "S" allongé, à encastrer, avec vit et casseaux de 8 mm.

## SCHEMA TECNICA

## LIBRERIE E BIBLIOTECHE

**Piani di lavoro, gambe, fianchi, spalle di chiusura** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28, finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanic trasparenti.

Versione nobilitato e laccato con bordi ABS spessore mm 2. Versione impiallacciata con bordi in tranciato di legno spessore mm 2. Fianchi reception (gambe) bordati ABS spessore mm 0,6, con piedini per la regolazione millimetrica al pavimento.

**Piano di lavoro per postazione lineare o curva con video** Caratteristiche generali come precedente, presenta inoltre un foro sagomato appositamente per consentire l'appoggio di un video (fino a 19") su un piano ribassato spessore mm 18, regolabile a due diverse altezze grazie a due staffe metalliche dotate di due fori con piolini di sostegno. Piano ribassato a mm 55 o a mm 110.

**Frontali** Pannelli di truciolare EPA TSCA CARB2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28, finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio. Per la sola finitura alluminio, laccatura acrilica;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanic trasparenti.

Versione nobilitato e laccato con bordi ABS spessore mm 2. Versione impiallacciata con bordi in tranciato di legno spessore mm 2. Gli elementi curvi sono realizzati in multistrati, spessore mm 28, disponibili solo con finitura laccata oppure impiallacciata. Zoccolo paracolpi a terra in laminato alluminio semilucido h. mm 60.

**Piano alzata** Vetro molato filo lucido spessore mm 5+5 con film opalino, profondità mm 246, fissato a staffe in metallo colore alluminio oppure a spalle o a fianchi.

**Porta va e vieni** Struttura come frontali lineari. In un lato agiscono due cerniere a doppia azione contro un montante di larghezza mm 60 da fissare a muro. Dall'altro lato sulla parte superiore è presente una maniglia di colore alluminio.

**Accessori** **Portapenne e portacd** in acridite opalino spessore mm 4. **Elemento porta-computer** su ruote in lamiera forata, verniciato a polveri colore alluminio.

**Elettificazione** canalina in materiale plastico. **Scatola elettrica** in metallo colore alluminio con due prese Schuko e due prese RJ45.

## TECHNICAL DATA

## COUNTERS, BOOKCASE

**Worktops, legs, sides, end panels** Particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 28 mm thick, with finish as follows:

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

Melamine and lacquered version with 2 mm thick ABS edges. Veneered version with 2 mm thick sliced veneer edges. Counter sides (legs) 0,6 mm thick ABS bordered sides, with feet for millimetre regulation to floor.

**Worktop for linear or curved workstation with monitor** The same general features as above, but with a specifically shaped hole to house a monitor (up to 19") on a recessed top 18 mm thick, which can be adjusted to two different heights using two metal brackets. Top recessed to 55 mm or 110 mm.

**Fronts** Particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 28 mm thick with finish as follows:

- melamine scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching. Only for aluminium finish, acrylic lacquering;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

Melamine and lacquered version with 2 mm thick ABS edges. Veneered version with 2 mm thick sliced veneer edges. The curved parts are in plywood, 28 mm thick, only available in lacquered or veneer finish. Buffer floor base in laminated semi-gloss aluminium, height 60 mm.

**Reception top** 5+5mm glass with polished edge, with opaline film, 246 mm deep, fixed on metal supports, aluminium painted, or on end panels or sides.

**Double action door** Structure as the linear fronts. Two double-action hinges support the door on a 60 mm upright to fix to the wall on one side. The other side has an aluminium-coloured handle in the top section of the door.

**Accessories** **Pen holders and CD racks** made of opaline acrydite 4 mm thick. CPU holder on castors in punched plate, aluminium powder painted. **Cable management** in plastic. **Electrical box** in aluminium color with two Schuko + two RJ45 sockets.

## FICHE TECHNIQUE

## BIBLIOTHEQUES

**Plateaux de travail, piétements, côtés, épaules** Panneaux en aggloméré EPA TSCA BARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm. Finitions disponibles:

- mélaminé antirayure, antistatique;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

Version mélaminé et laqué avec chants en ABS, épaisseur 2 mm. Version plaqué avec chants en feuilles de placage tranchées, épaisseur 2 mm. Banques d'accueil avec côtés (piétements) chants épaisseur 0,6 mm, piétements équipés de vérins de réglage millimétrique au sol.

**Plateau de travail pour poste linéaire ou curviligne avec écran vidéo** Caractéristiques générales comme précédent, mais avec un trou profilé pour permettre d'insérer un écran vidéo(jusqu'à 19 pouces) sur un plateau surbaissé épaisseur 18 mm, réglable sur deux hauteurs différentes. Plateau surbaissé à 55 ou 110 mm.

**Façades** Panneaux en aggloméré EPA TSCA BARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm, finitions disponibles:

- mélaminé antirayure, antistatique;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures. Seulement pour la finition en aluminium, laquage acrylique;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

Version mélaminé et laqué avec chants en ABS épaisseur 2 mm. Version plaqué avec chants en feuilles de placage tranchées, épaisseur 2 mm. Les éléments courbés sont réalisés en bois stratifié, épaisseur 28 mm, disponibles seulement avec finition laquée ou plaquée. Base pare-chocs au sol en laminé d'aluminium demi-brillant (h. 60 mm).

**Plateau d'accueil** Verre poli à fil lucide, épaisseur 5+5 mm avec film opalin, profondeur 246 mm, fixé sur équerres métalliques, laqué couleur aluminium ou épaules ou côtés.

**Porte pivotante à double action** Structure identique à celle des façades linéaires. Deux charnières à double action agissent d'un côté contre un montant de 60 mm de largeur, à fixer au mur. De l'autre côté, en haut, il y a une poignée de couleur aluminium.

**Accessoires** **Plumiers et port-CD** en acrydite opalin de 4 mm d'épaisseur. **Support pour ordinateur** sur roulettes en tôle percée, laqué époxy couleur aluminium.

**Electrification** en matière plastique. **Coffret de branchement** en aluminium avec deux prises Schuko + deux prises RJ45.

Schiene sempre nobilitato / Backs always melamine

## SCHEDA TECNICA

**Ripiani orizzontali e fianchi** Pannelli di truciolare EPA TSCA CARB 2 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28.

Finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio. Per la sola finitura alluminio, laccatura acrilica.

Bordi in ABS spessore mm 2,5. I fianchi presentano nella parte inferiore elementi h. mm 60 in truciolare nobilitato con scritta NEWTOM, laccati alluminio, con piedini per la regolazione millimetrica al pavimento.

**Schiene** Per elementi lineari le schiene hanno caratteristiche costruttive come "frontali per postazioni lineari" BANCONI RECEPTION TWIST; per elementi curvi come "frontali per postazioni curve", con piedini per la regolazione millimetrica al pavimento.

## TECHNICAL DATA

**Horizontal shelves and sides** Made of melamine melamine particle board panels EPA TSCA CARB 2, with low formaldehyde emission, class 2 fire proofing, 28 mm thick. Finish as follows:

- melamine, scratchproof, antistatic;
  - polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching. Only for aluminium finish, acrylic lacquering.
- 2.5 mm-thick ABS edges. The sides have 60 mm pieces at the bottom, made of melamine particle board panel, with the name NEWTOM stamped on, aluminium lacquered, with feet for millimetre regulation to floor.

**Backs** For linear elements backs are with the characteristics of construction like the "fronts for linear workstations" RECEPTION COUNTERS TWIST; for curved elements like the "fronts for curved workstations", with feet for millimetre regulation to floor.

## FICHE TECHNIQUE

**Etagères horizontaux et côtés** Panneaux en aggloméré EPA TSCA CARB 2 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm.

Finitions disponibles:

- mélaminé antirayure, antistatique;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures. Seulement pour la finition en aluminium, laquage acrylique.

Bords en ABS de 2,5 mm d'épaisseur. La partie basse des côtés présente des éléments de 60 mm de hauteur, en panneaux en aggloméré mélaminé, marqués NEWTOM et laqués aluminium. Pieds pour le réglage millimétrique au sol.

**Dos** Pour éléments linéaires ayant les mêmes caractéristiques de construction que les façades des postes linéaires BANQUES D'ACCUEIL TWIST. Quant aux éléments curvilignes, ils ont les mêmes caractéristiques de construction que les façades des postes curvilignes, avec pieds pour la réglage millimétrique au sol.

SCHEDA TECNICA

**Divano lineare e curvo:** Imbottito con struttura interna formata da fusto legno e gomma. Per i tessuti di rivestimento fare riferimento alla tabella sul listino; Provvisto di piedini di regolazione sul fondo; sistema di aggancio a baionetta su composizioni multiple.

Sistema di aggancio a baionetta tra schienale e divano e zoccolo paracolpi a terra in laminato alluminio semilucido h. mm 60.

**Accessori:** USB di Ricarica: Elemento di ricarica con due prese USB applicabile sul fianco del divano. **Cuscino:** Imbottito con tessuto in tinta con l'elemento divano, uno già compreso su ogni composizione. **IP-TABLE:** struttura in metallo, finitura verniciata a polveri bianco; piano in nobilitato Compact top bianco spessore mm 12 oppure in mdf spessore mm 28, finitura laccata.

TECHNICAL DATA

**Linear or curved sofa:** padded, internal structure made with wood and rubber stem. For fabric covering refer to the price-list. Provided with adjustable feet; bayonet coupling system for multiple compositions.

Bayonet coupling system between backrest and sofa. Buffer floor base in laminated semi-gloss aluminum, height 60 mm.

**Accessories:** USB rechargeable: charging element with two USB sockets applicable on the side of the sofa. **Cushion:** padded with same fabric as sofa element, one ready included in each composition. **IP-TABLE:** metal structure, white powder-coated; top 12 mm thick in Compact top white or 28 mm thick MDF lacquered.

FICHE TECHNIQUE

**Sofa linéaire et curviligne:** Rembourré avec structure interne formée par cadre en bois et caoutchouc. Pour les tissus de revêtement se réfèrent au tarif; équipé de pieds réglables en bas; système d'accrochage à baïonnette sur compositions multiples.

Système d'accrochage à baïonnette entre le dos et canapé. Base pare-chocs au sol en laminé d'aluminium demi-brillant h. 60 mm.

**Accessoires :** USB recharge: Élément de recharge avec deux prises USB applicable sur le côté du canapé. **IP-TABLE:** structures en métal, finition laquée époxy blanc; panneau épaisseur mm 12 en mélaminé Compact top blanc ou en MDF épaisseur mm 28, finition laquée.

## SCHEMA TECNICA

**BENGENTILE** Divanetto

**Divano lineare e curvo:** Imbottito con struttura interna formata da fusto legno e gomma. Per i tessuti di rivestimento fare riferimento alla tabella sul listino; Provvisto di piedini di regolazione sul fondo; sistema di aggancio a baionetta su composizioni multiple.

**Schienale in legno per postazioni lineari:** Pannello in truciolare nobilitato spessore mm 28

**Schienali in legno per postazioni curve** Pannelli curvi in multistrati, spessore mm 28.

Finiture disponibili per postazioni lineari e curve:

- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio;
- impiallacciatura 8/10 protetta da fondo e vernice.

Sistema di aggancio a baionetta tra schienale e divano e zoccolo paracolpi a terra in laminato alluminio semilucido h. mm 60.

**Schienale in tessuto** per postazioni lineari e curve: Pannelli imbottiti spessore mm 10 incollati sugli schienali in legno; possibilità di tessuto di rivestimento in tinta con l'elemento divano. Copertina di chiusura sopra lo schienale in MDF laccato colore alluminio.

**Accessori:** **USB di Ricarica:** Elemento di ricarica con due prese USB applicabile sul fianco del divano. **Cuscino:** Imbottito con tessuto in tinta con l'elemento divano, uno già compreso su ogni composizione. **IP-TABLE:** struttura in metallo, finitura verniciata a polveri bianco; piano in nobilitato Compact top bianco spessore mm 12 oppure in MDF spessore mm 28, finitura laccata.

## TECHNICAL DATA

**BENGENTILE** Sofa

**Linear or curved sofa:** padded, internal structure made with wood and rubber stem. For fabric covering refer to the price-list. Provided with adjustable feet; bayonet coupling system for multiple compositions.

**Wooden backrest for linear modules:** Melamine particle board panels 28 mm thick.

**Wooden backrest for curved workstations** Curved panels in 28 mm thick plywood.

Finishing available for linear and curved modules:

- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching.
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

Bayonet coupling system between backrest and sofa. Buffer floor base in laminated semi-gloss aluminum, height 60 mm.

**Fabric backrest** for linear and curved modules: padded panels 10 mm thick glued on wooden backs; possibility of same fabric as sofa element. Closing cover over the backrest in MDF aluminum lacquered.

**Accessories:** **USB rechargeable:** charging element with two USB sockets applicable on the side of the sofa. **Cushion:** padded with same fabric as sofa element, one ready included in each composition. **IP-TABLE:** metal structure, white powder-coated; top 12 mm thick in Compact top white or 28 mm thick MDF lacquered.

## FICHE TECHNIQUE

**BENGENTILE** Sofa

**Sofa linéaire et curviligne :** Rembourré avec structure interne formée par cadre en bois et caoutchouc. Pour les tissus de revêtement se réfèrent au tarif; équipé de pieds réglables en bas; système d'accrochage à baïonnette sur compositions multiples.

**Dos en bois pour modules linéaires :** Panneaux en aggloméré mélaminé de 28 mm d'épaisseur.

**Dos en bois pour modules curvilignes :** Panneaux courbe bois stratifié de 28 mm d'épaisseur.

Finitions disponibles pour modules linéaires et curvilignes:

- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures.
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

Système d'accrochage à baïonnette entre le dos et canapé. Base pare-chocs au sol en laminé d'aluminium demi-brillant h. 60 mm.

**Dos en tissu** pour modules linéaires et curvilignes: Panneaux rembourrés de 10 mm d'épaisseur collés sur le dos en bois; possibilité de tissu même couleur de l'élément canapé. Profile supérieure en MDF laqué aluminium. **Cushion:** padded with same fabric as sofa element, one ready included in each composition. **IP-TABLE:** structures en métal, finition laquée époxy blanc; panneau épaisseur mm 12 en mélaminé Compact top blanc ou en MDF épaisseur mm 28, finition laquée.

**Accessoires :** **USB recharge:** Élément de recharge avec deux prises USB applicable sur le côté du canapé.

## TWIST SOFA

Divanetti / Sofa / Sofa

### SCHEDA TECNICA

#### TWIST Divanetto

**Divano lineare e curvo** Imbottito, con struttura interna formata da fusto legno e gomma. Per i tessuti di rivestimento fare riferimento alla tabella sul listino. Provvisto di piedini di regolazione sul fondo; sistema di aggancio a baionetta su composizioni multiple.

**Schienale in legno per postazioni lineari** pannelli in truciolare nobilitato spessore mm 28, composti da sette fasce orizzontali differenziate per altezza e colorazione. **Schienali in legno per postazioni curve** pannelli curvi in multistrati, spessore mm 28, composti da sette fasce orizzontali differenziate per altezza e colorazione.

Finiture disponibili per postazioni lineari e curve:

- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio.

Sistema di aggancio a baionetta tra schienale e divano. Zoccolo paracolpi a terra in laminato alluminio semilucido h. mm 60.

**Schienale in tessuto** per postazioni lineari e curve: Pannelli imbottiti spessore mm 10 incollati sugli schienali in legno; possibilità di tessuto di rivestimento in tinta con l'elemento divano. Copertina di chiusura sopra lo schienale in mdf laccato colore alluminio.

**Accessori:** USB di Ricarica: elemento di ricarica con due prese USB applicabile sul fianco del divano. **Cuscino:** imbottito con tessuto in tinta con l'elemento divano, uno già compreso su ogni composizione. **IP-TABLE:** struttura in metallo, finitura verniciata a polveri bianco; piano in nobilitato Compact top bianco spessore mm 12 oppure in mdf spessore mm 28, finitura laccata.

### TECHNICAL DATA

#### TWIST Sofa

**Linear or curved sofa** padded, internal structure made with wood and rubber stem. For fabric covering refer to the price-list. Provided with adjustable feet; bayonet coupling system for multiple compositions.

**Wooden backrest for linear modules:** melamine particle board panels 28 mm thick, made up of seven horizontal bands of various heights and color.

**Wooden backrest for curved workstations** curved panels in 28 mm thick plywood, made up of seven horizontal bands of various heights and color.

Finishing available:

- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching.

Bayonet coupling system between backrest and sofa. Buffer floor base in laminated semi-gloss aluminum, height 60 mm.

**Fabric backrest** for linear and curved modules: padded panels 10 mm thick glued on wooden backs; possibility of same fabric as sofa element. Closing cover over the backrest in mdf aluminum lacquered.

**Accessories:** USB rechargeable: charging element with two USB sockets applicable on the side of the sofa. **Cushion:** padded with same fabric as sofa element, one ready included in each composition. **IP-TABLE:** metal structure, white powder-coated; top 12 mm thick in Compact top white or 28 mm thick MDF lacquered.

### FICHE TECHNIQUE

#### TWIST Sofa

**Sofa linéaire et curviligne** : Rembourré avec structure interne formée par cadre en bois et caoutchouc. Pour les tissus de revêtement se réfèrent au tarif; équipé de pieds réglables en bas; système d'accrochage à baïonnette sur compositions multiples.

**Dos en bois pour modules linéaires** : Panneaux en aggloméré mélaminé de 28 mm d'épaisseur, comprenant sept bandes horizontales de hauteurs différentes et coloration.

**Dos en bois pour modules curvilignes** : Panneaux courbe bois stratifié de 28 mm d'épaisseur, comprenant sept bandes horizontales de hauteurs différentes et coloration.

Finitions disponibles pour modules linéaires et curvilignes:

- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures.

Système d'accrochage à baïonnette entre le dos et le canapé. Base pare-chocs au sol en laminé d'aluminium demi-brillant h. 60 mm.

**Dos en tissu** pour modules linéaires et curvilignes: Panneaux rembourré de 10 mm d'épaisseur collé sur le dos en bois; possibilité de tissu même couleur de l'élément canapé. Profile supérieure en MDF laqué aluminium.

**Accessoires** : USB recharge: Élément de recharge avec deux prises USB applicable sur le côté du canapé. **Coussin:** Rembourré en tissu coloré même couleur de l'élément canapé, **Cushion:** padded with same fabric as sofa element, one ready included in each composition. **IP-TABLE:** structures en métal, finition laquée époxy blanc; panneau épaisseur mm 12 en mélaminé Compact top blanc ou en MDF épaisseur mm 28, finition laqué.

## SCHEDA TECNICA

**Strutture metalliche.** Schienale Base in tubolare mm.50x10, curvato negli angoli con raggio esterno mm.45, saldata ai profili verticali in tubolare mm.50x10, finitura verniciata bianco o nero.

Sgabello Base in tubolare mm.50x10, curvato negli angoli con raggio esterno mm.45, saldata ai profili verticali in tubolare mm.50x10, poggiatesta in tubolare mm.25x10, curvato negli angoli con raggio esterno mm.45, saldato ai profili verticali, finitura verniciata bianco o nero.

Tavolino Base in tubolare mm.50x10, curvato negli angoli con raggio esterno mm.45, saldata ai profili verticali in tubolare mm.50x10, perimetro superiore come la base, finitura verniciata bianco o nero.

**Schienale e sedile.** Pannello interno in multistrato spessore mm.30+30, imbottito con poliuretano espanso elastico sagomato indeformabile ignifugo, abbinato a rivestimento Dacron. Rivestimento esterno in tessuto ignifugo (per le varie tipologie fare riferimento alla tabella sul listino).

**Tavolini** piano scrittura nelle seguenti finiture:

- pannello in cdf nobilitato spessore mm.12 colore bianco, bordo fresato sotto per ottenere spessore visibile mm.5.
- pannello in mdf laccato spessore mm.19, bordo fresato sotto per ottenere spessore visibile mm.5.

## TECHNICAL SHEET

**Metal structures.** Backrest Tubular base mm.50x10, curved in the corners with external radius mm.45, welded to tubular vertical profiles mm.50x10, white or black painted finishing.

Stool Tubular base mm.50x10, curved in the corners with external radius mm.45, welded to tubular vertical profiles mm.50x10, tubular footrest mm.25x10, curved in the corners with external radius mm.45, welded to vertical profiles, white or black painted finishing.

Small table Tubular base mm.50x10, curved in the corners with external radius mm.45, welded to tubular vertical profiles mm.50x10, upper perimeter equal to the base, white or black painted finishing.

**Backrest and seat.** Inside panel made of multilayer thickness mm.30+30, padded with polyurethane fireproof flexible Dacron foam, non-deformable shape. Fireproof fabric upholstery (for the different types refer to the pricelist).

**Small table** top with the following finishing:

- white melamine cdf panel thickness mm.12, milled edge below to obtain visible thickness mm.5.
- lacquered mdf panel thickness mm.19, milled edge below to obtain visible thickness mm.5.

## FICHE TECHNIQUE

**Structure métallique.** Dossier Base en tubulaire rectangulaire mm.50x10, courbe sur les angles avec rayons extérieur mm.45, soudée aux profils en tubulaire verticaux mm.50x10, laquée blanc ou noir.

Tabouret Base en tubulaire rectangulaire mm.50x10, courbe sur les angles avec rayons extérieur mm.45, soudée aux profils en tubulaire verticaux mm.50x10, repose-pieds en tubulaire mm.25x10, courbe sur les angles avec rayons extérieur mm.45, soudée aux profils en tubulaire verticaux, laqué blanc ou noir.

Petite table Base en tubulaire rectangulaire mm.50x10, courbe sur les angles avec rayons extérieur mm.45, soudée aux profils en tubulaire verticaux mm.50x10, périmètre supérieur comme la base, laqué blanc ou noir.

**Dossier et assise.** Panneau intérieur en contre-plaqué épaisseur mm.30+30 rembourrée en mousse polyuréthane élastique indéformable ignifuge, associé à un revêtement Dacron. Revêtement extérieur en tissu ignifuge (pour les différentes typologies, se référer au tableau présent dans le tarif).

**Petite table** plateau écritoire avec les finitions suivantes :

- panneau en cdf mélamine épaisseur mm.12 couleur blanc, bord fuselé sur la partie inférieure pour obtenir une épaisseur visible mm.5.
- panneau en mdf laqué épaisseur mm.19, bord fuselé sur la partie inférieure pour obtenir une épaisseur visible mm.5.

**Pouf.** Struttura interna formata da fusto in legno, imbottito con poliuretano espanso elastico sagomato indeformabile ignifugo, abbinato a rivestimento Dacron. Rivestimento esterno in tessuto ignifugo (per le varie tipologie fare riferimento alla tabella sul listino). Piedini perimetrali di regolazione in materiale plastico altezza mm.26. Pouf/Schienale Struttura interna formata da fusto in legno, imbottito con poliuretano espanso elastico sagomato indeformabile, abbinato a rivestimento Dacron. Rivestimento esterno in tessuto ignifugo (per le varie tipologie fare riferimento alla tabella sul listino). Piedini perimetrali di regolazione in materiale plastico altezza mm.26. Dotazione di serie sullo schienale di apposito sistema in metallo di aggancio alla seduta, formato da pinza a coccodrillo e perno di blocco.

**Poltroncina.** Struttura interna formata da fusto in legno, imbottito con poliuretano espanso elastico sagomato indeformabile ignifugo abbinato a rivestimento Dacron. Rivestimento esterno in tessuto ignifugo (per le varie tipologie fare riferimento alla tabella sul listino). Piedini perimetrali di regolazione in materiale plastico altezza mm.26. Schienale composto da pannello interno in multistrato spessore mm.18, imbottito con poliuretano espanso elastico sagomato indeformabile. Rivestimento esterno in tessuto ignifugo (per le varie tipologie fare riferimento alla tabella sul listino).

**Accessori.** Vassoio Pannello curvato in multistrato spessore mm.10, impiallacciato in rovere naturale rigatino, finitura sbiancata.

Tavolino Struttura metallica in tubolare mm.15x15 verniciata bianco o nero, piano scrittura nelle seguenti finiture:

- pannello in cdf nobilitato spessore mm.12 colore bianco, bordo fresato sotto per ottenere spessore visibile mm.5 rastremato.
- pannello in mdf laccato spessore mm.19, bordo fresato sotto per ottenere spessore visibile mm.5 rastremato.

USB di Ricarica: Elemento di ricarica estraibile con due prese USB applicabile sul fianco del divano.

## TECHNICAL DATA

**Pouf.** Inside structure made of wood shell, padded with fireproof flexible polyurethane and Dacron foam, non-deformable shape. External covering in fireproof fabric (for the different types, refer to the price list table). Plastic adjustable feet height mm.26.

Pouf/Backrest Inside structure made of wood shell, padded with flexible polyurethane and Dacron foam, non-deformable shape. External covering in fireproof fabric (for the different types, refer to the price list table). Plastic adjustable feet height mm.26. Standard supply with the backrest of special metal fixing device for hooking to the Pouf, consisting of crocodile clip and locking pin.

**Small armchair.** Inside structure made of wood shell, padded with fireproof flexible polyurethane and Dacron foam, non-deformable shape. External covering in fireproof fabric (for the different types, refer to the price list table). Plastic adjustable feet height mm.26. Backrest consisting of multilayer inside panel thickness mm.18 padded with flexible polyurethane foam, non-deformable shape. External covering in fireproof fabric (for the different types, refer to the price list table).

**Accessories.** Tray Multilayer curved panel thickness mm.10, veneered in natural striped oak, bleached finishing.

Small table tubular metal structure mm.15x15 white or black painted, top with the following finishing:

- white melamine cdf panel thickness mm.12, milled tapered edge to obtain visible thickness mm.5.
- lacquered mdf panel thickness mm.19, milled tapered edge below to obtain visible thickness mm.5.

USB Charger: Removable charging element with two USB sockets to be install on the side of the sofa.

## FICHE TECHNIQUE

**Pouf.** Structure intérieure constituée d'un cadre en bois, rembourré en mousse polyuréthane élastique indéformable ignifuge associé à un revêtement Dacron. Revêtement extérieur en tissu ignifuge (pour les différentes typologies, se référer au tableau présent dans le tarif). Pieds réglables en matière plastique hauteur 26 mm.

Pouf / Dossier Structure intérieure constituée d'un cadre en bois, rembourré en mousse polyuréthane élastique indéformable, associé à un revêtement Dacron. Revêtement extérieur en tissu ignifuge (pour les différentes typologies, se référer au tableau présent dans le tarif). Pieds réglables en matière plastique hauteur 26 mm. Doté de série d'un système métallique spécial pour l'accrochage au siège, constitué par une pince crocodile et une goupille de verrouillage.

**Petit fauteuil.** Structure intérieure formée d'un cadre en bois, rembourré en mousse de polyuréthane élastique indéformable ignifuge, associé à un revêtement Dacron. Revêtement extérieur en tissu ignifuge (pour les différentes typologies, se référer au tableau présent dans le tarif). Pieds réglables en matière plastique hauteur 26 mm. Dossier formé par un panneau intérieur en contreplaqué de 18 mm d'épaisseur, rembourré en mousse de polyuréthane élastique indéformable. Revêtement extérieur en tissu ignifuge (pour les différentes typologies, se référer au tableau présent dans le tarif).

**Accessoires.** Plateau Pannello courbe en contreplaqué de 10 mm d'épaisseur, plaqué chêne à rayures naturelles, finition blanche.

Table basse Structure métallique en tubulaire mm.15x15 peinte en blanc ou noir, plateau écriture dans les finitions suivantes:

- Pannello en cdf blanc, épaisseur 12 mm, bord fuselé sur la partie inférieure pour obtenir une épaisseur visible de 5 mm.
- Pannello en MDF laqué de 19 mm d'épaisseur, bord fuselé sur la partie inférieure pour obtenir une épaisseur visible de 5 mm.

Chargeur USB: Élément amovible avec deux ports USB applicables sur le côté du sofa.

## SCHEDA TECNICA

**Sedile.** Pannello interno in legno spessore mm.18, imbottito con poliuretano espanso elastico sagomato indeformabile ignifugo, spessore mm.60 in due densità, abbinato a rivestimento Dacron. Rivestimento esterno in tessuto ignifugo (per le varie tipologie fare riferimento alla tabella sul listino).

**Strutture metalliche.** Gamba singola costituita da due elementi ad "L" in tubolare metallico quadrato spessore 20/10, dim. mm. 40x40, finitura verniciata bianco o nero uniti mediante un elemento di giunzione in fusione di alluminio.

Gamba doppia a "ponte", costituita da due elementi ad "L" in tubolare metallico quadrato spessore 20/10, dim. mm. 40x40, finitura verniciata bianco o nero uniti mediante un elemento di estensione e due elementi di giunzione in fusione di alluminio.

Gamba intermedia rientrata, per panche doppie oltre i 1800 mm., finitura verniciata bianco o nero, teste ad "L".

Traversi di giunzione metallici dim. mm. 40x20, verniciati bianco o nero; i traversi esterni sono saldati ad un profilo ad "L" spessore mm. 5 dim. mm. 40x40.

Schienale Pannello interno in multistrato spessore mm.30+30, imbottito con poliuretano espanso elastico sagomato indeformabile ignifugo, abbinato a rivestimento Dacron. Rivestimento esterno in tessuto ignifugo (per le varie tipologie fare riferimento alla tabella sul listino). Struttura metallica in profilo piatto 40x5 mm. piegato e saldato ad una lamiera predisposta per la giunzione.

**Tavolino.** Pannello di legno a media densità spessore mm 28 con bordi rastremati, finitura laccato.

**Accessori.** Presa elettrica ed USB di ricarica: modulo cablato a scomparsa con coperchio scorrevole. All'interno una presa elettrica tipo SCHUKO, una presa dati tipo RJ45 CAT.6, una presa USB 5V (ricarica). Colore nero.

Ricarica wireless a induzione: elemento di ricarica diametro mm.80 sotto piano a scomparsa (compatibile con smartphone di ultima generazione).

## TECHNICAL DATA

**Seat.** Inside panel made of wood thickness mm.18, padded with fireproof flexible polyurethane and Dacron foam, non-deformable shape, thickness mm.60 two densities. External covering in fireproof fabric (for the different types, refer to the price list table).

**Metal structures.** Single leg made of two square tubular "L" shaped elements thickness 20/10, dim. mm. 40x40, white or black painted elements coupled with a cast aluminium element.

Double leg "bridge", consisting of two "L" square tubular "L" shaped elements thickness 20/10, dim. mm. 40x40, white or black painted elements coupled through an extension and two cast aluminium elements.

Recessed middle leg for double benches, length over 1800 mm., white and black painted finishing, "L" shaped end.

Metal junction beams dim. mm. 40x20, black or white painted; external beams are welded to a "L" shaped profile thickness mm. 5 dim. mm. 40x40.

Backrest Inside panel made of plywood, thickness mm.30+30, padded with fireproof flexible polyurethane and Dacron foam, non-deformable shape. External covering in fireproof fabric (for the different types, refer to the price list table). Metal structure made of flat profile 40x5 mm. bent and welded to a metal sheet for the coupling.

**Small table.** Medium density wood panel thickness mm 28 with tapered edges, lacquered finishing.

**Accessories.** Electrical socket and USB charging port: Wired module with sliding cover. Including 1 electrical socket SCHUKO, 1 RJ45 port CAT.6, 1 USB 5V (charging) port. Colour black.

Wireless inductive charging unit: Charging module diameter mm.80 retractable under the top (compatible with latest generation smartphones).

## FICHE TECHNIQUE

**Assise.** Panneau intérieur en bois épaisseur mm.18, rembourré en mousse polyuréthane élastique indéformable ignifuge, épaisseur mm.60 en deux densités, associé à un revêtement Dacron. Revêtement extérieur en tissu ignifuge (pour les différentes typologies, se référer au tableau présent dans le tarif).

**Structures métallique.** Piétement simple constitué par deux éléments en "L" en tubulaire métallique carré épaisseur 20/10, dim. mm. 40x40, laqué en blanc ou noir et reliés entre eux par un élément de jonction en fusion d'aluminium.

Piétement double à "pont", constitué par deux éléments en "L" en tubulaire métallique carré épaisseur 20/10, dim. mm. 40x40 peint en blanc ou noir et reliés entre eux par une rallonge et deux éléments de jonction en fusion d'aluminium.

Piétement intermédiaire raccourci, pour banc double de plus de 1800 mm. de longueur, laqué blanc ou noir, extrémité en "L".

Traverses de jonction métallique dim. mm. 40x20, laqué blanc ou noir, les traverses extérieures sont soudées à un profil en "L" épaisseur mm. 5 dim. mm. 40x40.

Dossier Panneau intérieur en contre-plaqué épaisseur mm.30+30, rembourré en mousse polyuréthane élastique indéformable, associé à un revêtement Dacron. Revêtement extérieur en tissu ignifuge (pour les différentes typologies, se référer au tableau présent dans le tarif). Structure métallique en profil plat 40x5 mm. Plié et soudé à une tôle spécifique pour la jonction.

**Petite table.** Panneau en bois de moyenne densité épaisseur mm 28 avec bord fuselé, finition laquée.

**Accessoires.** Ports USB de Recharge: Module câblé avec couvercle de fermeture coulissant. Contenant une prise électrique SCHUKO, une prise RJ45 CAT.6, un port USB 5V (recharge). Couleur noir.

Recharge sans fil à induction: élément de recharge mm.80 sur plateau (compatible avec smartphone de dernière génération).

## SCHEDA TECNICA

**Scocca interna.** Pannello curvato per schienale e braccioli in multistrato spessore mm.12, imbottito con poliuretano espanso elastico sagomato indeformabile, abbinato a rivestimento Dacron. Bordi frontali e superiori contornati da un profilo, imbottito con poliuretano espanso elastico sagomato indeformabile, abbinato a rivestimento Dacron, in continuità omogenea con l'imbottitura interna. Rivestimento seduta interno in pelle o tessuto ignifugo (per le varie tipologie fare riferimento alla tabella sul listino).

La scocca può essere totalmente rivestita in tessuto ignifugo oppure accoppiata ad una contro scocca lignea finita come sotto.

**Contro scocca.** Pannello curvato in multistrato spessore mm.10, unito tramite fresate e speciali sistemi di fissaggio, nelle seguenti finiture:

- impiallacciatura 6/10 protetta da fondo e vernice acrilica trasparente.

**Sedile.** Pannello inferiore in multistrato spessore mm.15 unito alla scocca interna. Pannello superiore spessore mm.13 imbottito con poliuretano espanso elastico sagomato indeformabile, abbinato a rivestimento Dacron. Bordo frontale contornato da un profilo, imbottito con poliuretano espanso elastico sagomato indeformabile, abbinato a rivestimento Dacron, in continuità omogenea con l'imbottitura del sedile. Rivestimento interno in pelle o tessuto ignifugo (per le varie tipologie fare riferimento alla tabella sul listino).

Base con 4 razze in alluminio pressofuso verniciato opaco, diametro 720 mm, piedini fissi in gomma e feltro. Piastra superiore girevole di forma circolare in alluminio pressofuso verniciato opaco, oppure girevole con meccanismo autoallineante.

**Accessori.** Base con colonna di autoallineamento, 4 razze in alluminio pressofuso verniciato opaco, diametro 695 mm, piedini fissi in gomma e feltro.

## TECHNICAL DATA

**Inside shell.** Curved panel for backrest and armrest made of plywood thickness mm.12, padded with flexible polyurethane and Dacron foam, non-deformable shape. Front and upper edge equipped with profile, padded with flexible polyurethane and Dacron foam, non-deformable shape, following without interruption the padding of the seat. Leather or fireproof fabric (for the different types, refer to the price list table).

The shell can be completely padded with fireproof fabric or wood cover with the following finishing:

Wood shell cover Multilayer wood panel thickness mm.10, assembled through milling and special fixing devices, with the following finishing:

- 6/10 wood veneer protected by transparent acrylic base coat

**Seat.** Multilayer under panel thickness mm.15 coupled to the inside shell. Upper panel thickness mm.13 padded with flexible polyurethane and Dacron foam, non-deformable shape. Front edge with profile, padded with flexible polyurethane and Dacron foam, non-deformable shape, following without interruption the padding of the seat. Leather or fireproof fabric (for the different types, refer to the price list table).

Base Four-star base made of matt painted die-cast aluminium, diameter 720 mm, fixed rubber and felt feet. Circular swivel top plate made of matt painted die cast aluminium, or swivel mechanism.

**Accessories.** Base with self-aligning column, four-star base made of matt painted die-cast aluminium, diameter 695 mm, fixed rubber and felt feet.

## FICHE TECHNIQUE

**Structure intérieure.** Panneau courbe pour dossier et accoudoirs en contre-plaqué épaisseur mm.12, rembourré avec mousse polyuréthane élastique indéformable, associé à un revêtement Dacron. Bords frontaux et supérieurs contournés par un profil, rembourrés avec mousse polyuréthane élastique indéformable, associé à un revêtement Dacron, en continuité homogène avec le rembourrage intérieur. Revêtement intérieur en cuir ou tissu ignifuge (pour les différentes typologies se référer au tableau présent dans le tarif).

La structure peut être complètement revêtue en tissu ignifuge ou revêtue en bois avec les finitions suivantes :

**Enveloppe en bois.** Panneau courbe en contre-plaqué épaisseur mm.10, assemblés par fraisage et systèmes de fixation spéciaux dans les finitions suivantes :

- placage 6/10 protégé par couche de fond et peinture acrylique transparente

**Assise.** Panneau inférieur en contreplaqué épaisseur mm.15 assemblé à la structure intérieure. Panneau supérieur épaisseur mm.13 rembourré avec mousse polyuréthane élastique indéformable, associé à un revêtement Dacron. Bord frontal contourné par un profil, rembourré avec mousse polyuréthane élastique indéformable, associé à un revêtement Dacron, en continuité homogène avec le rembourrage de l'assise. Revêtement intérieur en cuir ou tissu ignifuge (pour les différentes typologies se référer au tableau présent dans le tarif).

**Base.** Base 4 étoiles en aluminium moulé sous pression peint opaque, diamètre 720 mm, avec pieds fixes en caoutchouc et feutre. Plateau supérieur tournant de forme circulaire en aluminium moulé sous pression peint opaque, ou mécanisme pivotant.

**Accessoires.** Base avec retour automatique en alignement, 4 étoiles en aluminium moulé sous pression peint opaque, diamètre 695 mm, pieds fixes en caoutchouc et feutre.

## SCHEDA TECNICA

**ON-UP** Scrivanie

**Piani** Pannelli di truciolare nobilitato classe E1 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Due piani suddivisi da fascia h. mm. 50 (conchiglia passacavi nera diam. mm 80 sul piano inferiore della scrivania). Finiture disponibili:

- nobilitato antigraffio, antistatico;

- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio.

Versione nobilitato e laccato con bordi perimetrali ABS spessore mm 2,5.

Fascia tra piani standard laccato, oppure laminato con grafiche o impiallacciato. Opzioni alternative: Coppia casse acustiche, con due altoparlanti fullrange e due tweeter, potenza massima 20 Wms, connessione Bluetooth 3.0, compatibile per Android e iOS, con cavo e retine copri cassa; gruppo prese con due Schuko e due USB di ricarica; fascia in plexiglass con LED luminoso completo di alimentatore.

**Strutture metalliche** Gamba in tubolare metallico spessore 20/10, diam. mm 35, finitura verniciata a polveri bianco, nero o cromata, completa di piedino snodato con base piana in materiale plastico nero per la regolazione millimetrica al pavimento. Telaio strutturale nascosto tra i piani in tubolare metallico spessore 20/10, dim. mm 50x20.

**Strutture in legno** Gamba pannellata in truciolare nobilitato classe E1 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 18. Finitura come piani. Tubo poggiapiedi in acciaio diametro mm 60.

**Accessori** Ricarica wireless: elemento di ricarica diam. 80 mm su sotto piano (verificare compatibilità smartphone). Frontale sottopiano in pannello spessore mm 12 in nobilitato Compact top o laccato. Cappottina fonoassorbente: scorrevole o fissa rivestita con tessuto fonoassorbente, dim. 65x65x70H cm. Divisorio: scorrevole o fisso, rivestito con tessuto fonoassorbente dim. 65x35x3 cm.

**OP STOOL:** struttura in metallo, finitura verniciata a polveri bianco o nero; Sedile in multistrati, spessore mm 28, finitura laccata.

## TECHNICAL DATA

**ON-UP** Desks

**Tops** Melamine particle board panels, class E1 with low formaldehyde emission, class 2 fire proofing, 18 mm thick. Tops divided by 50 mm-high strip (shell for cables in-feed - diam. 80 mm on bottom top desk). Finishing available:

-melamine, scratchproof, antistatic;

-polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching.

Melamine and lacquered version with 2,5 mm thick ABS edges.

Band between tops on standard version lacquered, laminated with graphics or veneered. Options: Pair of speakers, with two speakers fullrange and two tweeter, maximum power 20 Wms, connection Bluetooth 3.0, compatible for Android and iOS, with cable and front speaker panels; two Schuko and two USB rechargeable sockets; plexiglas strip with LED lighting with power supply.

**Metal structures** Leg made of 20/10 tubular metal, diam. 35 mm, white, black powder-coated or chrome finish, complete with articulated foot - black plastic base plate for millimeter regulation to floor. Hidden structural frame between tops in 20/10 tubular metal, dim. 50x20 mm.

**Wooden structure** Leg made of melamine particle board panels, class E1 with low formaldehyde emission, class 2 fire proofing, 18 mm thick. Same finishing as tops. Footrest pipe steel, 60 mm diameter.

**Accessories** Wireless recharger: rechargeable element diam. 80 mm under top (check compatible with smartphone). Modesty panels in 12 mm thick, melamine Compact top white or lacquered finishing. Soundproofing coverage: sliding or fixed coverage with soundproofing fabric, dim. 65x65x70H cm. Screen: sliding or fixed screen covered in black fabric dim. 65x35x3 cm.

**OP STOOL:** metal structure, white or black painted; seat made in plywood, 28 mm thick, lacquered.

## FICHE TECHNIQUE

**ON-UP** Bureaux

**Plateaux** Panneaux en aggloméré mélaminé de classe E1 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm. Deux plateaux divisés par un bandeau de 50 mm de haut (coquille passe-câble noire, 80 mm de diamètre, sur le plateau inférieur du bureau). Finitions disponibles :

-mélaminé antirayure, antistatique ;

- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures.

Version mélaminé et laquée avec bords en ABS, épaisseur 2,5 mm.

Bandeau parmi les plateaux standard laqué ou bien avec graphiques ou plaqué. Alternatives en option: Paire de haut-parleurs, avec deux haut-parleurs fullrange et deux tweeter, puissance maximale 20 Wms, connexion Bluetooth 3.0, compatible pour Android et iOS, pourvues de câble et de filets couvre-caisse; groupe de prises comprenant deux prises Schuko et deux prises USB de recharge; bandeau en plexiglas avec LED lumineux avec alimentation.

**Structures en métal** Piètement en pièce tubulaire en métal (épaisseur 20/10, diamètre 35 mm), finition laquée blanc, noir ou chromée, avec pied articulé et base plate noire en plastique pour le réglage millimétrique au sol. Encadrement structural caché parmi les plateaux en pièce tubulaire en métal, épaisseur 20/10, dimensions 50x20 mm.

**Structure en bois** Piètement Panneaux en aggloméré mélaminé de classe E1 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 18 mm.

Finitions comme plateaux. Repose-pieds en tube d'acier diamètre mm.60.

**Accessoires** Recharge wireless: Élément de recharge diam. 80 mm. sous plateau (vérifié la compatibilité smartphone). Voiles de fond en panneau épaisseur mm 12 en mélaminé Compact top blanc ou laqué. Capuche insonorisation: coulissante ou fixe revêtue en tissu absorbant les sons, dim. 65x65x70H cm. Cloison: coulissante ou fixe, revêtue en tissu absorbant les sons dim. 65x35x3 cm.

**OP STOOL:** structures en métal, finition laquée blanc ou noir. Assise réalisée en bois stratifié, épaisseur 28 mm, finition laquée.

## SCHEMA TECNICA

**Piani di lavoro, gambe, fianchi, spalle di chiusura, ripiani** Pannelli di truciolare nobilitato classe E1 a bassa emissione di formaldeide, reazione al fuoco classe 2, spessore mm 28, finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanici trasparenti.

Versione nobilitato e laccato con bordi ABS spessore mm 2. Versione impiallacciata con bordi in tranciato di legno spessore mm 2. Fianchi reception (gambe) bordati ABS spessore mm 0,6, con piedini per la regolazione millimetrica al pavimento.

**Piano di lavoro per postazione lineare o curva con video** Caratteristiche generali come precedente, presenta inoltre un foro sagomato appositamente per consentire l'appoggio di un video (fino a 19") su un piano ribassato laccato spessore mm 18, regolabile a due diverse altezze grazie a due staffe metalliche dotate di due fori con piolini di sostegno. Piano ribassato a mm 55 o a mm 110.

**Frontali, schiene** Pannelli di truciolare nobilitato, spessore mm 28, finiture disponibili:

- nobilitato antigraffio, antistatico;
- laccatura poliuretanica realizzata a più strati in grado di garantire i massimi livelli di resistenza all'abrasione ed al graffio. Per la sola finitura alluminio, laccatura acrilica;
- impiallacciatura 8/10 protetta da fondo e vernice, poliuretanici trasparenti.

Versione nobilitato e laccato con bordi ABS spessore mm 2. Versione impiallacciata con bordi in tranciato di legno spessore mm 2. Gli elementi curvi sono realizzati in multistrati, spessore mm 28, disponibili solo con finitura laccata oppure impiallacciata. Zoccolo paracolpi a terra in laminato alluminio semilucido h. mm 60.

All'interno il frontale è protetto, sopra il piano, contro gli spruzzi d'acqua, con uno schermo in acridite semitrasparente. Il piano è in MDF idrorepellente, finitura laccata. Il lavello di diametro mm 435 è in acciaio satinato. Il rubinetto in ottone cromato chiaro lucido.

**Piano alzatina** Vetro molato filo lucido spessore mm 5+5 con film opalino, profondità mm 246, fissato a staffe in metallo colore alluminio oppure a spalle o a fianchi.

**Porta va e vieni** Struttura come frontali lineari. In un lato agiscono due cerniere a doppia azione contro un montante di larghezza mm 60 da fissare a muro. Dall'altro lato sulla parte superiore è presente una maniglia di colore alluminio.

**Accessori Portapenne e portacd** in acridite opalino spessore mm 4. **Elemento porta-computer** su ruote in lamiera forata, verniciato a polveri colore alluminio.

**Elettificazione** canalina in materiale plastico. **Scatola elettrica** in metallo colore alluminio con due prese Schuko e due prese RJ45.

## TECHNICAL DATA

**Worktops, legs, sides, end panels, shelves** Melamine particle board panels, class E1 with low formaldehyde emission, class 2 fire proofing, 28 mm thick, with finish as follows:

- melamine, scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

Melamine and lacquered version with 2 mm thick ABS edges. Veneered version with 2 mm thick sliced veneer edges. Counter sides (legs) 0,6 mm thick ABS bordered sides, with feet for millimetre regulation to floor.

**Worktop for linear or curved workstation with monitor** The same general features as above, but with a specifically shaped hole to house a monitor (up to 19") on a recessed top 18 mm thick, which can be adjusted to two different heights using two metal brackets. Top recessed to 55 mm or 110 mm.

**Fronts, backs** Melamine particle board panels, 28 mm thick, with finish as follows:

- melamine scratchproof, antistatic;
- polyurethane lacquer finish, in several layers to guarantee maximum resistance to abrasion and scratching. Only for aluminium finish, acrylic lacquering;
- 8/10 wood veneer finish with transparent base coat and polyurethane protection.

Melamine and lacquered version with 2 mm thick ABS edges. Veneered version with 2 mm thick sliced veneer edges. The curved parts are in plywood, 28 mm thick, only available in lacquered or veneer finish. Buffer floor base in laminated semi-gloss aluminium, height 60 mm.

Inside the front is protected above the top from water by a semi-transparent acrydite screen. The top is made of lacquered, water-repellent MDF. The 435 mm diameter sink is made of stainless steel. The tap is clear bright chromed brass.

**Reception top** 5+5mm glass with polished edge, with opaline film, 246 mm deep, fixed on metal supports, aluminium painted, or on end panels or sides.

**Double action door** Structure as the linear fronts. Two double-action hinges support the door on a 60 mm upright to fix to the wall on one side. The other side has an aluminium-coloured handle in the top section of the door.

**Accessories Pen holders and CD racks** made of opaline acrydite 4 mm thick. CPU holder on castors in punched plate, aluminium powder painted. **Cable management** in plastic. **Electrical box** in aluminium color with two Schuko + two RJ45 sockets.

## FICHE TECHNIQUE

**Plateaux de travail, piétements, côtés, épaules, étagères** Panneaux en aggloméré mélaminé de classe E1 à basse émission de formaldéhyde, réaction au feu classe 2, épaisseur 28 mm. Finitions disponibles:

- mélaminé antirayure, antistatique;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

Version mélaminé et laqué avec chants en ABS, épaisseur 2 mm. Version plaqué avec chants en feuilles de placage tranchées, épaisseur 2 mm. Banques d'accueil avec côtés (piétements) chants épaisseur 0,6 mm, piétements équipés de vérins de réglage millimétrique au sol.

**Plateau de travail pour poste linéaire ou curviligne avec écran vidéo** Caractéristiques générales comme précédent, mais avec un trou profilé pour permettre d'insérer un écran vidéo(jusqu'à 19 pouces) sur un plateau surbaissé épaisseur 18 mm, réglable sur deux hauteurs différentes. Plateau surbaissé à 55 ou 110 mm.

**Façades, dos** Panneaux en aggloméré mélaminé, épaisseur 28 mm, finitions disponibles:

- mélaminé antirayure, antistatique;
- laquage polyuréthanique, réalisé en plusieurs couches, en mesure de garantir des niveaux de résistance optimaux à l'abrasion et aux éraflures. Seulement pour la finition en aluminium, laquage acrylique;
- placage 8/10 protégé par un apprêt et une laque polyuréthaniques transparents.

Version mélaminé et laqué avec chants en ABS épaisseur 2 mm. Version plaqué avec chants en feuilles de placage tranchées, épaisseur 2 mm. Les éléments courbés sont réalisés en bois stratifié, épaisseur 28 mm, disponibles seulement avec finition laquée ou plaquée. Base pare-chocs au sol en laminé d'aluminium demi-brillant (h. 60 mm). À l'intérieur et au-dessus du plateau, la façade est protégée contre les éclaboussures d'eau par un écran en acrydite semi-transparent. Le plateau laqué est hydrofuge, en fibres de moyenne densité. L'évier de 435 mm de diamètre est en acier satiné. Robinet en laiton chromé, clair et brillant.

**Plateau d'accueil** Verre poli à fil lucide, épaisseur 5+5 mm avec film opalin, profondeur 246 mm, fixé sur équerres métalliques, laqué couleur aluminium ou épaules ou côtés.

**Porte pivotante à double action** Structure identique à celle des façades linéaires. Deux charnières à double action agissent d'un côté contre un montant de 60 mm de largeur, à fixer au mur. De l'autre côté, en haut, il y a une poignée de couleur aluminium.

**Accessoires Plumiers et port-CD** en acrydite opalin de 4 mm d'épaisseur. **Support pour ordinateur** sur roulettes en tôle percée, laqué époxy couleur aluminium.

**Electrification** en matière plastique. **Coffret de branchement** en aluminium avec deux prises Schuko + deux prises RJ45.
