MULTIMEDIA CENTER

ON-up

High Desk

ON-up is an high desk to use for short working time where you can charge your phone, isolate acoustically to make business calls, talk confidentially. The working top hides a space inside to install: LED lights, loudspeakers connected wireless with your own electronic devices, USB sockets for charging.

with Modesty Panel

Modesty panel for a new idea of counter. Adjustable and fixed panels,

with Acoustic Hood

It is possible to install a hood for greater privacy, all realized with a material suitable to ensure an acoustic soundproofing comfort.

OP-stool

Stool

OP-stool has a curvilinear structure in steel and seat made of curved plywood. In addition to its sinuous shape that awards a great clean design. Available in different colors, it makes an environment dynamic and comfortable.

with Paneled Legs

Paneled shell legs, a different image for many other uses,

with Acoustic Partition

Through partition panels it is possible to divide the space to allow to different users an acoustic and visual isolation.

TWIST-reception *liftable*

TWIST-sofa

Sofa

Twist-sofa and BG-sofa is a modular seating system, made with a comfortable technical fabric coated padded and a vertical panel, covered on the internal side by sound-absorbing material,

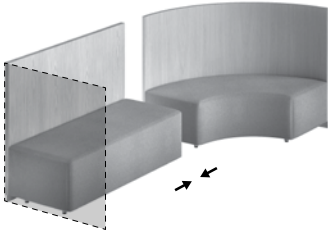

Reception

Twist-reception is a desk made with a curved plywood front, it is equipped with adjustable height working top using suitable control unit. Each module is a micro office environment and can be used to create compositions to be included in open-space environments and to organize the working space in functional and aesthetically pleasing ways at the same time.
